CROSSHILL.

During Easter holidays the trustees of our school painted the walls of the school room which adds greatly to the appearance of the room.

Arbor day was a busy day among the scholars. The yards were beautified by fixing up a number of flower beds.

Chamberlain's Cough Remedy the Very Best.

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Gen. E. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be curried in much less time when promptly treated. For sale by A. J. Saunders, druggist, Wellesley.

HAWKESVILLE.

Mr. Rhepherd, the public school inspector, visited the school here on Monday.

Master Frank McTavish and his sisters Tina and Edna, from Moileworth, spent a few days at Mr. Merritt Winn's.

A Good Suggestion.

Mr. C. B. Wainwright, of Lemon City, Fla., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pain in the stomach, colic and cholera morbus by taking it in water as hot as one can drink. That when taken in this way the effect is double in rapidity. "It seems to get at the spot instantly," he says. For sale by A. J. Saunders, druggist, Wellesley.

Mr. E. G. Winn, of Hawksville, was in town last Tuesday on business.

The literary given by the Epworth League on Tuesday evening was a decided success. The attendance was large and the good program rendered was much appreciated by all.

Why Suffer from Rheumatism?
 Why suffer from rheumatism when an application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after a while the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes: "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by A. J. Saunders, druggist, Wellesley.

FROM WETASKIWIN, ALTA.
 In renewing his Maple Leaf subscription Mr. J. W. McKinley, a well-known Linwood boy who recently went to the Northwest writes: "It seems that the further one is away the more highly news from home is appreciated, and the 'Leaf' always brings an interesting budget. We are having very warm weather out here as you will see by the sample of prairie grass that I am enclosing. We are seeing quite an influx of settlers these days and several cars of effects are unloaded every day. The C. P. R. officials inform me that a average of about 35 settlers per day get out of the train here. This district is in its infancy at present and certainly has a great future ahead of it. Farm land that sold for \$3 per acre three years ago is now selling at \$8 to \$16 per acre according to location. I have scoured 800 acres all lying east and south-east of here. I was over a large tract of land west of here but found the country between here and the Rocky moun-

tains vastly inferior to that lying east in the vicinity of Battle river. Wetaskiwin has now a population of 3300, half of which have settled here within the last two years. We have 6 churches, 3 elevators, 13 livery stables, electric light plant (owned by the town), 2 bowling alleys, 4 tennis courts, 7 hotels, 8 farm implement houses, and I shall not attempt to count the general stores and real estate offices. Suffice it to say nearly every man you meet has land to sell, and the motto is 'When you meet a stranger take him in.'"

Not Without Distinction.
 A note of family pride was struck in the conversation between three small Reading boys the other day. The party played by their respective grandfathers in the civil war were being depicted by two of the boys in vivid colors. The career of each, it seemed, had been halted by confinement in southern prisons, and it was on the latter fact that the lads laid particular stress. The third boy, unable to match these recitals with any military achievement of his own forefathers, preserved an envious silence for awhile and then, not to be outdone, said disparagingly: "Why, that's not so much. My Uncle Bill was in jail a long time, and he was never in the army at all!"

Four Kinds of Liars.
 The late Sir Frederick Bramwell was famous both as a witness and arbitrator in engineering disputes. It is recalled that his brother, the late Lord Justice Bramwell, on giving advice to a young barrister told him to be careful of four kinds of witnesses—first, of the liar; second, of the liar who could only be adequately described by the aid of a powerful adjective; third, of the expert witness, and, finally, of "my brother Fred."

The Surgeon's Charge.
 "I hear you're dissatisfied with your doctor's bill."
 "Yes, I don't think he's entitled to \$250 for that operation."
 "Why not?"
 "Because if he was he'd claim more."

Couldn't Think of Fives.
 Teacher—And what happened to Lot's wife?
 Scholar—She was turned to salt.
 Teacher—Into a what of salt?
 Scholar—Why—of a sort of job lot of salt, I guess.

His Art.
 "Why do you say he's a wonderful actor?"
 "He sat through an amateur dramatic entertainment and actually made people think they enjoyed it."—Chicago Post.

The Will Was There.
 He—So your husband has given up smoking? It requires a pretty strong will to accomplish that. She—Well, I'd have you understand that I have a strong will!

Unnecessary Fear.
 The Lawyer—I'm afraid I'm going blind. The Friend—Never mind, old man. So long as you retain your sense of touch you'll be all right.

Tibet Monasteries.
 Monasteries of the lamas in Tibet are always perched on the top or steep sides of a hill. They are built in stages, connected by abrupt passages and stairs guarded by Tibetan mastiffs. These dogs are almost as high as a doxey and are so fierce that it goes hard with a stranger who attempts to enter without an attendant lama.

To Clean Diamonds.
 To clean diamonds wash them in a lather of soap with a soft brush. With cold water wash off the lather and polish with chamois leather dipped in eau de Cologne.

Rings.
 In olden times rings were worn by monarchs and rulers alone, but as civilization advanced and women were more chivalrously regarded the ring was given her as the token of high dignity bestowed upon her in the marriage ceremony.

EDITORIAL NOTES.

It is estimated that the Russian fleet now hiding in Asiatic waters, cost the government \$100,000,000, and that the Jap fleet is nearly as valuable. It isn't every canine fancier that can afford to keep a kennel of these "dogs of war."

The Autonomy Bill passed another stage in the Dominion House last Wednesday evening when a vote was reached. The majority in favor of the Bill was 81. The official records of the parliament show that in the long debate on this measure over one million words were used.

Field Marshal Oyama, at the head of the Japanese Army in Manchuria now has 400,000 soldiers under his command, besides about 60,000 armed Chinese bandits.

Chicago is indulging in its annual spring strike. This time it is the teamsters. There is something to correct before the great labor organizations become a complete blessing to the wage earner. In Chicago it is customary for union men to work on short time, and consequent short wages, all winter, then when spring opens and there is plenty of work for everyone on the working men go "on strike." By fall the dispute is adjusted and for a few weeks the men work steadily to earn something towards keeping their families in bread during the coming hard winter. With a procession of this sort of thing the union laboring men of Chicago stand but little show of being able to lay anything by for old age, so that the high wages that organization is and to secure for them is really of inferior value. It would seem that labor has the power to organize when it cannot control its own immense strength and so becomes pampered and ruined by its own success.

The death of Hon. James Sutherland, Minister of Public Works, which occurred at his home in Woodstock last Thursday, removes one of the most prominent and popular gentlemen in Western Ontario. As a Member of the Dominion parliament for North Oxford he was well known throughout North Easthope which was for many years a part of his constituency. Although in a very heavy Reform constituency he, through his strong personal geniality was able to draw a very large Conservative vote, and there are hundreds in North Oxford who always give him their vote and call themselves "Jim Sutherland Tories." Mr. Sutherland was an unusually forceful man and his strong abilities as an organizer opened the way for his political advancement until he reached the high position he held at his death. His health began to fail about a year ago but he was not expected, in fact his recovery was confidently looked for when the sad news of his sudden collapse was announced. He was in his fifty-seventh year. The funeral on Saturday was one of the most prominent since the burial of Sir John A. McDonald fifteen years ago.

Through the death of Hon. James Sutherland North Oxford becomes vacant and there is much conjecture as to who will be the candidates. Many Conservative papers seem of the opinion that Hon. C. F. Hyman will be given the portfolio and resign his seat in London, where his majority was only 25, and run in North Oxford. But this constituency has in the past shown a repugnance to being represented by an outsider.

The surveying party which was

working in Wellesley a couple of weeks ago has just finished the work of running a line from Linwood to Listowel, and it is becoming evident that Linwood, instead of Wallenstein, will be the junction point of the Stratford branch. But the question of steam or electric power has not yet been fully decided. Stratford officials have expressed themselves in favor of steam, but they have not, apparently, thoroughly investigated the matter, and there are evidences that the C. P. R. officials are not altogether in accord with them, while the general opinion of the farmers seems to be that the branch line should be electric. We are surprised that so energetic a city as Stratford should not ere this have sent a large official delegation over the Preston, Berlin & Galt road to personally investigate what an electric freight road can do, and how it does it, before pinning their faith to a steam road as the only means of making their city a freight gathering and distributing center—whatever good they expect from that. Berlin should have seen to it that Stratford was fully supplied with this information; but the Twin-City has not yet renounced from the ome into which it was plunged by its effort to pass the \$10,000,000 a year ago.

In Touch with the World

Covering the earth like a spider's web the cable winds its sinuous way under seas, over mountains and plains, across continents to every country and clime on the globe.

So when King Edward opens Parliament, or Emperor William leads the band, when the Mad Mullah breaks out, or a volcano in the East Indies does the same, when South Africa seethes in war or Venezuela defies the powers, when rain breaks the Australian drouth or the plague breaks out in India, when the Empress of China suppresses the Boxers or Japan negotiates a loan, —the news is instantly flashed around the globe, across oceans and continents right into the Toronto Daily Star office. The Star's direct special cable service is better than any other paper's in Ontario.

And you get all this cable news along with your own local paper for \$2.20. Think of it—a single word sent to you personally might cost more than the price of the Star, with its hundreds of columns of cable news, for a whole year.

Subscribe direct to the Star or through the office of this paper. Both the Daily Star and this paper for \$2.20 for a year.

So a match was arranged with a Listowel team instead. Just as these two teams were ready to line up, the Tavistocks appeared on the scene, but were not given a game, the Listowel match being proceeded with.

The hen was captured and taken home where it is no doubt told the whole poultry yard of the lively chase it gave those Wellesloties.

The nominating officer has been asked to hold the nomination on May 22, and the election, if any, on June 5th. "RAFFLES" STORIES IN THE MAIL AND EMPIRE.

Mr. E. W. Hornung's stories of "Raffles: the Amateur Crackman" are universally admitted to be the most fascinating tales of criminal adventure ever written. The character of Raffles, the gentleman burglar and jewel-robber, is one new to fiction; the story of his exploits excol in vigor and thrilling interest the work of any other modern writer. The Mail and Empire will begin publication in the Daily on May 13th and the Weekly edition on May 18 of Mr. Hornung's new series of "Amateur Crackman" tales which have never appeared in periodical form. The first of these tales, "The Ides of March," introduced Raffles and his faithful companion, "Bunny," in their first and most exciting burglary of the jewelry store. One of these new tales will appear every Saturday as in the Weekly edition during the next three months. The Leaf and Weekly Mail balance of this year for only 60 cents.

A Good Family Lintment.
 Every family should be supplied with a bottle of Chamberlain's Pain Balm. For cuts, bruises, burns, scalds and similar injuries, which are of frequent occurrence, there is nothing so good. It soothes the wound and not only gives instant relief from pain, but causes the parts to heal in about one-third the time required by the usual treatment. As it is an antiseptic it is avoided. Sold by A. J. Saunders, druggist, Wellesley.
