THE WOMANLY SPHERE OF W/COMES

The following extracts are from an excellent address diversed on this subjects the Women's Institute Constitute the Women's rights are practically some Except that she is exceed from a few formal political duties, who can have anything else he wishes. The problem now a waiting solution is, What does women really want and what is her proper and cangenial sphere? For 'vera the press, putpit and platform have been discussing the equality of man and myonen, their equities in education and in social and business positions as well as their equality with reference to renumeration to services rendered. The result is that woman practically lakes her place by man side in most of the walks of life. The tendency is to marrow down the distinctions between man and woman, but the true womenly. Ideal is to keep then wide upart, as the Creator of all meant that they should be.

will no doubted list with the ideas of many energiciand progressive women. They will hink I am going backward instead of forward, but I have thought much and observed more along this lies and believe that the thinking women of to-day will agree with me I am still surer of the support of the men.

When God In-timited the first household be installed Admin as the bread-winner and Bre as the homemake. The min was the producer and women the disperser. Be lationably between norman and women have not changed and brought about conditions and environments have changed and brought about conditions. Five milition women in the United Rease arm their own living, and one-half of the women over fifteen years of gags are unmarried. Good morning .- Is your wood-pile holding out.

Dominion parliment will not open until March

There is an underground rumor that the trolley line will be extended from Waterloo to Wellesley this year.

Mr. J. W. Green, proprietor of the Wellesley Maple Leaf, has been appointed Manager of the Berlin branch of the Canadian School of Scientific Salesmanship, and is con sequently not giving his personal attention to the management of this paper. But the "Leaf" is coming out as usual every week and there are those who say it is a newsier local paper than ever. It's circulation is certainly on the in-crease and in its columns will al-ways be found all the news that's going, while the job department will always be found equal to the demands made upon it.

A large number of municipalities in Ontario have adopted local option and there will have to be some scientific stretching of the laws to obtain the daily "booze" as a consequence of the recent vote. Sump tuons laws are always difficult to enforce and no law prohibiting the sale of intoxicating liquors has yet proven satisfactory.

Dr. Torrey and Mr. Alexander are holding revival meetings in Toronto at present, drawing immense crowds nightly. Needlers to say the "Glory Song" is being worked overtime

The United Presbyterian congre gations of the Umber versasy in 1908. An effort is being made to raise a two million dollar missionary fund for the occassion.

Last year saw an immense amount of wire fences placed along the roads of Wellesley township and the effects can readily be seen, now that we have had our first heavy snow-fall, in the difference between the stretch of street where the "snake" fence and wire fence are used. The council cannot pay too much attention to the important matter of good winter roads.

We understand that it is the intention of the Wellesley council to have all property assessed at its full value this year. This is a move in the right direction. It will add somewhat to the assessors' labo but will be fairest to all concerned ssors' labor Another good forward step would be to have the assessment of the township published so that the ratepayers would know just how their oney is raised.

Ask for Union Jack cork tip eig arettes and V. U. cigarettes; Prim-rose smoking tobacco in curved tins and Red Cloud Slied Club. They are the latest. If you can't get them in Wellesley ask at W. Sle-man's Berlin. He keeps all the good things. 9-28

John Renwick, a wholesale butcher of Hespeler, dropped dead near the Hotel Del Monte, Preston, on Jan. 6th, about 5 o'clock. He was subject to heart trouble. He leaves a widow and family.

Don't object that your duties are so insignificant; they are to be reck so insignificant; they are to be reck-omed of infinite significance, and alone important to you. Were it but the perfect regulation of your apartment, the sorting away of your clothes and trinkets, the ar-ranging of your papers, "What-ever thy hand findesh to do, do with all thy might, and all thy worth and constancy."—Carlyle.

Lord Strathcona, high commisioner of Canada, has his 85th year, but is still as active as most men of 60. As a Scotch lad, Donald Smith, he entered the lad, Donald Smith, he entered the ervice of the Hudson Bay Company many years ago and rose by sheer force of merit to be amoung the foremost commercial men and poli-ticians in the colony. The develop-ment of the great Northwest is the work with which his name will be cially remembered.

The Niagara, St. Catharines and Toronto railway company gives noice of application to parliament for charter to build lines from Thorold to Welland, Port Colborne, Fort Eric and Niagara Falls; from Niagara Falls to Niagara on the Lake. and from Thorold or Niagara Falls to Brantford, a total length of about one hundred and fifty miles. The N. S. & T. Co also wants to increase its capital, to have the right to amalgamate with any other ad and to make arrangement with power transmission companies for the joint use of right of way.

Standing at the portal
Of the opening year,
Words of comfort meet us Hushing every fear, Spoken through the silence By our Father's voice, Tender, strong and faithful, Making us rejoice.

He will never fail us, He will not forsake; His eternal covenant We will nover break. Resting on His promise What have we to fear? God is all sufficient For the coming year.

Chamberlain's Cough Remedy the Best Made.

Chamberlain's Cough Remedy the Best Made or or olds," says Mrs. Cora Walker of Porterville, California. There is no doubt about it a being the best. No other will cure a cold so quickly. No other is so sue a preventive of pneumonia. No other is so pleas ant and safe to take. These are good reasons why it should be preferred to any other. The fact is that few people are satisfied with any other after having once used this remedy. For sale by A. J. Baunders, druggist, Wellesley.

Medical experts are calling the ttention of the public to the importance of performing the nos blowing operation in a scientific and hygienic manner First one nostril and then the other should be blown state that the two nasal passages should never be closed at the same time. If they are obstructed, as in the case of a cold, the back of the throat is filled with compressed air, and this, together with the dis-charge and the microbes which it contains, may be driven through contains, may be driven through the custaclian tube into the middle ear, and lead to serious results. A great authority on the subject used to forbid his patients to blow their noses when suffering from a cold. This course is hardly one which will commend itself to those in the habit of catching colds. The best advice would seem to be that when it is necessary to blow the nose the blowing should be done gently .- London Daily Mail.

"Public drinking troughs for hor-ses, as they are usually arranged, are a curse, not a kinkness" said a veterinary surgeon, for they spread glanders and other diseases. They who leave large sums for costly marble drinking troughs make a great mistake. They should leave the money for a fountain, a spigot— a generous flow of good water, with buckets hung on either side, and no trough. gh. From such a fountain es would drink fresh water horses would drink fresh water from a separate bucket, rinsed before using. But, the other way, the horse drinks from a trough wherein a hundred noses, no matter how diseased, have previously been dipped. There should be a law against that horse's curse, the public drinking trough."
