Some Reasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping it at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by A. J. Saunders, druggist, Wellesley.

THE STRATFORD HERALD'S IDEA OF ELECTRIC TRACTION.

A few weeks ago the Maple Leaf, in an editorial, referred to the Stratford Herald's statement that the Scientific American was opposed to electricity as a motive power for heavy hauls. Many newspapers copied the editorial, and the Galt Reporter made an addition to the effect that no less than fourteen loaded cars passed over the B. & P. electric road from Berlin to Galt in one night, and stating that the Maple Leaf's editorial was a power for the Herald. In reply the Herald copied the Maple Leaf and Galt Reporter editorials and then proceeded: "The above appeared in the Galt Reporter under the heading 'a power.' But there is no power about it. Galt and Wellesley may be suited with the limited accommodations of a trolley line, and the trolley line might do Stratford if it were a mere matter of connection between Stratford and Conestogo or whatever else may be our junction point on the new C. P.

R. line between Guelph and Goderich. There is much more to be served than that connection. Instead of having that connection only, it will be a part of a line running from Port Huron through Tillsonburg, Ingersoll, Embro and Stratford to the G. and G. line and ultimately going on to Georgian Bay. There are also in contemplation trolley lines centering at Stratford to become feeders of the important steam line referred to. The subject is a much larger one than the Galt Reporter wants to admit and hence its clever attempt to minimize it in the hope of diverting the minds of Stratford people from its true significance. The boasted satisfaction with the service we suspect exists only on the side of the customers at Berlin, etc., for the amount of freight business done by the trolley line is said to be small, the Grand Trunk's total business not being affected out of Berlin. Here in Stratford we have one paper that is sort of wobbly on the subject, but the bulk of our people are not to be led off the scent by jealous Waterloo towns."

The Herald's dream of so many electric feeders centering at Stratford from all directions would almost make one think that Col. Sellers had stepped out of Mark Twain's "Gilded Age" and taken a position on the Herald's editorial staff.

Insomnia and Indigestion Cured.
"Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months when I used Chamberlain's Stomach and Liver Tablets, and received immediate relief," says John Dixon, Tillamore, Ontario, Canada. For sale by A. J. Saunders, druggist, Wellesley.

EDITORIAL NOTES.

The farming World of Sept. 15th in writing up the stock show at the recent Toronto Exhibition gives prominence to the Crosshill pens of pure bred Leicester sheep, including a photo of the famous ram and ewe which won the championship. Hastings Bros. have made the village of Crosshill famous among stock-raisers over the whole continent by the successes their Leicesters have achieved in the prize-ring in Canada and the United States during the past few years. They have also done much toward advertising Ontario as a sheep-raising Province. At the Toronto show Hastings Bros.' exhibit captured no less than ten prizes, including the championship and sweepstakes.

The railway situation in this section is still uncertain. As time advances it becomes more and more certain that the bonuses passed to add a trolley extension from Waterloo will not be taken advantage of by the C. P. R. The indications are that the magnates, are not giving the matter much attention just at present, the recent registering of their plans being apparently only done to comply with the law. Neither Berlin or Stratford have followed a course which would encourage the rapid building of a road through Wellesley. Berlin's misfortune with the trolley by-law first and then Stratford's indecision over the preference for steam or electricity seemed to incline the railway magnates to drop the matter until the people came to a decision. Wellesley connection being only an incident in either of these schemes this section is left to sit with its hands folded waiting the good pleasure of these two county towns. But many here are not disposed to risk a fall between two stools so the agitation for a branch to Baden is developing, and the plan is becoming more popular as its merits are discussed. While trolley connection from Berlin to Stratford via Wellesley is, no doubt, the desire of the masses, the main object of railway connection is to provide shipping facilities to the markets and the seaboard. The scheme which will accomplish that—and do it quickly—will undoubtedly receive the undivided support of this section.

The Made-in-Berlin exhibition is now in full swing, and has been a success from the start last Monday evening last when the formal opening occurred. Berlin has the happy knack of doing the "shoulder-to-shoulder" act when anything for the good of the town needs a push.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggist inquire of customers who asked for cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by A. J. Saunders, druggist, Wellesley.

The Maple Leaf prints it if its news.

Artistic Millinery

Probably nothing that a lady wears is quite as important as her hat. An attractive appearance depends greatly on becoming and stylish hat. We claim to produce the very highest class of millinery and hats with lots of style, but still wearable. Some people show hats that look pretty, but not one lady in a dozen could wear them. We don't make that kind. Another important feature of our millinery is the price. Our prices are in lots of cases little over half what some people ask. Stylish hats and moderate prices is the secret of our growing business.

We have opened a branch right here in Wellesley and would be pleased to have you call and inspect our display.

A GRAND DISPLAY OF SILKS and DRESS GOODS for Fall and Winter Wear.

Notwithstanding the beautiful Fall Weather which we have enjoyed during the past ten days, our Dress Goods and Silk department did an active business.

One of the best policies for a woman who intends buying a smart Gown, Suit or Silk Waist for the coming season's wear, is to make her choice as early as possible, especially when the run is on certain shades, such as Myrtle, Garnet or Brown. Our Stock is still well assorted in either of these shades and the collection out-shines any previous exhibition ever made by us.

We might call your attention to our fine range of AMOZAN CLOTHES, CHIFFON SEDANS, BOX CLOTHS, and FINE FRENCH BROAD CLOTHS which are shown in all the leading Fall shades.

The 50c, 60c and \$1.00 AMOZANS have without a question made a great hit with our customers. The Material in them is superb and is very suitable for the SHIRT WAIST DRESSES.

The CHIFFON SEDANS, which everyone knows is very correct this Fall, is shown in two qualities, \$1.40 and \$2.00 a yard 34 and 36 inches respectively and are so silky in appearance yet weighty for present wear that it is an impossibility for anyone to make a mistake in selecting one of these materials for a fashionable Tailor-made Suit.

FRENCH BROADCLOTH—The SUPERIORITY of OUR French cloth in value is a proven fact. Compare ours with goods sold at the same prices and you can soon see the difference.

Quite a number from this section intend visiting the great Made-in-Berlin exhibition this week. The show is reported to be a revelation to those not posted in the wonderful manufacturing output of the County Town.

Contractor Clemens arrived on the scene last Monday morning and commenced work on the new cement bridge at the sawmill. He has a large force of men with him and is making rapid headway. One of the piers is already half built and he expects to have both finished and ready for the arch flooring by the middle of next week. The bridge will have a span of thirty feet, the floor being slightly arched comprised of cement a little over a foot in thickness and reinforced with beams of iron. The roadway will be 18 feet in width, covered with a foot or two of clay and gravel. The bridge will be practically indestructible and strong enough to carry the heaviest loads.

Miss Annie Fleischhauer is confined to her room at present by serious illness.

A heavy rain on Tuesday night and all day yesterday has interfered with the taking in of the root crops.

Little Rathie, daughter of Mr. Louis Schaub, has been quite ill with appendicitis lately, but is now improving.

A shooting match for geese, ducks, etc., will be held in this village next Tuesday afternoon. Shotguns and rifles will be used. See bills.

The pond was drained on Monday to permit the workmen to put in the foundation piers of the new cement bridge. The Rod and Gun Club had wire screens placed at the head-gates to prevent the escape of the bass, trout and pike with which the pond has been stocked. The village boys had been anticipating some good sport in capturing the big carp, but so far have been disappointed as it is impossible to drain the pond low enough. There still remains several acres of water in the pond in which the fish including the big carp, are huddled, comparatively safe from the attacks of the boys. The draining of the pond, however, has demonstrated that the bass and pike are increasing rapidly in numbers, and it is hoped that in time these will exterminate the carp.

How to Cure Corns and Bunions.
First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by A. J. Saunders, druggist, Wellesley.
