FALL CLEANING THE ORCHARD.

Much can be said in favor of an annual fall orchard-cleaning, although many of our fruit-growers are indifferent in this matter. Aside from the fact that there is more lustration after the fruit has been

gathered than in the rush of our early spring when so many odds and ends must be attended to, there are many urgent and convincing reasons why our orchards should be very carefully cleaned of rubbish and litter during late fall and early winter.

People often wonder how it happens that certain insects appear in such alarming numbers during the summer. A few careful observations during the fall and winter will show how these insects pass the cold period of the year. The egg masses of the tent caterpillars will be found encircling the smaller branches. If these bracelets of eggs be removed whenever seen, much serious injury will be averted the following spring. The canker-worms pass the winter in the egg state, and these eggs are often to be seen in masses on branches. The codling-worm passes the winter in a cocoon, under bits of bark, boards, and in crevices, and a general clearing will get rid of many of these troublesome pests. The grapevine flea-beetle and the plum curculio pass the winter in their full grown beetle condition in sheltered spots, often near the base of the plant. Squash-bugs also winter over full-grown in sheltered spots, under boards, and in corners of outbuildings.

There is also a necessity for a thorough cleaning up of the orchard for the purpose of destroying many of the fungi which remains on the ground in the diseased leaves and fruit. It is a well-known fact that many injurious fungi produce winter spores, and though the leaves decay, the spores do not. In early spring these will produce spores which will soon spread to the early leaves. The diseased fruit, plants, and leaves, should be burned, not thrown on the manure pile, for then the spores will be able to survive the winter, and reproduce the disease the following season. Moreover, many fungi persist in the leaves as delicate threads, which develop rapidly in the spring and produce spores which are soon blown by the wind to the leaves where they germinate and produce disease.

It may safely be said that if all leaves, decaying fruits, and diseased twigs be burned at the approach of winter, the damage from fungous diseases would be lessened very materially.

The above is a Press Bulletin from the Ontario Agricultural College, Guelph.

OBITUARY.—Died, at the home of his daughter, Mrs. Anderson, near Hawkesville, Mr. Wm. S. Woodward, aged about 73 years, nine months and 12 days. The funeral takes place on Tuesday afternoon at 1.30 o'clock. The deceased had been ailing for some time but passed away very peacefully on Saturday evening at 5 o'clock. He was an active member of the United Brethren Church for many years and with his death goes also the pillar of the church at Hawkesville. He leaves three daughters to mourn his loss. They are Mrs. Ben. Ballard, Mrs. George Lackner and Mrs. Alex. Anderson. His wife and one daughter preceded him to that Better Land. The bereaved family have the heartfelt sympathy of the whole community.

BAMBERG.

The political war is now over. The Tories made the best fight here but still Mr. Clement captured quite a few votes.

Two gentlemen from Wellesley came down the town-line some time ago to transact some business with a farmer not very far from here, and behind them came a spaniel dog which had followed them from Wellesley but did not belong to them. While they were bargaining Mr. Dog visited the farmer's poultry yard and succeeded in killing two of the finest roosters on the place. But Mr. — was very keen to settle when he saw the mischief the dog had done. He sentenced the dog to be stoned to death as Stephen was of old so the three proceeded to do so. The first stone missed; the second one hit him in the same place, and by the time the third stone was thrown Mr. Spaniel was half way up to Wellesley. Now we would advise Wellesley people to tie their dogs up, and if that don't keep them from killing poultry, then hang them up by the neck until they are dead, dead, dead, etc. That will surely keep them out of mischief.

Mr. Jacob Kaufmann was in Berlin on Business last Saturday.

Mr. Jos. Ranig, in the East suburbs has given his house a new appearance.

EDITORIAL NOTES.

Last Saturday's Stratford Herald states: It is expected that the surveyors will start to work on the location of the proposed Stratford to Conestoga branch of the C. P. R. (connecting at Conestoga with the Guelph and Goderich road) next week, says the Goderich Signal of Nov. 21. It is stated that a branch from Goderich paralleling the G. T. R. line is also practically assured and that work on the location of the line is likely to start very shortly. A line south from Goderich making connections with Chicago is also proposed.

The Provincial elections cannot be delayed much longer. Indeed, they are likely to be held before the end of the year. There seems to be a general impression that the Ross government should be retired and a new deal instituted, at least for a term. Many Reformers, however, are reluctant to support Whitney because they are not aware of any avowed Platform which he is pledged to support if they put him in power. In the present lull after the Dominion elections there is a golden opportunity for Mr. Whitney to show the Province that he is the Man of the Hour. A massed convention of his party could just now wonderfully strengthen public confidence in them by propounding a clear-cut, emphatic political platform, embodying the planks to which they have at various times in the past proclaimed their fealty, such as: An Independent Provincial Audit; An Un-numbered Ballot; An Equal Franchise—either give registration all over the riding or entirely abolish it; Free School Books; Non-partizan Administration of License Laws, and Remission of License Monies to Municipalities; Appointment by Counties of the Officials paid by them; Election Laws to Punish Election Criminals instead of Candidates. Here is a big opening, Mr. Whitney. The time is ripe! ARE YOU THE MAN? The electors are tired alike of government for Party interests and of corruption cries. Make a sound platform of pledges which you intend to fulfill. Mr. Whitney, then come before the people with your battle-cry "A People-owned Government—not a Government-owned People," and victory will perch on your banner.

The Conservative party in Quebec has decided to nominate no candidates in the elections in that Province, to be held the latter part of the month. The reason given is that the elections were sprung so suddenly that there is no time to prepare. The Globe says there will be plenty of candidates and the Tories won't be misled. The Mail-Enterprise wants the law changed to prevent such a wholesale steal. Perhaps both papers are not too far astray.

Mr. James P. Jaffray, of the Galt Daily Reporter, had his foot badly crushed by the trolley in Preston on Monday. Mr. Jaffray is one of the best known young men in the county and his splendid platform man and his hosts of friends sincerely regret his misfortune.

No, dear correspondent, the Tories didn't Steal South Perth, but they came near it; the prayers of the grits of South Waterloo were not answered; and there is now no more Maboo about North Perth.

The Presidential elections were held in the United States yesterday. Victory rested with the Republicans, so Roosevelt will be President for the next four years.

North Perth Provincial election must be held before Dec. 20th, according to the new law, unless the House is dissolved and Ross appeals to the country before that date.

The Berlin Telegraph suggests that North Waterloo be thrown open to make room for Borden. If Aylsworth was put up against Borden in North Waterloo, there would be what the boys call "a dizzy scrap."

What's the Price To-Day?

The farmer who already knows the market prices for grain and produce need fear no combination of buyers when he goes to market.

How often the buyers "get together" on prices every farmer knows.

How often has a farmer sold his grain in one town for a couple of cents less than the buyers were paying in a neighboring market?

It pays to keep posted on the markets.

The Toronto Daily Star has the best market reports of any city paper. It has men who do nothing else but study the markets—who give it all their time and attention, and you can get all this information in the Star every weekday for a year and your own local paper as well for \$2.20.

If you save a cent a bushel on only two loads of grain by knowing the prices it will about pay the price, won't it? Besides think of being in touch with the world's news every day.

The dispersing of the herds of the Wellesley Stock Farm will be felt as a blow to the stock raisers of this vicinity, but will be welcomed by the high-class stock raisers as an opportunity to secure some of the most noted and valuable animals on the continent. Mr. Hill's recent purchase of the timber tract near Caledonia makes the breaking up of his stock farm a necessity and the sale will take place about the middle of December, the exact date of which will be announced in a few days. The sale list will comprise about 35 head of pedigreed shorthorn cattle, many of which are imported stock; 10 horses including six registered Clydesdale mares; fully 50 registered improved Yorkshire pigs, many of them being imported and very valuable. "The next day," he says, "they were so sore and stiff I was afraid I would have to stay in bed, but I rubbed them with Chamberlain's Pain Balm and after a few applications all symptoms had disappeared. I feel that this bottle of Pain Balm saved me several day's time, to say nothing of the suffering." This liniment is for sale by A. J. Saunders, Druggist, Wellesley.

FIFTY YEARS AGO.
An interesting bit of news was published in last Friday's Globe under the above heading. It was sent to the Globe from a place called Allansville (which is not now found on the map), under the date of Oct. 31, 1854. The article says: "In just forty days from this we shall be talking to you by telegraph from this village. Six years ago not a tree was cut here. Yesterday Mr. W. D. Snow, the telegrapher, came into the village, and in less than two hours a subscription paper was got up for a telegraph line to Waterloo or Berlin to accommodate our section of country. One thousand dollars were immediately taken up. Hawkesville took up \$600 in twenty minutes. St. Jacob's, was only eight minutes in raising eight hundred dollars to the stock. You notice by this our energy for improvement, and no doubt a railway will soon follow."

LISBON.
WEDDING BELLS.—Last Friday there occurred at the home of Mr. Wm. Erb, of this place, a very quiet wedding when Kate, their oldest daughter, was united in the bonds of matrimony to Mr. Tom Farrel, a popular young man of Nithburg. Rev. Mr. Fby officiating. After the ceremony they drove to Wellesley where a wedding photo was taken. The evening was spent in singing and dancing. The presents were numerous which shows the

A LINWOOD BOY'S SUCCESS.

The Okotoks, (Alberta), Review of Nov. 2nd, contains a column article concerning a church item in which Mr. A. A. Lytle, (for several years principal of the Linwood public school and Linwood correspondent of the Maple Leaf) was the central figure. Mr. Lytle has been for over a year pastor of a Methodist church circuit at Okotoks and the entertainment was for the purpose of raising funds to complete a new church which he is building. The proceeds amounted to the handsome sum of \$100 and also a cheque from the famous evangelists, Crossley and Hunter, for \$25. His many friends here are pleased to learn that he is meeting with good success.

No Poison in Chamberlain's Cough Remedy.

From Napier New Zealand. Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exhibition was Chamberlain's Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotic makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. When taken in time it prevents pneumonia. This remedy is for sale by A. J. Saunders, druggist, Wellesley.

Galt, Nov 7.—Mr. J. P. Jaffray, editor of the Galt Reporter, met with a very serious accident in Preston on Saturday evening. While attempting to board the front end of a moving car he misstepped and the wheels passed over his foot crushing it terribly. Mr. Jaffray was removed to the Galt hospital, where his injuries were attended to. The bones were broken but it is now hoped that amputation will not be necessary. The car was not a regular passenger one but was used for express, and was not fitted at the front with the usual steps.
