About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by A. J. Saunders, druggist, Wellesley.

EDITORIAL NOTES.

The trout season does not commence until the first of May, but there is no close season for the piscatorial lar. Here is an early one from the daily papers: "A remarkable rain happened near Halifax last Friday when thousands of minnows were found on the snow by the early miners.

"Who enlarged Ontario" is a question agitating the two parties in the Legislature these days, just because Laurier said in a speech last February that Ontario's borders may possibly be extended north to Hudson's bay. It's funny how great parties will wrangle over a little bit of political platform capital that does not belong to either of them.

A move is on foot to combine the counties of Waterloo, Brant, Perth, Wellington and Oxford for the purpose of building and maintaining a consumptive sanitarium. The idea is a good one. While no remedy for consumption in its advanced stages has as yet been discovered, it has undoubtedly been shown that the disease is contagious and in its early phases can be checked. It is stated that about seventy-five people die of consumption in Waterloo county every year, and as each of these consumptives endangers the loving friends who wait upon them, thus unnecessarily tending to spread the disease, the necessity for a public sanitarium is quite evident.

Waterloo county is making a big push for rural telephones. A strong committee has been appointed by the county council and affairs have been brought to a forward condition. Steps are being taken to get the necessary legislation from the Dominion parliament, and as soon as that is secured the work of building the lines may be commenced, depending only upon the support of the farmers themselves.

The township assessors are plodding along with their difficult work under the new Act, and it seems likely that the various councils will have plenty to do when they hold their court of revision in the latter part of May. In the work of assessing a farm but little friction is caused by separating the value of the buildings from the land so long as the total assessment remains about the same; but in larger the new law adds and increases in various directions, under different headings until the total is up out of proportion with farming lands, so that dissatisfaction creeps in. As this extra assessing is done according to the new law the revision courts will not be able to give much redress, but the Act will gradually be amended to suit justice, so that in a few years the adjustments will be more equitable to all.

According to the recently issued auditors' report of the township of Wellesley the balance of receipts on hand over expenditures at Jan. 1st last was \$2081.40. But it is a fact that instead of having this healthy surplus on hand the council treasury was about empty at that time. The discrepancy probably occurred in the accounts of the past year borrowed from the large sum of Municipal Loan Fund money owned by the township to tide them over until the next tax came in. If there was no entry in the books charging this borrowed money against the township the auditors could not, of course, give it a place in their report, and the people would thus be led to the conclusion that the big surplus as reported was on hand. We are in-

clined to the opinion that it would be better to have a clear statement given to the public without delay so that neither a muddle, or the rumor of a muddle, can hold a place in the ratepayers' mind with regard to the township finances. The money has been spent—and likely well spent—in necessary improvements in the township. Possibly the provisions of the by-law governing this Municipal Loan Fund has been technically strained by using this money at all for township purposes, but the council has nothing to fear in laying the matter bare before the people. And we believe in justice to themselves it should be done, even if the assistance of the Provincial Auditor were invoked.

Rheumatic Pains Quickly Relieved.
The excruciating pains characteristic of rheumatism and sciatica are quickly relieved by applying Chamberlain's Pain Balm. The great pain relieving power of the liniment has been the surprise and delight of thousands of sufferers. The quick relief from pain which it affords is alone worth many times its cost. HEALTHY HORSES

The horse has but one stomach, and has but one chance at his food, so it is absolutely necessary to extract the largest amount of good from the food in its rapid passage through the stomach. As a rule, horses are either overworked or underworked, and it suffers much from impaired digestion. This is followed by stagnation of the blood and a whole host of diseases. No trouble should be too great, to get and keep him in good shape for his every day work. Clydesdale Stock Food, with its ordinary feed, regulates his whole system by aiding the digestion, loosening the bowels, stimulating and correcting the action of the liver, more work and on less feed. It can be stopped at any time without bad results. Mr. D. B. McEachern, Harriston, Ont., says: "I have used your Clydesdale Stock Food for the last six months in my stable, and I find it is the best tonic I have ever used, and it is the only tonic that when using, I can stop at any time without bad results, and my horses will not lose in flesh like they will with other Stock Foods. No better remedies on the market than Clydesdale Heave Cure, Colic Cure, Worm Powder, Gall Cure, Embrocation Liniment and Tar Foot Remedy; they should be kept handy. You never can tell when they may be needed. If the above preparations are not found satisfactory your money will be refunded cheerfully by our dealers in your district, namely:

Very Best Remedy for Bowel Troubles—No Family Can Afford To Be Without It.

"I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as one of the very best remedies for bowel troubles," says Mr. J. W. Hanlon, editor of the Dispatch, Ocala, Georgia. "I make this statement after having used the medicine in my family for several years. I am never without it." No family can afford to be without a bottle of this remedy in the house. It is certain to be needed sooner or later. For sale by A. J. Saunders, druggist, Wellesley.

Will You Help It?

THE HOSPITAL FOR SICK CHILDREN

For it Cares for Every Sick Child in Ontario whose Parents Cannot Afford to Pay For Treatment.

The Hospital for Sick Children, College Street, Toronto, appeals to the fathers and mothers of Ontario for funds to maintain the thousand sick children that it cares within its walls every year.

The Hospital is not a local institution—but Provincial. The sick child from any place in Ontario who can't afford to pay has the same privileges as the child living in Toronto and is treated free. The Hospital had last year in its beds and cots 761 patients. 887 of these were from 194 places outside of Toronto. The cost is 98 cents per patient per day, and there were 123 sick little ones a day in the Hospital.

"GOOD DAY, DOCTOR."

Since its foundation the Hospital has treated 16,271 children—a total of 7,600 of these were unable to pay and were treated free.

Every dollar may be the translator of your kind thoughts into the Hospital kind deeds.

Everybody's dollar may be the friend in need to somebody's child.

MARRIAGE

Let the money of the strong be mercy to the weak. The Hospital says out dividends of health and happiness to suffering childhood on every dollar that is paid by the friends of little children.

If you know of any sick child in your neighborhood who is sick or crippled—pleased or has club feet send the parent's name to the Hospital.

"SEE'S KNITTING"

See the example of what can be done for club-foot children. There were 14 like cases last year and hundreds in 23 years.

BEFORE & AFTER
