EDITORIAL.

Our sprightly friend, the Hesperer Hera'd, has just had installed a new Hove cylinder press. The Hera'd is one of the liveliest newspapers on our exchange list.

A strong suspicion is now getting abroad that the \$4000 which Ganev and Frank Sullivan divided between them was supplied by the news-papers of Ontario who saw a big spec. in the exciting news they would thus have to sell.

The disturbed weather of the last couple of weeks was the result of a coolness which sprung up between Winter and Spring. If Summer and Autumn would get into a racket of this kind along about August the people would be more appreciative.

It is said that Hon. J. I. Tarte has been offered a seat in the British parliament. He has certainly been a pyrotechnic figure in Canadian politics, and while he has not "kept the smell of corruption from his skirts," he has shown the clear-headedness, independence and ability that marks the statesman.

This is the time of the year when the various union laborers connected with building operations go out on strike. The grievance is always settled early enough in the fall to allow the unionists a few weeks work at low pay before getting into the relief committee's hands for the winter.

A great exodus of Englishmen bound for the Canadian Northwest is expected this year. It is said the young men are coming out in thousands and that the depopulation which so reduced Ireland bids fair to be repeated in England. If Canada gets the bulk of her immigrants from the mother country the few Finnish, Poles, etc., who come along can't do much harm.

The Dominion parliament is preparing a law to put down corruption. The intention is all right but there is the usual Niagara of bribes to obscure justice and fatten lawyers. Matters would be simplified and the core got at by an Act which simply said "the briber and bribee shall get six months twice a year upon conviction before any old court from a J. P. up, and complaint may be laid by any person."

It may not be generally known that Canadian silver and copper coins are manufactured to order for the Dominion government in England. And it is quite a profitable piece of business for Canada. The Auditor General's report shows that the Dominion last year purchased 15,000 one-cent coins in England, paying a little over \$5,000 for them. These coins were put in circulation at their face value, the government clearing about \$10,000 by the transaction. Silver coins are not so cheap but the quantity used is much larger so the profit is very much greater. In 5c., 10c., 25c. and 50c. pieces the government purchased \$200,000 worth last year, paying about \$90,000 for the lot and making a profit of \$110,000 out of the transaction when it was placed in circulation. And no doubt the British government makes a goodly profit out of the manufacture of these coins. The Canadian money circulation is as sound as any in the world, and yet with copper with a 33% per cent. actual value and silver about 45 per cent. there is considerable of the "flat system" in Cana-

da's cash. All Canadian paper money is "backed" by the government although most of it is issued by the banks. Neither the paper or gold issues are productive of any material profit, in margins, to the government.

If it is tried, as is being reported these days, that the millennium is at hand, the fact will be made known when the Ontario parliament re-assembles on April 21st by the following motions which will, in that case, come up at once for discussion:

"Moved by G. W. Ross, seconded by J. P. Whitney, that the number be taken off the ballot."

"Moved by J. P. Whitney, seconded by G. W. Ross that it shall be considered compounding a felony to charge corruption on the platform without first having laid information in the courts."

"Moved by John Brown, seconded by A. R. Pattullo, that the Registration Act be repealed and that an equal franchise be given in all parts of the rising."

"Moved by R. R. Ganev, seconded by J. R. Stratton, (if they are both there) that a member having been elected by one party cannot legally vote for the other in the House on a want of confidence motion."

"Moved by L. M. Gibson, seconded by Dr. Lackner, that any outsiders working in a constituency other than on the platform, be jailed on sight."

"Moved by Hugh Clark, seconded by John Dryden that there be no bye-elections hereafter; but that the party which gets most votes at the general elections (or in the subsequent courts) shall choose the succeeding member in case of an early re-election."

If the above motions are not carried unanimously don't you believe this talk about the millennium being at hand just yet.

The accident on Sunday evening by which Sir Oliver Mowat had his leg broken, will cause general sorrow throughout the Province. He is quite low at present.

DISTRICT NOTES.

The roller mill at Tavistock is having another \$4000 spent on it. When these improvements are finished the mill will be one of the best equipped in the country and with a capacity of 250 barrels of flour per day.

The bye-elections in the "three Norths"—Oxford, Perth and Grey—have all been protested.

The C. P. R. has given the contract for 250 new steel bridges The Canada Foundry Co. of Toronto, has the contract to deliver 69 of them this summer, the balance are also to be made by Canadian firms.

Wm. Ewing's barn, near Elora, was burned by lightning during the storm last week.

A young fellow named Frank McLeod had a swift experience with the law at Woodstock last week. He has been sentenced to one year in the Central prison for theft and then taken back to his cell, when he broke out of his cell and attempted to escape from the jail. For this offence he was promptly sentenced to two years in Kingston penitentiary after which he will have to do his year in the Central.

The oldest resident of the county of Oxford died on the 6th inst. at Beachville, in the person of Mr. Joseph Sandick. She had reached the advanced age of 102 years.

Tom Brennan, a well known man in hotel circles, committed suicide in Hespeler last week by shooting himself through the head.

The Lord's Day Alliance, Berlin has a suit against the Sugar Beet Co. of that town.

Mrs. John Ernst, sr., died at her home in Petersburg a week ago last Wednesday, in her 65th year.

Henry Roos, Preston, aged 90 years, and for quarter of a century a constable in that town, died on the 5th inst. He has lived in Preston for 65 years.

The Evangelical conference, to be held in Berlin next fall will have delegates present from all over the world where that religious body has churches established.

LOCAL NEWS.

Mr. and Mrs. Jacob Hammel, of Baden, spent Sunday with friends in town.

Miss Annie Meyer, of Berlin was an Easter guest at her parents' home here.

Several good strings of fish were captured in the streams hereabouts on Good Friday.

Mr. John Lehmann, of St. Clements, spent the Easter holidays with his family here.

Mr. and Mrs. H. K. Forler, of this place, were in Berlin the guests of relatives over Sunday last.

Mr. and Mrs. F. Bivour drove to Petersburg on Monday to spend the day with a sister who is ill.

Mrs. Hoffmann, of Waterloo, is visiting with her sister, Mrs. H. Kreutzweiser, in this village at present.

Impressive commemoration services were held in both the Wellesley Lutheran churches on Good Friday.

The "grip" epidemic is subsiding somewhat in town and there are a couple of dozen men in town who are mighty glad of it.

Mr. and Mrs. Wm. Gross, Berlin, spent a few days of the past week the guests of her parents, Mr. and Mrs. John Stahl, here.

See "The New Century Washing Machine," the finest washer known at R. Kab's hardware store, Wellesley. It actually goes itself.

Messrs. Albert Duench, Jacob Woelfle, Hy. Schneider, Hy. Dietz, and Louis Roth, of Twistock, spent Easter Sunday and Monday in town.

Mr. John Hill and Mr. Chris. Schwartztruber spent a few days of the past week visiting friends in Michigan, returning home on Monday night.

Good Friday was quietly observed in town. There were a large number of strangers visiting friends here, and the tennis club enjoyed splendid sport, several fine matches being played.

Rev. G. Wagner, of Golden Lake, spent the Easter holidays at the home of his father, Mr. Philip Wagner, at Lisbon. He occupied the pulpit of the Lisbon Evangelical Association church on Sunday last.

Mr. Caspar Meyer, engineer at Reiner Bros. & Co's, has been off work for a week or so past on account of ill health. We are pleased to report that he is now much better and returned to his duties on Monday.

Mr. Fred Bivour moved last Thursday from his farm, on the 5th line, to Wellesley village, into the large building where the Maple Leaf is at present located. Mr. D. Gerber, who bought the farm, moved onto the property the same day.

As will be seen by their advertisement the business men of Wellesley village will commence their early closing movement for the summer on May 18th. This scheme has proven very popular for the past two summers and the neighboring farmers have heartily endorsed it. The move is a very sensible one, and one which should include the whole year instead of only a few of the summer months.

Mr. Schilling, of Elmwood, is at present the guest of Mr. Adam Huras, here.

Mrs. Adam Heipel returned last Friday from a two-weeks visit with friends in Waterloo and Listowel.

Messrs Fred Stahl and Edgar Schaub, who are now employed in the Hanover furniture factory, were home for Easter. They returned on Monday.

Mr. Peter Ottmann is out again after a week's struggle with an attack of lumbago, from which he has, his many friends will be pleased to learn, fully recovered.

Mr. Chas. Koebler has been confined to the house for some days with an affliction in one of his eyes. Although not painful it is causing him considerable trouble. He is now somewhat better.

Mr. John Young who went from here lately to establish a tailoring business in Sebringville, removed his family to that place this week. Mr. Poppler will move into the house thus vacated in a few days.

Mrs. J. W. Ratz, of Twistock, (Nee Miss McMillan) is enjoying a visit at the home of Mr. Henry Kelly, 5th line, while Mr. Ratz is completing his contract in connection with the repairs to the 3rd line Pre byterian church.

Mr. Henry Morlan, of Nithburg, has been suffering of late with a very sore hand. Some weeks ago he accidentally cut it with an axe, and later on caught cold in the sound, blood-poisoning following with painful effects. It is now however, healing nicely.

One exciting question has already been settled in the Ganey charges which are now being heard by the Commission. He swears positively that his name is not pronounced "Ganny." It is not expected that the defence will be able to break down this evidence.

Miss Lenhard, who recently went from Buffalo to Macton to take charge of the household affairs of her brother, Father Lenhard, who was recently appointed to the Macton parish, died at that place last week after a brief illness which developed while on her way there. Deceased was a sister of Mr. John Lenhard, assessor, whose home is near Wellesley village.

According to the Wellesley council minutes, published this week, it will be seen that the Board of Health were not negligent during the smallpox epidemic south of us. There have been no less than 758 children vaccinated in the township this year, and if to this were added the adults who have gone through this preventive operation the number would, no doubt, pass the 1000 mark.

This is the time of year when the rubbish heaps and decaying matter which has accumulated during the winter should be burned or buried to prevent ill health or disease arising from them. Neglect of this important act of cleanliness is often the cause for the origin of contagious diseases and the entire community is liable to injury by the carelessness of one or two in this respect. A word to the wise is sufficient, but to the unwise word may come from the B. of H. inspector when it is too late to benefit the neighbors.

An exchange says: An advertisement which lies to the public is a very, very poor investment. It allures people to the place of business only to be deceived. An untruth told across the business counter is a damage in the long run; how much more so when spread broadcast in an advertisement. It has got to be in these days that the buyer hunts through the ads. in his paper to see who is offering what he wants, then he goes to that place to buy it—not to be fooled. A business man neglecting to keep the goods the people want, at popular prices, need not expect to be able to fool the public more than once by advertising that his store is up-to-date. The energetic, modern business man always has the right goods, always advertises, and always gets the leading trade.

School reopens on Monday next. There is no sign yet of base ball or foot ball organizations in town. Master Carl Green is enjoying a holiday visit with relatives at Galt.

Mr. and Mrs. Louis Becker, of Preston, formerly of this place, were in town over the holidays the guests of the lady's parents.
