proximately 8 o'clock the saw-mill whistle  
gave the fire alarm. The two Mr.  
Ludwigs were piling lumber and  
were just going home when they  
noticed fire in the boiler room.  
They gave the fire alarm and the  
crowd that gathered soon extin-  
guished the flames, which had by  
this time penetrated the roof, with

minutes later the fire would have  
been beyond control. As it was no  
great damage was done.

## Chamberlain's Cough Remedy Aids Nature.

Medicines that aid nature are  
always most effectual. Chamber-  
lain's Cough Remedy acts on this  
plan. It allays the cough, relieves  
the lungs, aids expectoration, opens  
the secretions, and aids nature in  
restoring the system to a healthy  
condition. It is famous for its  
cures over a large part of the civil-  
ized world. Thousands have testi-  
fied to its superior excellence. It  
counteracts any tendency of a cold  
to result in pneumonia. For sale by  
A. J. Saunders, druggist, Wellesley.

this vicinity.

While our villagers enjoy the  
balmy air these evenings they are  
entertained by the music from Mr.  
W. Cook's zoonophone.

Mr. and Mrs. Henry Hohl spent  
Sunday with the latter's mother in  
Stratford.

Mr. and Mrs. Witzel spent Sun-  
day in Gadsbillion. Mrs. W. will re-  
main there for a few days.

AN INTERESTING BOOK—Inventors  
and manufacturers are frequently  
puzzled to know just how to pro-  
ceed to protect their inventions and  
much valuable time is lost in ac-  
quiring information required. There  
is probably no profession in which  
such frequent occurrence as in pa-  
tent soliciting, and there is no field  
of speculation in which greater care  
should be exercised before deciding  
upon a course of action. A valuable  
invention, when properly pro-  
tected by Letters Patent, procured  
by qualified technical experts, means  
a fortune to its lucky owner, but  
the same invention patented by  
unskilful persons may be practi-  
cally of no value because of failure to  
protect the essential features. The  
book contains a summary of law  
relating to patent matters, and  
much information not found else-  
where, besides answering many  
questions. The price of the book  
is one dollar, but we have made ar-  
rangements so that our subscribers  
will be supplied with copies at 25c.  
provided they mention this paper  
when writing to Marion & Marion,  
of Montreal, for copies.

## THREE JURORS CURED.

Of Cholera Morbus with One Small  
Bottle of Chamberlain's Colic, Chol-  
era and Diarrhea Remedy.

Mr. G. W. Fowler of Hightower,  
Ala., relates an experience he had  
while serving on a petit jury in a  
murder case at Edwardsville, county  
seat of Cleburne county, Alabama.  
He says: "While there I ate some  
fresh meat and some some meat  
and it gave me cholera morbus in a  
very severe form. I was never  
more sick in my life and sent to the  
drugstore for a certain cholera mix-  
ture, but the druggist sent me a  
bottle of Chamberlain's Colic, Chol-  
era and Diarrhea Remedy instead,  
saying that he had what I sent for,  
but that this medicine was so much  
better he would rather send it to  
me in the box I was in. I took one  
dose of it and was better in five  
minutes. The second dose cured  
me entirely. Two fellow jurors  
were afflicted in the same manner  
and one twenty-five cent bottle  
cured the three of us." For sale by  
A. J. Saunders, druggist, Wellesley.

INDEPENDENT.

### EDITORIAL NOTES.

Hamburg Independent—A year or so ago the Independent endeavored to draw the attention of the Wellesley people that a railway from Wellesley to New Hamburg and Baden, continuing south through Haysville, New Dundee and Roseville to Galt would be the proper thing, but they threw themselves bodily into the arms of their Berlin friends, and now they find that they have grasped at a shadow. Never mind, Wellesley, when you get tired of trying to work Berlin for railway connection, come to the enterprising town of New Hamburg and see what we can do in the matter. Our industries are going ahead with leaps and bounds and more railway and express facilities are needed by us in the worst way.

A couple of years ago the Wellesley railway committee worked out the scheme the Independent speaks of in the above clipping for all it was worth but were unable to get any encouragement from our southern friends as Baden was then busy building their sugar factory which was to run short railway lines in all directions.

The lamented death of Mr. Myers, the late treasurer of the township of Wellesley leaves a vacancy which the council will probably be called to fill at their regular meeting next Monday. The position is a responsible one, but the township can furnish dozens capable of filling it, and whoever proves their choice will, no doubt, be acceptable to the ratepayers. While not wishing to stand in the way of any of the aspirants for this office, (if, indeed, there are any aspirants), the Maple Leaf would suggest that the financial affairs of the township would be much simplified, and the ratepayers greatly convenience, if the treasurer'ship were given to the Western Bank of Canada, which has a branch in Wellesley township, and which is now being used by hundreds of its ratepayers. Arrangements could be made to have a representative of the Bank attend every regular council meeting, while the cheques issued by the council would become payable at par all over the township—in fact equal to legal tender—thus saving an immense amount of trouble to those who now have to attend the council meeting in order to collect payment for the small amount of work they have been called upon to do during the month. Some municipalities in Canada are using a chartered bank as their treasury with the best results, and the present is an excellent time for the township of Wellesley to consider this important matter.

Is Gamey hippodroming? There are two answers; both are mere guesses, but they are very satisfying to those people who want to see things through Party eyes only. If he's "doing it for money" the large attendances and enthusiasm he meets everywhere shows that he must have a good financial proposition. If his object is the bull-dog determination that the whole Province shall hear his side of that terrible story from his own lips, he must be a wealthy man if he can afford the time and cost of his numerous meetings without at least some "gate" assistance. The good or the bad that he is doing can only be decided by the future; for the present "big gates" are the predominating feature, and the New Hamburg Brass Band is pretty sure to be glad, when the money is counted next Monday evening, that Mr. Gamey was one of their Labor Day attractions.

When a farmer drains a field he

does not dig the ditch one year, lay the tile the next, then cover it in the third. If he did he would have to be patching and fixing at it for fifty years and still have a poor drain all the time. He goes at it in a more methodical way, and finishes it at once even if it does cost money to hire it done, for he knows that it will be cheaper in the end and he will have a well drained field all the time. Why not build roads on that methodical principle? Why spend from \$2000 to \$3000 of good money every year on bad roads which, at their best, are never fit to do the work required of them in these modern days? In statute labor (at \$1 per day) and in council expenditures the roads of Wellesley are eating up over \$6000 every year. This sum would build a stretch of the best permanent road from Wellesley village to Linwood, capitalized at 4 per cent, it represents the cost of over one hundred and fifty miles of permanent roads which would be in first-class condition for fifty years or more. Where would that \$6000 do the township the most good—pay interest for good roads, or keeping poor roads from getting worse?

Here is another phase of the public roads question: Inside of two years Linwood will have the only station of the Guelph-Goderich railway in this township. The farmers gave \$12,000 aid to that road so they could have a shipping station near them. That was wise. But what wisdom is there in leaving the north-and-south road leading to that village, and the 9th and 13th lines, in their present pitiable condition? If the road to Millbank is better than business will be taken there that belongs to Wellesley township. Give Linwood proper roads and it will boom until its increased assessed value will pay the whole of the bonus.

As the head of the municipality the council can do much in bringing the question of better roads to a focus before the ratepayers. It is not simply a matter of the abolition of statute labor; that is merely an incident in the greater scheme for highways that will meet the present-day needs of agriculturists. Farmers, too, can help much in the agitation and the Leaf will be glad to publish the views of any who wish to use its columns.

Ever since the Maple Leaf reported the fall of the Crosshill meteor, a few weeks ago, the press of Ontario has been green with envy. Half a dozen different papers have reported similar occurrences, but ours is the only, original, take-no-other. This giant local paper always leads.

## Who's Your Tailor?

A poor-fitting suit of Clothes may sometimes cost less money over the counter, but you won't get the comfort or the value out of it that you do from a suit made specially to fit you.

An \$8 outfit, that you become disgusted with and throw away inside of three months is not as cheap as the \$12 natty suit that you cling to with pleasure for a year or more because it was built to fit you.

### SEE THE POINT?

Well, just now I have some sharp in cloth that I can make up into the "rear-or-more" pleasurable fit, and get it at just about the "three-months" price.

Just hitch up, drive in to Linwood and see me.

When reduced with water and sweetened it is pleasant to take.

## What's the Price To-Day?

The farmer who already knows the market prices for grain and produce need fear no combination of buyers when he goes to market.

How often the buyers "get together" on prices every farmer knows.

How often has a farmer sold his grain in one town for a couple of cents less than the buyers were paying in a neighboring market?

It pays to keep posted on the markets.

The Toronto Daily Star has the best market reports of any city paper. It has men who do nothing else but study the markets—who give it all their time and attention, and you can get all this information in the Star every weekday for a year and your own local paper as well for \$2.20.

If you save a cent a bushel on only two loads of grain by knowing the prices it will about pay the price, won't it? Besides think of being in touch with the world's news every day.

Subscribe direct to the Star or through the office of this paper. Both the Daily Star and this paper for \$2.20.

**THREE JURORS CURED.**

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some cold meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." For sale by A. J. Saunders, druggist, Wellesley.
