#### ST. CLEMENTS

The second local and the fourth game of hockey this season in which the local Beavers have taken part, took place when they met in proved to be an exciting one being hard fought from start to finish. In the first half both sides tried hard to score but the defences of the two teams proved equal to the task and were able to prevent scores. The second half saw both teams working hard to break the first on a pass from M. Schummer to H. Weber, who shot the first goal of the game. Shortly after St. Jacob claimed a goal which was allowed by the goal umnire, much to the surprise of many, but which proved to make the game a tie, 1-1. The game was of the most friendly character, both teams playing strickly bockey, which greatly pleased the big crowd present. The teams lined up as follows: 8t. Jacobs, Goal, —point, W. Willer; cover point, N.Hollinger; forwards, E. Letson, E. Gingerich, H. Heller, -point, W. Willer; C. Hohl. St. Clements .- Goal. P. Weber; point, E. Boegel; cover point, M. Schummer; forwards, J. Brenner, J. Stumpf, L. Stumpf, H. Weber.

Good morning. Can you find the Maple Leaf's new office?

If some team down't lick those Berlin hockeyists soon the Twin-City daily papers will go batty sure. One of them printed six columns of hockey news last Monday.

It was hoped that the higher in telligence would prevent unionisk from the "strike" habit, but the Guelph printers went out on strike the other day on a foolish mistake over half an hour's work. If labor unions would spend one-half the energy in urging employes to give service that they do in demanding big pay and short hours for inferior service, they would be-come a popular boon to society.

The elections now being conducted in Great Britain give no hope of a departure from the free trade policy of that country.

When the Canadian Pacific Rail way was projected, they were timid soals who said it was too far north to pay. Now, the Canadian Pacific Railway is to be extended to Ed-menton, which was reached by the Canadian Northern the other day and which is one of the points to be served by the Grand Trunk Pacific The fact cetablished by the building of the Canadian Northern is that the farther north the railways pen etrate the better business they ob The next interesting revelation will come when the new lines pierce the Rocky Mountains, and the resources of the northern portions of British Columbia are has as yet only touched the fringe of the magnificent Pacific Province, with its great resources of timber, minurals and fish, and its access to the highway of Oriental commerce. Astonishing as the development of the prairie country has been, we think that at least an equal surprise awaits the country in the opening up of the treasures of British Columbia.—Toronto News.

Now that the season for holding Farmers' Institute meetings is here the members of that body should pass resolutions requesting the government to place expert read makers on their list of speakers next year. There is no single crop growing in his fields as important to the farmer as the road leading from his farm to the market.

Business generally has kept up unexpectedly well in Canada since January first. It was thought that after the holidays a dull accom-would set in, but notwithstanding the absence of sleighing trade has been quite brisk. Canada is evi-dently in the threes of an era of prosperity which will take much more than unpropitions season or weather to break

A change has taken place in the Tavistock post office this week. Mr. F. #### NEWS NOTES.

Waiter Jones, the well-known stock man of Rosser, Man., states that large numbers of cattle are wintering out this year owing to he mildress of the season.

Mr. George M. Reid who for four-een years was G. T. R. station agent in Tavistock was in the vill-age for a few days during the past week renewing old acquaintance-, Mr. Held has been fruit ranching in the Okanogan valley for the past his venture. Peaches, plums and apples are grown. Wi h a fourteen miles of Mr. Reid's farm is Lord Aberdeen's ranch of 13000 acres. -Tavistock Gazette.

The Swiss cottage, Galt, contains three patients, incurable consump tives, who are being cared for by the town with whatever aid is afforded by others, private citiz or the township municipality. One patient is John Serves, a resident of Galt for many years, one time a well-to-do baker, but who has met with reverses, and is obliged to spend his last days a pensioner on the public bounty. A second is Wm. Tulloch, an immigrant, who came out with a large family two years ago, and who, with his care have been more or less the subject of charity ever since. The third is an immigrant girl, who never should bave been allowed to pass quaran-tine, but who, baving established herself in the community, has to be cared for, the the idea of deportation being now out of question Dr. Vardon, medical health officer thinks this case one which the Gov. ernment ought to aid in fact he has made application to the Foderal health department to secure it. The circumstances that the Swise cott-age is in reality a public hospital, and properly comes within the cate-gory of such institutions in receipt of provincial aid, has been explained to the Provincial Secretary, and it is hoped that the usual grant to patients will be forthcoming.

The plan of the Western Central Railway Co., (electric.) to construct nime from London to Toronto, with a branch from Berlin through the rorthern part of this county, revives interest in the Wellesley con nection question. Of the three routes named by Messrs Drummond & Co., the one from Berlin to Waterloo and Wellesley village, via Heiedlberg and 8t. Clements would be most acceptable to the Twin City, since it would reach the more frui ul sections, from a traffic point of view in Wellesley town-ship. The C. P. R. will itkely build either a steam or electric line from Waterloo through Hawkesville and Wallenstein to a point on the Guelph Goderich road. Its plans for a line from Stratford to Wal-lenstein do not include Wellesley village .- Berlin News Record.

It is going the round of the pre that Mr. Jacob Hahn, a farmer near Hawkesville, has killed a cow with a record, and the beef was of choice quality. The cow was 28 years of quality. The cow was 28 years or age, and during that time made \$2,000 for Mr. Hahn. This is a

A little Stratford girl had a narcape from a seri one day last week, on Downie St in that city. She was going to-ward the station, when a freight was coming in from Goderich. She did not notice the freight until very close and then jumped back. As she jumped back from the oncoming freight, she got in the way of engine which was coming from the opposite direction, though fortunately travelling very slowly. A man who was on the front of the engine jumped off and grabbed her out of harm's way, before the spectators could do more than gasp at the hair breadth escape of the little girl.

Marshal Chandler received mandate from the Circuit Court of Appeals directing him to carry out the judgment of Judge Taylor, the United States District Court, in the case of Mrs. Cassie L. Chad-wick. Mrs. Chadwick will be taken to the State Penitentiary at Colum-bus without further delay to begin her sentence of ten years' imprison-

Trains will soon be taken through the St. Clair tunnel by electrical power. The contract for supplying the plant has been let to the Westing house, Electric and Manufactur ing house, Electric and Manufactur-ing Company. The interior of the tunnel and the yards at both ends will be lighted by electricity from the power generated in the exten-sive power house it will be neces-sery to crect. The length of the tunnel is 6025 feet and of the open portal approaches 5063 feet additional, or more than two miles in all, making it one of the largest submarine tunnels in the world.

The lack of a morgue for Galt has been recognized by Messrs. T. Little & Son, undertakers, and, when the office adjacent to their furniture establishment became vacant, the firm decided not to relet it but to transform it into an institution for the temporary care dead bodies. The office has been equipped with modern apparatuand is now ready for the service for which it was intended. There is no other morgue in this county, outside the hospitals. The absence of such a convenience has been felt by the public and the medical pro-fession, and Messra. Little & Son are to be commended for supplying the want. The principal feature is a large slab, of heavy glass, so fixed as/to be placed at any required angle and to revolve. The interior is scrupulously clean and the privacy of it is one of its chief attractions.
