Waterloo, Conestogs and Linwood choirs was splendidly rendered. The chancel was filled with many beautiful flowers. All day the sound of rigs coming and soing was heard, the streets were full of people from three important counties. The Lutherap church is a splendid red brick building, standing with a splendid steeple on John ist, hill. The people of Linwood, and especially the members of St. Peters' congregation, deserve great raise for the splendid edifice that they have built. Some Beasonable Advice. It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Googh Remedy. It is almest Sure to be needed before venter in over, and much more prompt and satisfactory results are obtained, when taken as soon as, a cold is centracted and before it has become settles in the system, which can only be done by keeping it a remarks at hand. #### HAMPSTEAD:

The North Easthope council has surchased a stone crusher and the Board can de trusted to make it rofitable investment for the town hip. The road between here and Amulrec has already received netal from the machine which will do good and we hope to see a much-needed coat of "gravel" on this entire stretch before the season closes. The road machine is just now in Wettlaufer's pit, which has the losed for a term of years by the township. Drained roads with crushed stone laid upon them ac-cording to the latest scientific nethods are practically indestruct ible and we believe the ratepayers are prepared to pay the full price for this class of road, knowing that it is the best for the needs of the present day farming methods and the cheapest in the end.

Everybody regrets the recent dispute over that gravel pit matter. The impression is pretty general, however, that gravel and cement is more prefitable mixture than gravel and beer.

Special services were held at the few Mennonite church last Sunday. The sacramental services were observed with the usual custom, ministers from the United States assisting in the services.

#### BOWLING.

Two rinks of the Wellenley Bowl ing Club played the return games last Friday, at Berlin in the morn-ing and at Waterloo in the afternon. Both of these clube had it "in" for Wellesley on account of the fall they each received here, and they took grim satisfaction out of our boys, not a Wellesley rink being up in the four games played. The splendid greens in both Berlin and Waterloo are very glassy, and the effort to hold the bowls back proved too much for the visitors who were only accustomed to the heavier "ice" on our own lawn here. The boys report that they were royally treated and fairly besten, and they have certainly been properly roasted since they came home. The scores :

Advertising is a queer commod-ity. Millions are spent in advertis-ing every year in Canada without any positive actual guarantee that the money will over return. Yet the shrewd, enterprising, modern business man scarcely dares to attrusiness man scarcely dares to attempt getting along without it. That it is his greatest help in drawing custom he knows, but it is soldom that he can point directly to the particular buyer it has brought to his business place. For instance: a year or so ago Reiner Bros. & Co. cided to sell the balance of their last season's shoes at cut prices to turn them into each. They adver-tised the special sale and in two days over 200 pairs were sold, and yet scarcely a customer said it was the advertisement that brought them to the store. But it is to the buyers that the advertisements are of the greatest benefit for he can, through reading them, often save valuable time by knowing just where to go for what he needs to buy. It pays to read the advertuements in your local paper; and it pays to tell the business man that you did so, for by so doing you are sure to please him. Every person should remember that a pleased business man is more profitable to the buyer than a pleased buyer is to the business man.

The electors of Ontario seem as determined as ever to stamp out corruption. The feeling which prompted so many Reformers in the late election is now cropping up among Conservatives, who are not slow these days to publicly denounce every act of Mr. Whitney's government which shows the faintest appearance of jobbery. Probably nothing that a lady wears is quite as important as heg hat. An attractive appearance depends greatly on a becoming and stylish hat. We claim to produce the very highest class of millinery and hats with lots of style, but still wearable. Some people show hats that look pretty, but not one lady in a dozen could wear them. We don't make that kind. Another important feature of our millinery is the price. Our prices are in lots of cases little over half what some people ask. Stylish hats and moderate prices is the secret of our growing business.
