A Berlinite writing to the News-Record from Hamilton gives the following incident showing at the same time the sterling honesty of one of the citizens of that city and the grim liberality of one of the business houses there: "To John Patterson the city owes much for the inauguration of numerous industrial enterprises, and the citizens have great faith in him. At present he has his hands full, but they expect to see him win out and take a place along with Carnegie and others who are bothered as to how to spend their money. They tell a story of John that years ago he entered upon an enterprise that didn't pan out and John failed, owing a considerable amount, among the items being \$40,000 to a bank. John wasn't beaten, however. He went at it again and succeeded. Seven years had elapsed and as far as the law went Mr. Patterson might have told his creditors to go to pot. But he didn't; he started out and paid his debts. He walked into the bank where he owed that \$40,000 and handed the manager a cheque for the full amount of debt with interest at three per cent. The manager had a right to drop dead with surprise. But he didn't. He boned Patterson for six per cent. Hamilton people haven't wings, but they get there just the same."

EDITORIAL NOTES.

The village of Brussels loses a valuable industry in the removal of the famous Ronald Engine Works to London. Mr. Ronald has made his name famous and has been a great benefactor even beyond the limits of the American continent, and the following clipping from the new Company's circular will be generally endorsed: "Mr. Ronald now retires to a well earned rest, having been in harness since 1856, the founder, the pioneer, the winner of five medals, leaving behind him a name that has become a synonym for good work and a knowledge of victory in many hard battles in the struggle to place Canada to the front."

On another page in this issue we give a full description of Mr. Victor Popp's invention of a system of wireless telegraphy which may revolutionize the electric methods of conveying messages. Its simplicity and cheapness makes one wonder that it was not discovered long ago.

A couple of weeks ago we took occasion editorially to call attention to injuries done through newspapers to manly sport by carping criticisms and unfair reports. The Stratford Herald had not read our article, evidently, before it published the very "yellow" report it gave of a lacrosse match at Bright in which Stratford was defeated and which ended in a free fight. The Herald says "matters culminated when a Bright man struck a Stratford man on the arm with a stick when the latter had not the ball." That looks very unfair of Bright. But a responsible eyewitness of the game informs us that "the Bright man had the ball and was throwing it when the Stratford man accidentally got hit, and not very hard at that. The Stratford player at once struck the Bright player with his stick and immediately followed it with a blow from his fist." Is it any wonder that the Bright boy's father and friends rushed into the scrap under those circumstances? The Herald is really a fine daily and we're sorry to see it running amuck in that shape.

As a matter of fact the little hamlet of Bright plays gentlemanly, winning lacrosse every year, but is "up against" so much unfair criticism from some of the other lacrosse towns in its district that it regularly fails to land the district championship, which it wins nearly every year from such big cities and towns as St. Marys, Woodstock and Stratford.

Whatever the British nation thinks of Paul Kruger its sympathy will not be withheld in the death of Mrs. Kruger, which occurred at Pretoria the other day. It must indeed be sad for the old man to realize that he could not be by the bedside of his dying wife nor be present at her interment because of the punishment which his fool-

NEIGHBORHOOD NEWS.

Monday, Aug. 5th will be Stratford's Civic Holiday.

Dr. George Schmidt passed away at 7 o'clock last Thursday evening at his home in Milwaukee. He practised at one time in New Hamburg and also at Sebringville. He was a brother of Mr. J. H. Schmidt, publisher of the Stratford Colonist. Death was caused by cancer of the stomach.

Mr. Wm. James, near Maplewood, had his right arm broken at the wrist the other day by a steer tramping on it.

A farmer above Waterloo claims to have cut four tons of hay to the acre this season.

Three hotel licenses in Guelph City have been cancelled, viz. that of the Fountain House, Imperial Hotel and the Union Hotel. Mr. Jas. Johnston was granted a license for his new restaurant.

Mahoney, the man who made such a brutal attack on a fellow ditcher at Atwood two or three weeks ago, was sentenced by P. M. Terhune, of Listowel, to serve nine months in the Central Prison.

A correspondent writing from New Dundee says: "About six couples in this village intend entering the marriage relation in a short time, according to the town gossip. More later." The writer does not state whether he means more marriages or more couples.

A coroner's jury has found that Otto Saucha, of Waterloo, was insane when he hanged himself.

A farmer in Brooke had lightning rods put on his barn a few days ago and the same night the barns were struck by lightning and burned.

The Stratford Herald says:—The shirt waist for men is somewhat slowly, but surely, gaining a place in this city. Shirt waist wearers can now be counted by the dozen down town at almost any time of day. Pink is a favorite color. The whole force of letter carriers in Cleveland have been provided with shirt waists. They are of a slate color, and the carriers are required by the department to wear them.

Milverton Sun.—A canvas covered wagon passed through Milverton Wednesday afternoon of last week, the occupants of which were Mr. and Mrs. Wm. Sperling and their seven children, residents of De Witt, Nebraska. They had left their home on May 1st last, and driven all the way. Mr. Sperling and wife are Canadians, and some fifteen or more years ago resided near Ayton, which is their present destination. They have travelled between fourteen and fifteen hundred miles, making from twenty-five to thirty miles a day. Mr. Sperling chose this way of travelling on account of ill health and has found it beneficial both to himself and family, although they are nearing their journey's end. The wagon, which is of the carryall pattern, was specially made for the trip, and is a veritable house upon wheels, being fitted up for living in, with oil stove, lamp and furniture, also hammocks for sleeping in, and an apartment at the bottom for clothing, etc. The family purpose spending a couple of months among their friends in the vicinity of Ayton, and will return to Nebraska in the fall in the same way as they have journeyed here.

The lawsuit between a woman in Windsor, Ontario, against her half-brothers, for her share of her mother's estate, has revealed a curious complication. A man named James Dunn, jr., died, and his widow, who had some children, was married by the father of the husband deceased, James Dunn, sr., and further children were born. The courts and community are all tied up in knots figuring out the relationship the various members of the family bear toward each other. The old gentleman became the brother-in-law of his sons and the grandfather of his own children. His children by his second wife are their own uncles, and brothers-in-law to their
