LETTER FROM WINNIPEG.

Written for the Maple Leaf. Harvesting is over and threshing is now in full swing throughout Manitoba and the great West. In almost in every section of the amost in every section of the country the yield comes up to what had been expected and in many cases far above that. The ideal weather at the present time is a great help to the furmers during this busy season.

One of the most bestiful scenes Western Canada is the thousands of acres of golden grain waving in the bright rays of the sun. To those who have never seen this it is well worth while to visit some of the fertile district out here.

The T. Eaton Co. are compelled to add another story to their large five story building in order to gain more room. This firm only com-menced business here a few months ago, employing then about 500 people; to-day they have over 1000 employees and are advertising for

The number of building permits issued in this city during the year has been in the migborhood of 3000. This gives the reader a faint idea of growth of Winnipeg.

The famous Irish Guards Band gave four concerts here to large andiences. They are a splendid organization

The G. T. P. and the C. N. Railroad companies are considering the erection of a magnificent union deput on Main st. at a cost of more than \$2,000,000. This would be a credit to the city.

Wild animals are still to be found in this part of the country. Tother dry a wild cat was shot one of the streets almost in the center of the city.

In closing my letter I will give Leaf' readers some interesting figares about Winnipeg: It has over 1200 miles of *streets; 50 miles of Macadam pavement; 25 miles of isrbalt pavement; 235 miles of asrhalt pavement; 235 miles of sidewalk; 34 miles of sewers; 30 miles of street railway; 60 miles of boulevard; 12 beautiful parks; 75 churches; 8 colleges. The municipal expenditure for 1904 was \$1.097,216; building permits in 1904 monutated to \$9,631,750. The rate of taxation for 1904 was 17 mills in

EDITORIAL NOTES.

Very little beyond bonusing wire Very little beyond consing wife feaces has been done by the coun-cil for the bettering of the winter snow roads. And very little is like by to be done voluntarily this fall by the Board. Wellesley council by the Board. has been up against unforseen dif-ficulties this year and they do not m to be in a good humor for ex ara expenditures.

There seems to be much dissatis There seems to be much dissettle faction in Japan over the peace terms of the Russo-Jap war, the people of that country claiming that their officials gave away too much. It is a curious fact that not much. It is a curious fact that not a city in the whole of Japan has, as yet, held a celebration over the ratification of peace, while thousands of Japanese have signed petitions asking the Micado not to sign the treaty documents.

"Galt Dally Reporter: — We congratulate the Berlin Rang-ers on being the only foot-ball club on the continent to defeat the All England Pilgrims.

"Berlin Daily News-Record:
—It gives us pleasure to record
that Galt football dub made
the best showing of any Canadians against the Pilgrims."

We did not notice the above items in bold-faced type in either of the journals.

The "Pilgrims" are making their American football tour to teach the gentlemanly way to play the game It is in order now to send over team of Pilgrim sporting editors to teach the gentlemanly way of writing up t'e game.

"Healer" Bharman is bringing to the sarface the fact that there quite a few people who are, or think they are, sick, and are willing to spend are, sick, and are willing to spend what money they have to spare on the chance of a possible cure. The healer's office was crowded. All of the patients were anxious and a few were "helped." It reminds one of the gold mine reah, trying to get in a day the competency for which the world usually exacts lifellong toil and economy. The family physician, skilled and trained, tells the nation it will take a long time. the pationt it will take a long time and great care to effect a cure, while Sharman suggests a one-minute miracle. The prize looks too tempting to the sufferer and away he goes, disregarding alike his own better judgment and the advice of friends, to chase the phantem. Verily "self preservation is the first law of nature."
