This is the greatest combination offer ever made by any Canadian journal, and we are fortunate in securing the exclusive privilege for this district. The Daily Herald is one of Canada's great papers. Published in 1902 it has long been the leading Liberal paper of Eastern Canada. It is now a great family newspaper, each day offering full news of the world, and devoting much space to matters of peculiar interest to the family.  
THE KING'S PORTRAIT is the best ever published in Canada, and will make a handsome addition to the walls of any library. It is produced by a new process, and is not one of the flimsy colored portraits so common.  
As the regular price of The Herald is \$2.00 a year, the liberality of our offer is self-evident.

## GALT REPORTER'S TALK.

"The Berlin Telegraph learns that the Wellesley section is willing to give eleven bonus, besides subscribing for a large block of stock, in order to get connection with the county town. Well hardly! It is a little thing to get a neighbor. It is the C. P. R. and the seaboard we need—not Berlin."—Wellesley Maple Leaf.

"And it is to Galt to which the north country must look for connection with the Canadian Pacific Preston and Hespeler are at present being served in this way. Berlin and Waterloo will soon—in a few months it is hoped—be able to ship goods on points on the C. P. R. via Galt, and when the enterprise reaches that point Wellesley and its neighbors will doubtless begin to take more than a passing interest in the electric railway system that is being developed hereabouts. Galt is the center of the same, with everything in its favor as a junction point. This town paid a good round sum for what it has in the way of railway facilities and it now proposes to reap all the benefits derivable therefrom. It will let others hand over bonuses for connecting lines, electric or otherwise."

## ST. CLEMENTS.

Nov. 19th, 1902.  
St. Clements R. C. Church was the scene of a very pretty wedding, on Tuesday, November 18th, when Miss Mary, daughter of Mr. and Mrs. William Forwell, St. Clements was married to Mr. Anthony Matvell, proprietor of the Royal Hotel. The ceremony, which was performed by the Rev. Geo. Brozman, the parish priest, took place in the presence of a large number of relatives and friends. The wedding march was played by Mr. Peter F. Schummer, organist of the church. The bride looked very graceful in a dainty dress of white organdie, trimmed with chiffon, with veil and a wreath of orange blossoms, and carried a bouquet of white roses. Misses Tillio Forwell and Lizzie Mattell acted as bridesmaids, and were prettily costumed in white organdie, and carrying bouquets of white and pink carnations. Prettily dressed Miss Irene Mattell acted as flower girl. The groom was supported by Messrs. Joseph Reinhart and Matthew Schummer, both of St. Clements. After the usual congratulations and good wishes the bridal party repaired to the home of the bride's parents where a sumptuous wedding breakfast was partaken of, after which Mr. and Mrs. Mattell left on a trip to Walkerton. The bride's travelling dress was navy blue trimmed with tulle and white applique. The wedding gifts were many and costly, many being from the bride's friends in Waterloo where she formerly resided. Mr. and Mrs. Mattell have the best wishes of the community, and we welcome Mrs. Mattell to her future home.

Quite a few from here attended the 16th anniversary of the Heidelberg Musical Society last Friday evening, Nov. 14th, and report having spent an enjoyable evening.

Mr. H. Doering, Waterloo, passed through here with a load of fowl consisting of 62 ducks and 71 turkeys, and he had a record-breaker of a turkey which weighed no less than 33 pounds.

Two of our crack rabbit-bird shooters went out rabbit hunting the other day and twelve fell victims to their unerring aim. Who can beat this?

Mr. H. E. Ratz has purchased from Mr. William Peterson, Hawksville, a valuable bush containing about thirty acres, and which he intends cutting this winter at his

aw mill in this village. He will start to cut down the bush next week, and needs about 15 extra hands.

Mr. Anthony Kuhry, Attwood, visited his mother here, on Friday last.

Mr. J. Heric, Michigan, visited relatives here last week.

The Misses Hinchberger visited at Mr. Geo. Forwell's on Sunday.

J. Hoffman, horse dentist, left again after a week's successful operations at the Royal hotel.

## LINWOOD.

Nov. 17, 1902.  
A beautiful young fawn adorned the Linwood stage on its homeward way to-day. It is the property of Mr. J. Birch, who has been hunting in Muskoka. He is expected home to-morrow.

Rev. Mr. Trolsaven, of Glenora, preached a very eloquent sermon on missions, in the Methodist church here last night.

Mrs. Dierlamm, of Milverton, has been visiting her mother, Mrs. Bundy, for several days. She and her mother went to Walkerton on Saturday to visit Mr. Wesley Bundy.

Mr. and Mrs. Nichol, of Waterloo, visited Mr. and Mrs. Rowe, Saturday and Sunday.

Miss Edythe the Boomer is spending a few days with friends in Galt and other places.

Mr. Friedmann's bull last Friday evening was successfully carried out. We understand that about one hundred and sixty sat down to the elegantly prepared midnight dinner.

Mrs. McIntosh of London, spent a few days last week with Mrs. R. J. Kerr.

Miss Maudie Edwards, of Milverton, visited Mrs. Carmichael last week.

The Misses Busch, have opened up a dress-making department in connection with Mr. R. Y. Fish's new store, and are doing a good business.

Mr. R. Y. Fish is having an acetylene gas plant put in his new store. Mr. Grosch, of Milverton, has the contract and is at work at present.

Mr. Samuel Spahr returned last week after an extensive hunting trip through the northern swamps of western Ontario. Countless rabbits and other game were laid low as a result of "him" shooting ability.

Rev. J. T. Hall, of Rockwood, preached to a good house in the Presbyterian church here, yesterday. Rev. Cunningham occupied Mr. Hall's pulpit in Rockwood.

Mr. John H. Marick, of Michigan, surprised his many friends here by suddenly calling upon them. He has been absent nearly thirty years. He returned to his home to-day.

Subscribers to the Mail and Empire are offered two peculiarly handsome premium pictures "The Doctor," and "Contentment." They are by famous painters, while the faithful reproduction and the delicate coloring makes them the equal in appearance, of the finest oil paintings. These lovely pictures, and the well-known worth of the Weekly Mail and Empire as a family and farm journal, should secure a large number of new subscribers. Special clubbing rates with Maple Leaf.

## FIRE AT NEW HAMBURG.

The Commercial hotel stables were damaged to the extent of \$300 by fire on Tuesday of this week. Insured.

## REV. IRL R. HICKS' 1903 ALMANAC.

To say that this splendid work of science and art is finer and better than ever, is stating it mildly. The demand for it is far beyond all previous years. To say that such results, reaching through THIRTY YEARS, are not based upon sound sense and usefulness, is an insult to the intelligence of the millions. Prof. Hicks, through this great Almanac, and his famous family and scientific journal, WORD AND WORKS is doing a work for the whole people not approached by any other man or publication. A fair test will prove this to any reasonable person. Added to the most luminous course in astronomy for 1903, forecasts of storm and weather are given, as never before, for every day in the year, all charmingly illustrated with nearly two hundred engravings. The price of a single Almanac, including posting and mailing, is THIRTY CENTS. WORD AND WORKS with the Almanac is \$1.00 a year. Write to WORD AND WORKS PUBLISHING CO., 2301 Levee Street, St. Louis, Mo., and prove to yourself their great value.

**Abused.**  
First Neighbor—I am afraid my children bother you.  
Second Neighbor—What nonsense! Why, they are not over to my house more than eighteen hours out of the twenty-four!

**Reassured.**  
He—I've tried my best not to make love to you.  
She—Well, you know what Browning says—that the only true success is constant failure.—Exchange.

**As His Business.**  
"Have you observed that man who has been abusing you?"  
"Yes," answered Senator Sorghum placidly. "I've been watching him with a great deal of interest. If I wanted anybody abused, I don't know but I should like him to preference to anybody I know of."—Washington Star.

**His Predicament.**  
"I notice that the landlady only helps you to the scraps," whispered the new boarder. "Why don't you leave?"  
"I can't," responded the meek man. "You see, I am the landlady's husband."

After all, our lives are lived, as it were, in a circle. We generally end where we began.—Ladies' Home Journal.

**Doing Him Justice.**  
The Hellies—You seem to have no objection to him, papa, except that he has no money.  
Papa—No; and I'll even admit that he's trying hard to get some.

Every one thinks that he is not gossiping; that he is simply talking.—Aitchison Globe.

**What Worried Her.**  
Mrs. O'Brien—Good mornin', Mrs. McCabe. An' what makes yez look so bad?  
Mrs. McCabe—Shure, Dennis was shut to the penitentiary for six months. Mrs. O'Brien—Well, Shure, don't worry. Six months will soon pass. Mrs. McCabe—Shure, that's what's worries me.

**All in the Family.**  
Adams—Do you believe it is a sign of good luck to find a horseshoe on the road?  
Johnson—Of course. It is a sign of good luck for some blacksmith.

**His First Year of Law.**  
Young Physician—What is your practice mostly?  
Young Lawyer

To be constantly pulling up the seeds of life to see if they have sprouted is a serious menace to the health of the plants.—Ladies' Home Journal.

### EDITORIAL NOTES.

Toronto courts have just censured some members of the city police force for molesting a body of students who were parading late at night on hallow'een. That is right. Everybody knows what peaceful little lambs the students of the various colleges are as they return from prayer meeting every hallow'een, and it's very wrong of those big, burly policemen to try to lead the dear little pets astray!

It is claimed that the surplus in the Dominion post office department is a myth. That is bal, but it is to be hoped no further raid will be made upon the newspapers.

The Educational bill now before the British parliament will, in all likelihood, become a law, as it is assured of a strong majority. This Bill has caused a great excitement and it was thought at first that it would not pass. By its provisions the school system will be metamorphosed, dozens of private schools passing into public control. Opponents of the established church base their antagonism to the Bill on the fear that the education of the children will be supervised by the Church of England, the promoters of the Bill strongly combatting this contention.

On the first page of this issue is an editorial clipping from the Galt Reporter, on county railway matters, that will be interesting to many. Galt has paid nobly for railway connection, and that busy town is now reaping well-deserved benefits from its liberality. But it will make a mistake if it rests upon its past generosity entirely in seeking new railway connections. Galt had the opportunity of becoming the terminus of an electric road extending through North Dumfries, then trending northerly through Wilnot, Wellesley, and perhaps reaching as far as Glenallen. Possibly it is not too late yet if the Galtonians have the energy to "set the ball a-rolling." Such a road would be profitable and would drop into Galt's lap the trade of a wide, wealthy strip of country which is languishing for an outlet for its products. This road would be gladly welcomed and richly bonused as it is the most popular of all the schemes submitted, and most truly covers the needs of the people. The Reporter has favored this route in days gone by, and we cannot understand why such an energetic journal has ceased to agitate for a road which would do it's town such an inestimable good, unless it be, as the clipping vaguely suggests, that Galt is not willing to "pay the price."

Also sausage machinery, harness, household goods etc. If you have anything you want to sell leave your entry with Chas. Kennel, clerk. David Rudy will wield the auctioneer's hammer.

### OBITUARY.

The death of Mrs. (widow) Strelbel occurred at the home of her son-in-law, Mr. Andrew Gerth, just west of Amulree, on Saturday last from dropsy. Mr. Henry Strelbel, Bamberg; John, in Waterloo, and Jacob, near Berlin, are sons of deceased. The funeral occurred on Tuesday, the remains being interred in the cemetery on Hesse street.

### SHOULD BE ENLARGED.

We are informed that the St. Marys Dramatic Club, of Berlin, (whose fine performance of "The Eagle's Nest" here last winter, is still pleasantly remembered) are about to give a still greater performance in Berlin in a few days. This Company has pleasant recollections of their trip to Wellesley, and would be glad to bring their present play here but for the great difficulty of getting their scenery in position on the Opera House stage. It is regrettable that this really excellent Company should be debarred from coming to Wellesley on account of this defect in our hall, and which could be so easily remedied. Last winter it was proposed to enlarge the auditorium and increase the size of the stage. At a school meeting the trustees were given power to act in the matter. It was understood at the time that the Wellesley, Rod and Gun

Club were negotiating to lease the building for a term of years and make these improvements, but the terms could not be agreed upon so the scheme fell through. The expense of making the alterations would be considerable, but the investment would pay well in the end, while, with a hall of proper capacity and conveniences, the very best companies could be brought here. There is no doubt that the people of this large section are willing and able to support the very highest class entertainments, and it should be the care of the village to see that the opportunity is given by putting our Opera House in the best possible condition. The trustees should be prepared either to make the improvements themselves or to deal very liberally with others who may be willing to take hold of the matter.

### MISS KNIGHT'S CONCERT.

There was a large attendance at Miss Knight's concert in the Wellesley Opera House last Friday evening. The program was a very attractive one. Miss Rankin, the elocutionist, was lying dangerously ill at her home in Stratford, but her place was acceptably filled by Miss Honey, also of Stratford. Miss Knight fully sustained the high reputation she has long held here as a vocalist and pianist, while on this occasion she proved her ability to conduct a high-class concert. Miss Taylor, of this village, was as popular as ever, her interpretation on the violin of "The Mockingbird" being an especially captivating number. Mr. Dafforn Rutherford has a high tenor voice, well controlled, and he made a decided hit here. No really good concert in Wellesley is complete without the services of Mr. Eck. Reiner, and on this occasion he was in his usual good form and received the lion's share of the applause, the piano duet with Miss Knight, "Rough Riders," fairly bringing down the house. Taken altogether, the concert was a most delightful one.

**Immunity For the Birds do not eat fireflies,** even bats, which seem to eat, but big else that they can chew or swallow, never touch a lightning bug. There must be something distasteful in this insect to the feathered world, and thus the species is preserved, for if it were not so lightning bugs would soon become extinct, as the torch they carry would only serve the purpose of attracting their enemies.

It may be that the uncanny appearance of the insect, glowing forth, as it does, a brilliant class of light every moment or two, deters birds and bats from attacking it, but if a lightning bug were a toothsome morsel to a bird's bill any number of the feathered world would soon overcome their repugnance to the little living torch and go hunting for lightning bugs.

**To Clean Silver.**  
Silver in daily use may be cleaned by immersion in strong borax and water for two or three hours. The water should be boiling when the borax and silver are put in. After it has been taken out and dried rub it with a little plate powder and polish with a chamamois. If silver ornaments are not kept in a case, they tarnish very quickly. To brighten them dip the articles in a strong solution of ammonia and hot water. Never rub silver with flannel or cotton cloth. Plate not in general use should be wrapped carefully in tissue paper to exclude light and air, as these are the two factors that cause silver to tarnish.

**America's First Lighthouse.**  
The first lighthouse built on this continent was at St. Augustine, Fla. Its chief use was as a lookout, whence the Spanish people of the town could see vessels approaching from Spain or get notice of the coming of foes in time to run away. The tower attracted the attention of Francis Drake as he was sailing along the coast with his fleet of high poop'd ships on his way home from pillaging the cities of the Spanish main. He stopped long enough to loot the town and destroy what he could not take away.

**The Daffod Agent.**  
"Our improved sewing machine," said the agent as he set the little wonder clicking, "can be handled by a child, it's so easy to run."  
"It seems easy," said the wife of the paragon as she watched the daffod needle.  
Then the agent slowly and sadly loaded the machine back on the wagon and drove away.

**Self Distrust.**  
"What you lack," said the person who reads your character, "is self confidence."  
"I can't help it," said the young man.  
"You see, I was for a number of years employed in the work of preparing weather predictions."

**In Days of Old.**  
"It must be he had one of nice, though, been" an old Roman's boys," said little Georgie as he gazed at the picture of Caesar and Cicero and Cato.  
"Why?" his mother asked.  
"They couldn't cut down pa's pants for Willie in these days."

A slender starts in a whisper and ends through a megaphone.—New York Herald.

**Drinking Through the Nostrils.**  
The Indian sees do not practice their breathing exercises simply to the sake of rep and sleep. During the breathing energy in 1. These Indians are not the one who believe that with the in of pure air there comes something more vital than oxygen. But the Indians have developed the art of breathing more than any other people.  
One of their favorite exercises is to inhale through the left nostril, to hold the breath for a time and then exhale through the right nostril.  
Another of their exercises is to drink water through the nostrils, and after it has been retained for a short time it is expelled through the nostrils and the mouth. This is said to cool the head.

**Growing Bananas.**  
Bananas are as a rule planted out systematically in rows, the "suckers" being placed at an average of ten feet apart. The banana plant bears only one bunch at a time, but it is a quick grower, yielding its fruit in twelve to fourteen months. When the plant is about six months old, a second "sucker" or shoot is allowed to spring from the root, a third after the sixth month, and so on, so that after the first year there is a continuous crop being reaped.

**Fans in Shakespeare's Time.**  
Fans in Shakespeare's time seem to have been composed of ostrich and other feathers fastened to handles. Gentlemen carried fans in those days, and in one of the later figures of the German they now carry fans. According to an old manuscript in the Ashmolean museum, Sir Edward Cole rode the circuit with a prodigious fan, which had a long stick, with which he corrected his daughters.

## Lightning CURE for all PAINS and DISEASES.

Without an equal! The Great Remedy for Pains—Internal and External. Its use as a Quick Cure for Pain has never been paralleled since the day when the Great Savior of Man was enabled to dispel pain by laying His hand on the afflicted spot. LIQUID ELECTRICITY is the dead shot Cure for Pain. Every Pain immediately relieved by one thorough application. Sprains, Bruises, Stiff Joints, Headache, Toothache, Pain in the Side or Limbs, Contracted Muscles, Lame Back, Pain in Chest, Lumbago, Sciatica, are banished like magic. Read every word of the following and find out its surprising Electric influence on the human system.

## Rheumatism and Neuralgia:

### The Liquid Electricity

surpasses all other remedies in the wonderful power it possesses over Rheumatism, Neuralgia, "Rheumatic" Diseases, Fevers, Old Chronic Lameness, Spinal Diseases, also for Hoarseness, Sore Throat, Stiff Neck, Catarrh, Consumption, Coughs, Colds, Lacerations, Bronchitis, Pneumonia, Asthma and Difficult Breathing. The most excruciating pain instantly stopped. Always Inflammation, Whooping Cough, Eruptions, Chaffins, Insect Bites, Festered Feet or Ears and Sore Feet, Pimple Complaints, relieved in a few minutes; Cures Framps, Spasms, Sour Stomach, Heartburn, Summer Complaint, Diarrhoea, Dysentery, Colic, Wind in Bowels, Cholera Morbus. For Horses and Cattle it is equally good.

It is a MAGIC REMEDY CHING all the Aches and Pains, Coughs, Colds, &c ever recurring in every family, making it a universal household necessity. Where a family has once used it they will never be without it in the house. Pain may be called by the name of Rheumatism, Neuralgia, Paralysis, Consumption, Lumbago, Neuritis or from Burns or Bruises; no matter what names the pains are called, or what the causes may be, what the sufferer wants is RELIEF. This the

LIQUID ELECTRICITY Gives AT ONCE with its Magical Power.

As said in one of the testimonials from the

"I have been suffering from Rheumatism and Neuralgia for several years, and have tried every remedy known to me, but have not been able to get any relief. I have heard of your Liquid Electricity, and I have bought a bottle of it, and I have used it, and I have been cured. I can now walk and work as usual, and I am very much obliged to you for your kind and timely assistance."

Nothing is stated here but what is absolutely true, all statements being deliberately and honestly made and vouched for by hundreds of testimonials. The mind staggers at the immensity of the discovery and the wide application of its use.

No family should be without a bottle of this LIQUID ELECTRICITY. It should always be kept in the house. Its use will prove beneficial on all occasions of Pain and Sickness. There is nothing in the world that will stop pain or arrest the progress of disease as quick, no matter how violent or maddening the Pain, the Bedridden, the Rheumatic, Infirm, Crippled, Nervous Neuralgic or prostrated with disease may have suffered.
