The Maple Leaf
ONE YEAR for \$1.00

The Montreal
Daily Herald
And a Splendid Picture of
King Edward VII.50
Total \$4.50
ALL FOR \$1.75

This is the greatest combination offer ever made by any Canadian journal, and we are fortunate in securing the exclusive privilege for this district. The Daily Herald one of Canada's great papers. Established in 1867, it has long been the leading Liberal paper of Eastern Canada. It is now a great family newspaper, each day giving full news of the world, and also devoting much space to matters of peculiar interest to the family. Its commercial intelligence is complete and reliable.
THE KING'S PORTRAIT is the best ever published in Canada, and will make a handsome addition to the walls of any library. It is produced by a new process, and is not one of the flimsy colored portraits so common.
As the regular price of The Herald is \$2.00 a year, the liberality of our offer is self-evident.
ADDRESS ALL ORDERS TO
THE MAPLE LEAF,

TAVERNIST POST OFFICE.
Orders may be left at the WELLESLEY MAPLE LEAF OFFICE, where dates can be set and liberal terms made.

LISBON.

(Intended for last week.)
Wedding bells will be ringing in the near future here.
Mr. and Mrs. C. Wilker, of Rosstock, spent Sunday the guests of P. Wagner.

Masters John and Henry Schmidt and sister, of Topping, spent Sunday at Mrs. Pfeffer's.

Mr. and Mrs. Geo. Becker spent Sunday with relatives at Ratzburg.
Mr. and Mrs. Eby, of New Hamburg, were guests of friends in this village the other day.

Mr. Henry Hohl, accompanied by his son, Henry, visited in Bamberg the early part of the week.

FIFTE LINE.

June 16, 1902.
Communion Services were held last Sunday in Zion Church, 3d Line. Rev. Mr. McKinnon, of Glenallen, preached.

A Sunday School picnic will be held next Saturday afternoon in Mr. Alexander Hammond's bush. The committee of boys is expected to be on hand Friday, at 1 p. m., to make preparations for same. Bring saws, hammers, etc.

The uncertainty of the weather on Sunday caused some of the boys to stay at home; others it did not.

Mr. Wm. Richardson's peacock is going its rounds.

Mr. Joseph Albrecht and C. K. N. Lichty are putting in several hundred rods of tile drains for J. K. Hammond. They are excellent men at the business.

It is reported that the rats are very troublesome about the school and vicinity. It is hoped that our good trustees will not neglect their duty and provide the teacher with a good large rat-trap—one that will not hurt the rat would be the best.

NORTH EASTHOPE COUNCIL.

The Court of Revision in respect of the assessment of the township for the year 1902 was held at the town hall on Monday, May 26th, at 10 a. m., and was duly constituted by the members of the council who were present, severally taking the oath required by law.

The minutes of the previous meeting were read and confirmed.

The following appeals were dealt with: Canada Company asked to have lot 29, con. 7, assessed to Geo. Court as tenant; changed as requested. Wm. Schildreth, as too high assessed and too much acreage; appeal dismissed. William Miller asked to have Old Krug property assessed to Wm. Habermehl as owner; changed as requested. Dougald McMullan asked to have a 1/2 lot 22 con. 9, assessed to Chas. Wilhelm as owner; changed as requested. These being all the appeals, the Court adjourned to meet on June 23, at 2 p. m.

The following business was transacted in council:
Andrew Wilhelm asked to have ditch on con. 4 and 5, opposite lot 21, cleaned out. Council agreed to pay half and Wilhelm half. Messrs J. C. Cook and Fraser were appointed a committee to examine ditch and fix price. Jacob E. Wettnafer appeared before the Board with a similar request on Concession 6 and 7, opposite lot 19.

Agreed that township dig one half. Wettnafer half, and put on tile.

James McGillivray asked that something be done to ditch on 20th side line, con. 5; agreed that McGillivray provide the tile and township does the rest. Joseph Nafziger asked for grant on side line 26, con. 13. Allowed \$25.

Mr. G. S. Hyde, Shakespeare, was

appointed arbitrator to act on the petition of William Hindman and others.

The clerk was instructed to notify the secretary of each school section in the municipality not to allow any children to attend school unless they had been vaccinated within the past seven years, a request to that effect having been received from the Board of Health.

Messrs. Julius Cook and A. McDonald were appointed a committee to wait on the County Council at the June sitting re Wellesley and North Easthope boundary.

A letter from Dr. W. K. Robertson, Stratford, asking permission to erect telephone poles along the boundary line of North Easthope and Ellice, on the N. E. side, was read and filed for future consideration.

A request was made that the council pay part of the cost of a new top on the bridge leading in J. H. Quehl's, a large quantity of gravel being drawn over it each year for road purposes. Council agreed to pay one half cost.

A number of accounts were examined and cheques issued therefor, when the council adjourned.

LINWOOD.

June 16.
Mr. and Miss Rowell, of Woodstock, are spending a few days with Mr. and Mrs. R. J. Kerr.

Mr. Ed. Baker, of Millbank, visited his home here yesterday.
Mr. and Mrs. Lackner, Miss Carrie Hilke, and Messrs. George and Fred Hilke spent Sunday at Mrs. Hilke's.

On Saturday the Hawkesville Junior Foot Ball team played a match with our Juniors in the Renniss field. Play was in general a little rough, and Mr. Ed. Heinbuck received an unpleasant kick. He was however, nearly all right in a few hours. The game resulted in a draw. The cheese factory is booming, and Mr. Parr and his assistant, Mr. Schlutter, are kept very busy. May cheese was sold for 9 1/2 cts.

The members of the Tennis Club are down to practice in good shape and are making excellent progress.

We understand that Mr. Berlot's ice cream parlor was patronized on Saturday evening to the extent of four or more freezers of the cold article. This will certainly encourage Mr. Berlot in his determination to cool the town for one evening in the week at least.

CROSSHILL

June 16.
Messrs. Schnarr, Linwood, visited at Mrs. Ward's, "Model Farm," on Sunday.

Mr. and Mrs. James Hastings, Mornington, were visiting relatives and renewing acquaintances the past week.

Misses Ross, Newton, were the guests of Mrs. Jean Coleman, on Wednesday.

Mr. Morris Rutherford, of Galt, was in town a day or so on business - Alberta Snider, Berlin, spent Sunday under the parental roof.

Mr. John Playford had a successful barn raising on Wednesday evening. There has been a few of these recently and more to come, so that the carpenters are still busily engaged.

The wire fence brigade are having a busy time this season, judging from the number that have been put in the immediate neighborhood.

The thinning of sugar beets has become quite an industry with the farmers for the past few days. The crops have a fine appearance and the frequent rains are doing their good work.
The C. O. F. Pic-nic has been set

for June 26th. See posters for information.

HUBERSVILLE.

June 16.
The farmers of this section are busy doing road work.

Mr. James Roe, of the Toronto police force, who has been holidaying here for the past week, returned to Toronto on Saturday.

Mr. and Mrs. Geo. Miller spent a day in Listowel last week.

Mr. Alex. Miller was at Stratford on business on Wednesday.

Mrs. Robt. Lennox, of Baden, spent a couple of days with friends here last week.

Andrew Lennox, Baden, spent Sunday with his mother.

David Marron, and sister Edith, of Mornington, spent Sunday at Geo. Miller's.

Mr. and Mrs. Robt. Tanner, of Newton, spent Sunday at A. Miller's.

The Berlin News-Record is agitating for a two-days' Twin-City celebration in the near future.

Stratford and Brantford played a semi-finals football game in Stratford last Monday, neither side scoring.

Fifty-eight boys, sixty girls and two adults were confirmed at St. Joseph's church, Stratford, on Sunday, Bishop McEvay, of London, officiating.

As a result of the South African war 28,434 men on the British side are dead or incapacitated.

If the Ontario Parliament were in session the Ross government would be sustained by a majority of one. Out of 98 seats 47 are held by the Conservatives, 49 by the Reformers, one is a tie as yet, and one is vacant through death. Deducting one vote for the Speaker, Ross has only 48 members. It is no wonder, therefore, that the present is a somewhat anxious time for politicians.

A gentleman from Markdale had never stopped at a big, modern hotel until he visited Toronto recently. After going to his room he wanted a drink of water and on looking around to find some saw the word "push twice for water," under a button in the wall. He pushed twice, then held an empty glass under the button, and in that position the cell boy found him when he arrived with the water.

Managers of the Western Bank of Canada were in the village on Tuesday making overtures to the banking firm of R. Ranney & Son, with a view to purchasing their business and good will and establishing a branch of the Western Bank here. Mr. Ranney hesitated in acceding to their proposition and will take some time to consider the matter before taking any action.—Milverton Sun. Later information states that the transfer has been made and the "Western" is in possession.

Galt Reporter is—Lieut.-Col. Acheson was informed by a militia officer a few days ago that the 29th Waterloo regiment, like other regular regiments, would not go to camp this year. The reason that has been given for this, though not from an official source, has been that it is inadvisable to hold camp owing to the absence of a number of the officers of the permanent force. This scarcely holds water, however, as the officers of the volunteer force are capable of conducting all matters without the assistance of the few permanent officers who will be at the Coronation. The fact that there is to be no camp this year will be very unwelcome news to almost all members of the Regiment, officers and men.

EDITORIAL NOTES.

The assessment rolls of the township of Wellesley were handed in at the last regular council. From them we glean the following facts: The assessors have raised their values of township properties from \$2,109,000 to \$2,800,200—just about one-third.

Table with 2 columns: Item and Value. Includes Total assessment, Total population, Bet ages of 5 and 21, Male persons 21 to 60, Total days of statute labor, No of cattle, No of sheep, No of hives, No of horses, No of dogs, Total No acres, Acres woods, Acres swamp, Acres orchard and garden, Acres fall wheat, No of steam boilers, No of births, No of deaths.

The appeals entered at the Court of Revision reduced the assessment by \$1,600, while the number of dogs was brought down by 11.

With only 519 dogs to worry 3472 sheep the council ought to escape a big sheep claim account this year. This collection of dog taxes and paying damages for worried and killed sheep is a sort of insurance between the people and the council and it is a slight source of revenue to the Board. The system might be much improved however. A schedule of rates that would tax a useful, necessary dog at about one cent, while the night-howler, the "faller" thief and the variety that puts in its idle life in barking at passing rigs and biting children, paid a tariff of about \$10,000 each would give general satisfaction to suffering public.

King Edward VII will be crowned on the 26th inst. with all the pomp befitting the greatest monarch of the present day. A more propitious time could not have been selected. Although the British Empire extends to all parts of the globe, and her flag floats over almost every known race, yet since the happy termination of the South African war, the Empire is at peace with all the world and not a British soldier is engaged in active hostil-

In fact, with the possible exception of some of those South American Republics, it happens that all the world is at peace, and all the nations who have watched British glory on the battle field will now have leisure to gaze on the glory of the British pageant.

The labor question is getting to be a puzzle in this part of, if not all over, Ontario. Farmers are at their wits' ends to secure adequate help and willing hands need not be long idle. The wages paid are far in advance of what was offered a few years ago, the farmer being compelled to give more in order to compete with the high prices paid in Manitoba. Fortunately the advanced prices of almost everything Ontario produces permits the increase of wages without loss while the propitious weather and the scien-

time advance in farming methods have worked to the mutual advantage of employer and employee. If the old world is over stocked with sturly laborers, the opportunity that Canada offers should work a large increase in our population while this era of prosperity continues.

The scarcity of laborers has made the statute labor question one of peculiar importance in the townships. The pathmasters in Wellesley village refuse to commute at less than one dollar per day of eight hours, and they claim that they have difficulty in getting the road-work done even at this price. There are in Wellesley township 5882 days of statute labor assessed against the rate-payers for this year. Besides this vast amount of work the council spends about \$2,000 per year upon the two hundred miles or so of roadway in the township. Allowing the statute labor to be commuted at 50 cents—just one-half of what the Wellesley village pathmasters demand—the rate-payers and the council combined expend for this purpose alone the enormous sum, in round numbers, of \$5,000—or about \$25 per mile—spent every year on the roads of our township. Is not this immense annual expenditure one that ought to produce better results than it is doing? Does it not deserve more serious consideration than it is getting from the rate-payers? Is this a day of scientific business methods?

LOCAL NEWS.

Read W. Kelterborn's adv.
Hay crops promise to be immense in this section.
Good, fat calves wanted by Berdux & Son, butchers.
Remember the band boys' strawberry festival tonight.
The bridge at the roller has been newly floored with plank this week.
Wool is coming in to the Reiner Bros. & Co. mills in large quantities these days.

Mr. B. Wagner is adding a fine new kitchen to his residence, next the tennis lawn, on Queen street.
The rain on Sunday evening, and the cold wind and frost which followed, made the fore part of this week somewhat disagreeable outdoors.

The Wellesley Maple Leaf baseball club is getting in shape to go to the Foresters' picnic, at Crosshill next Thursday, where they are to meet the Newton team.

Quite a number from here are arranging to attend the Foresters' picnic at Crosshill on Coronation Day—June 26th. A fine program of sport and entertainment is being prepared.

There is talk on the streets of a chartered bank being located in this village before long. The Western Bank has become quite popular in this section, and many hope, if a bank is to be located here, that institution will take hold of the matter.

Active steps are being taken to secure proper improvements at the boundary line, west of this village, known as Grehm's flats. The Wellesley and North Easthope councils have appointed committees to attend the Waterloo and Perth county councils with the view of getting aid from each towards putting that strip of road into decent shape.

The new uniforms for the Wellesley Brass Band are now finished and the boys will appear in them for the first time at their festival tonight. Their street parade will occur at about 7 o'clock, p. m. The suits are a pretty blue in color, with gold trimmings and epaulets, and the workmanship is a credit to our popular young merchant tailor, Mr. Chas. D. Koehler.

Lords of the North.

One of the greatest Canadian works of fiction, "Lords of the North," has recently appeared from the pen of a new writer, Miss A. G. Laut. The Montreal "Daily Herald" has been fortunate in securing the rights of this new story for serial reproduction, and is just beginning its publication. In order to interest the reading public in the story The "Herald" announces that it will send its duffly edition free for two weeks, beginning with the first issue of the story, to any one sending in their name and address to the "Daily Herald," Montreal.

Next Saturday will be the longest day of the year.

Big money paid for 60 fat calves. F. Berdux & Son, butchers.

A good second-hand square piano for sale for \$75. This office.

Mrs. Wm. Kelterborn returned on Tuesday from a visit to her parents in Berlin.

New lady's bicycle at second price for cash, latest model. Apply at once, at this office.

The village pathmasters are making great improvements in the streets and side-walks in town this week.

Mr. John Ross, who was employed in this office for the past month or so, has returned to his home in Plattsville.

Next Thursday, June 26th, is Coronation Day. It will likely be observed as a holiday here and the business places closed.

The Tavistock Tennis Club is expected here to-morrow—Friday afternoon—for a friendly game and visit. A pleasant time is expected.

Mr. John W. Fleischhauer and Miss Martha Moyer were among the Wellesleyites who took in the Detroit excursion from Berlin on Tuesday. Mr. Fleischhauer is expected here to-night.

Union Sunday School next Sunday morning at 10:30 o'clock. At 3 p.m. there will be services in English when Rev. Mr. Draper will preach on the subject, "The Candle of the Lord."

The Raymond Company played to very poor houses on Friday and Saturday evenings of last week. Their entertainment the first evening was a very good one but they did not do nearly so well in their last performance.

The Milling Company is making an extensive improvement in front of the roller mill. The large driveway is being filled in and levelled so that the property will be much improved in appearance, as well as being much more convenient for the heavily laden vehicles which are constantly using that point.

A long stretch of granolithic sidewalk is being laid on the south side of the street opposite the public school. This is the first walk of the kind in the village and it will be a great improvement over the old planking. The large number of people who attend the churches on that street, as well as the school children, will appreciate the change.

PATERSON—SCHMIDT.

A pretty wedding occurred at the home of Mr. John Schmidt, Lisbon, yesterday, when his daughter, Miss Mary, was united in marriage to Mr. Maurice Paterson, a popular young North Easthope man. Rev. G. Holm officiated at the ceremony in the presence of a gathering of friends of the interested parties. After the wedding dinner the happy couple left for the groom's fine farm, south of Ratzburg, where their many friends hope they will enjoy long, happy and prosperous married life together.

DOERING'S CORNERS.

June 16th, 1902.
Mrs. D. Goodall from Woodstock, is visiting at Mr. Adam Wegfahrt's. She intends to remain a month or so while her husband is in the Northwest on a business trip.

Mr. Chas. Wegfahrt is on the sick list at present. We wish him a speedy recovery.

Mrs. Henry Handstein is still confined to her bed by illness.

Mr. Peter Witzel, of Gadshill, was visiting friends in this neighborhood this week.

We noticed in the last issue of the Stratford Colonist that Mr. Bender, of East Zorra, had a hive of bees swarm on May 23rd. Mr. Samuel Axt had a hive swarm on the 22nd. Better.

Mr. Geo. P. Schmidt from Nithburg, was at Heipel's over Sunday.

Mr. Wm. Otto has started his milk route this morning.

Mr. Levagood was in Stratford on business one day last week.

WINTER IN JAPAN.

The Natives Make Little Effort to Combat the Trying Conditions.

The Japanese winter is most trying on account of its continual dampness, but the Japanese are content to remain cool. They make almost no effort to overcome it. The old "bushido" (chivalrous idea of the "samurai" knights) was that it was fortunate to feel cold, and such is their severe training that they do not really feel it as we do. The wearing of some extra "kinousen" and the use of a "hibachi" or brazier in which are a few tiny sticks of lighted charcoal are the only concessions to winter weather. With the "hibachi" they never pretend to heat more than their finger tips, which they hold over the coals. It is used when the house is entirely open.

The houses, as every one knows, are built of thin, light wood, and the sliding panels which serve for doors and windows have paper panes. They are as apt to be open as closed during the day. The coals are in the blue cotton clothes and are always paddling through the mud. The storekeepers sit out in their open booths, and the women go bareheaded about the streets. In the houses of the rich the still cold behind the closed panels is often more intense than that outside in the sunshine, where the air is stirring.

Domesticated Ferns.

The lover of ferns will find it an easy matter to domesticate many of the most attractive varieties if he or she will be content to take young plants. They should be removed from their native haunts with a good amount of soil adhering to their roots. Give them, if possible, a shady place to grow in, and make the soil as light as that in which they originally grew. It is well worth while to get a wagon load or two of soil from the woods for the especial use of these plants. In lifting them wrap each in a deep basket, applying enough water to saturate the soil clinging to the roots. Do not plant them in the border until after sundown. If the next day is sunny, shade them well and shower them frequently. In some instances most of the old fronds will die off, but if care is taken in lifting and planting and the necessary amount of shade and water is given five or six of the leaves will be left.—Eben E. Rexford in Lippincott's Magazine.

Man Eating Wild Men.

In the celebrated "Travels" of Edward Webb (1590) are dozens of stories that would make Munchausen turn green with envy. One of the most celebrated of these is his story of the wild men of Prester John, which is as follows:

"In the court of Prester John there is a wild man and another in the high street of Constantinople whose allowance is every day a quarter of raw mutton, and when any man dyeth for some notorious offence then they are allowed every day a quarter of man's flesh. These wild men are chained fast to a post every day, the one in Prester John's court, the other in the high street of Constantinople, each of them having a mantel about their shoulders, and all over their bodies they have wonderful long hairs. They are chained by the neck lest they specially devour all that cometh within their reach."

The Human Voice.

Of all the marvelous and mysterious things about the human body the voice is perhaps the most wonderful. No one has ever seen it, and no one can tell what it is.

The soprano pours from her throat notes of the sweetest melody, reaching chords so high it seems something must surely snap. The basso drops his voice till it goes so low as to make you wonder how he does it. The baby cries. The orator and the actor move people to mirth or sorrow.

By contracting or expanding the muscles of the throat and by inhaling and exhaling air the throat produces the thousands of sounds that we call "voice."

Deperate Partings.

It is no uncommon thing in Suffolk to see on some country plain a girl starting for her final flight to sea, with the whole family assembled to see her off. There is bitter weeping and much expenditure of kisses, of maternal injunctions and presentation of flowers. If you watch the inexperienced traveler, you will probably find that her destination is no farther than the next station, a distance of perhaps five or ten miles. To go beyond London is considered the world's end.

Absentminded.

A woman who has an absentminded husband who will be watching was startled a few weeks ago on her way down the church aisle to see that the good man, who had preceded her, was still wearing his hat. She transmitted a signal to him to remove the objectionable article, when she was still further horrified by seeing him remove his teeth instead.

Inseparable.

"Now, then, Willie," said Uncle John, "aren't you tired looking at the moon?" "All right," reluctantly replied the

boy, who was on his first visit to the zoo. "Now let's go to the place where the organ grinder's cage is."

Cut Out the Red.

It is a good thing for a young man to try to make his mark in the world so long as he uses something besides red paint in doing it.

The man who covets his neighbor's house might change his mind if he could look into the cupboards.

Relay Remonstrance.

Johnny and Harry had been left at home with their big sister, mother having gone out.

At bedtime they wanted to "stay up for mother," but their sister relentlessly put them to bed. Harry maintained a stolid indifference, but Johnny cried lustily.

Their sister listened at the foot of the beds, hoping they would soon be good. At last Johnny stopped, and the listener heard him say: "You cry a bit, Harry, I'm tired."

Right Arm Most Hurt.

Experience indicates that accidents are far more likely to occur to the right arm and leg than to the left. Further evidence of this fact is supplied by the makers of artificial limbs. They dispose of many more appendages to the right side of the body than to the other.

Statistics show that in fifty-four cases out of a hundred the left leg is stronger than the right.

Domestic Amestites.

"Your papa likes dogs, I see," remarked the visitor. "Oh, no," replied the boy. "Then why does he keep so many about the house?" "I guess it's 'cause mamma doesn't like 'em."

Library Improvement.

Castleton—I have been making some big improvements in my library. Clubberly—What have you been doing? Castleton—Oh, giving away a lot of books.

Mount Lovenszani, in equatorial Africa, is about 20,000 feet high, has twenty miles of glaciers and is nearly always cloud covered.

When an employer goes away, the employees get busy watching each other to see that there is no looting.—Atlas and Globe.

His Latin.

"Why do you put so many Latin quotations into your speeches?" asked the friend. "I'm sure most of us don't understand them."

"That's just the point. Misery loves company. I want to be sure there is some one besides myself who doesn't know precisely what I am talking about."

Robert Toombs' Advice.

A lawyer sent to Robert Toombs once and asked what he should charge a client in a case to which Mr. Toombs had just listened in the court-house. "Well," said Toombs, "I should charge \$1,000, but you ought to have \$5,000, for you did a great many things that I would not have done."

Hint Proof.

A woman visiting in town complains that she has been moved from the guestroom to a back bedroom and from there to sleep three in a bed with the children. She wouldn't see a hint if it were tied on her mirror with blue ribbon.

One trouble with economy is that it is usually practiced by men who do not need to exercise it.—Saturday Evening Post.

BIG STOCK OF

Up-to-date Spring Merchandise

At the LINWOOD CORNER STORE

Consistinz of Staple and Fancy Dry Goods, Tweed and Worsted Suitings, Readymade Clothing, Gents' Furnishings, Boots & Shoes, Hardware, Furniture, Groceries, etc.

HIGHEST MARKET PRICES for all kinds of Country Produce. SPECIAL DISCOUNTS for Cash.

Spring and Summer Millinery.

MILLINERY—Never before was our stock so complete. Never before were our sales so numerous. Never before were our selections so varied. Never before were our customers so pleased. Miss Dawson, of London is still in charge. Call.
