At the end of the nominating hour Mr. A. B. McBride, the Nominating Officer, was called to the chair, and he called upon the candidates to address the 50 or so rate payers who had gathered.

Mr. W. J. Beggs regretted the the retirement of Mr. Walter. In response to the request of his friends he accepted the nomination tendered him and if elected would do

Mr. Hugh McCulloch paid a com pliment to Mr. Walter's abilities as pliment to Mr. Waiter's abilities as a councy councillor and believed that gentlemen would make an equally efficient License Inspector. The speaker had not fully decided to stand, but if, after deliberation it was thought best that he should become a candidate he solicited the support of the ratepayers and promised his best services if elected.

Mr. Otterbeten was not present so, of course, could not express himself to the meeting.

Mr. Robertson had no intention to run at first, but if a contest be comes necessary he might decide to romain in the field. He ended wit . some complimentary references the career of Mr. Walter who wa "the father of the county council, and had practically built it up to

abilities and always considered it an honor to represent this grand division. He advised the successful candidate to watch the town-ships' interests closely, as the town members were always on the alert

for their own constituencies.

Air. John Fisher, of Waterlo, the present commissioner for this district, was then called upon. He gave a neat though short address, regretting the loss of Mr. Walter from the Beard and assuring whoever was selected of his hearty co-operation.

added, he said, to the many gifts added, he said, to the many gits and kindnesses showered upon him from friends and opponents. In his over 41 years of public life there had necessarily been times when political or municipal opposition was very strong, but the fact was established that men can nonestly differ and yet hold each other in friendship and respect. After referring to his early history and to his work in the councils he said his resignation was not given until after more than one sleepless night. He had always tried to do his duty in municipal life, and now that he had accepted the License inspectorship he would as rigorous-

British Columbia lumbermen are agitating for a duty of \$2 per thou-sand on rough lumber and 30 cents per thousand on shingles. This will practically shut out their American competitors. One would almost think the Inspectors were instructed to pre-cent even the moon from getting full "after hours." It will be very difficult, however, to continue for any length of time the rigid enforcement now demanded unless the system is removed entirely from Party control. Party control.

Provincial governments sharp noses for ferriting out any-thing from which to raise money by taxing, but British Columbia the other day "capped the climax" by imposing a tax on all commer-cial travellers non-resident in that province. The Bill which was intended to change the present system of county council organization has been withdrawn from the Legislature, and Premier Whitney promises to make some sweeping changes in this matter next session.

It is expected that the Provincial Legislature will prorogue next week. The session has been a very active one and much important work has been done. The laws governing the ballot, the finances, the school books, the license, etc. have not been touched, but no doubt new Bills affecting these questions will be prepared during the summer and fall, so that next session will likely be one of the interesting kind from a debator's standpoint

The county council nomination meeting at Heidelberg on meeting at Heidelberg on Monday resulted in the selection of Mr. Val-entine. Ottorbein by acclaimation. He has in past years served both in township and co. council, and ha-proved himself to be a strong, cap-able representative. He stated proved himself to be a strong, cap-able representative. He stated his desire that one of the younger candidates, either Mr. McCulloch or Mr. Beggs, take the office and allow him to retire., Those two gentlemen are warm personal friends and could speedily have come to an errangement, but urgent friends of both were present refus-ing to yield and an amicable solu-tion was finally reached in the evning by the selection of Mr. Otter-bein, all the others retiring. Had the county council officials given the township ample notice of the

Some day the county council will evolve a plan by which its printing can be divided equitably amongst the newspapers of the county at living rates instead of giving it to some one printer who is foolish some one printer who is foolish enough to cut prices the nearest to staryation lines. We believe the taxasyers who furnish the country council loard with the money or willing to pay fair rates to the county newspapers for the county printing, and they frequently rid:cule the parsimony which councils develop as soon as they have dealings with the newspapers. There used to be a time when all printing committees, from the county councommenced negotiations with the editor by saying "How cheap, and how quick can you do it, and how much reading notice will you give for nothing?" but that day is now about past, except when, as hap-pened last week in Ferlin, the coun-ty council has to provide for its necessary printing. ### In Touch with the World

Covering the earth like a spider's web the cable winds its sinuous way under seas, over mountains and plains, across continents to every country and clime on the globe.

So when King Edward opens Parliament, or Emperor William leads the band, when the Mad Mullah breaks out, or a volcano in the East Indies does the same, when South Africa seethes in war or Venezuela delies the powers, when rain breaks the Australian drouth or the plague breaks out in India, when the Empress of China suppresses the Boxers or Japan negotiates a loan,

-the news is instantly flashed around the globe, across oceans and . continents right into the Toronto Daily Star office, The Star's direct special cable service is better than any other paper's in Ontario.

And you get all this cable news along with your own local paper for \$2.20. Think of it-a single word sent to you personally might cost more than the price of the Star, with its hundreds of columns of cable news, for a whole year.
