SAVING MONEY

Few people give enough thought to the earning capacity of a dollar. When you look at a dollar don't think of how much it will buy, but **HOW MUCH IT WILL EARN.** When you form the habit of taking this view of your dollars you find yourself starting on the only straight and sure road to wealth. Idle dollars are of no more use in the world than idle men. Every dollar you make, over the cost of your actual necessities, should immediately be placed under the safeguard of a strong bank and kept busily at work earning other dollars for you.

We will receive your savings from \$1 up and allow you interest thereon compounded every six months.

HAMPSTEAD.

We are sorry to report that the grain reaper has again visited this neighborhood, and removed from our midst Mr. Duncan Stewart, Jr., who was ailing for some time. In the death of Mr. Stewart the church loses one of its staunchest members and supporters. He also will be missed as one of the most respected residents of the vicinity. The friends have the deepest sympathy of the neighborhood in their sincere affliction.

A ripple of excitement was aroused on Saturday morning when Mr. Thompson, on carrying the mail bag into the Hampstead post office, had his attention suddenly called to his horse which had started off without him, upsetting the rig and breaking loose he ran for home. Luckily for Mr. Thompson, Mr. Forest's rig was just starting for Stratford, so that he was enabled to proceed with the mail without any delay.

We understand that Mr. Isaac Wilhelm has gone to Stratford for treatment.

Mr. Conrad Smith, Jr., who has gone to the North-west, writes that they are proceeding on their journey and will likely be at the end of it ere this is published.

Do not miss the musical and comical concert in Wellesley Saturday evening. If you come early you will hear the music outside before the concert begins.

LINWOOD.

Those who propose building this summer are busy getting the material in position and bones are in common order.

Mr. Thos Griffin has taken a position in town and is now installed as stable boy at the Spahr house.

Mrs. R. Kerr entertained a number of friends on Thursday night of last week.

British subjects were only than Canadian. Mr. R. Long had to say that the affirmative while Mr. S. Miller and Dr. McEachern upheld the negative. The four speakers are to be highly congratulated on the many fine points advanced in the debate.

The judges, at the close decided in favor of the affirmative, giving them a total of three points.

Mr. Almond Rennie occupied the chair very acceptably. The next debate will be held on the 21st when the subject "Resolved that the works of art are more pleasing to the eye than the works of nature" will be discussed.

Mr. Heinkel has been busily engaged in tearing down the old stone church just out of the village as he intends using the stone in his magnificent block.

Mr. H. Jackson, of Glenallen, spent Sunday in the village.

Mr. T. Rafferty, of Glenallen, was down on Monday visiting his friends here farwell before leaving for the "Glorious West."

A very quiet but pleasant event took place at the home of Mr. and Mrs. C. Farrell on Thursday last when their daughter was united in marriage to Mr. Byers, a well-to-do farmer of Alberta. We extend congratulations and wish them a pleasant voyage through life.

FIFTH LINE.

Mr. John McRae has returned home from British Columbia, where he was visiting his brother James. He is looking refreshed after his trip and is well pleased with the country.

Mr. Fink, from Brunner, is moving into the farm of Mr. John Ritchie. We wish him every success in his new home.

Many farmers in this township, and also in Mornington, are selling their farms and moving out west. This seems to be the month for making changes.

EDITORIAL NOTES.

Dominion parliament opened last week with great pomp. The session promises to be a short one.

The Waterloo Daily Citizen making reference to the editorial on the metric system in last week's Maple Leaf, says: "The sporty editor of the Wellesley Maple Leaf evidently never wielded a rod in a little country school house. Had he been occupied with the difficult problem of getting the rising generation to comprehend the intricate arithmetical operations required to compute the number of acres in say, 795,348,260 square inches, or some other equally intricate problem, he would have had delight in a system which does away with such brain-tiring methods even if his jaws would ache for awhile in pronunciation of the new names. We feel sure that every school boy and school girl too will rejoice when the present problems in reductions have become a thing of the past."

The Leaf strongly favors the metric system but believes that simpler names must be found to denominate the various weights, measures etc., before the masses will take to their adoption. The largest stock of metric measures in the province is said that it is the rapid.

R. B. Gamble, of North Waterloo at Berlin last Saturday and sustained the reputation he is rapidly gaining as one of Ontario's really able men. He told enough of his recent sensational history to convince his hearers that the part he took was not a crooked one but was forced upon him. When he satisfies the public at large—Grits and Tories—on this question he will make the highest type of Cabinet timber.

Galt Reporter, Friday, Mar. 9th. —"Our Wellesley contemporary has hung steadily to its contention that the townships are better qualified to handle the business of road making than a collection of representatives from all parts of the county imbued with notions of systematic construction under a competent superintendent and with the required machinery. With the Maple Leaf we have no quarrel as the desirability of improving the highways of this country. But the Reporter is satisfied with the Good Roads Act as it stands, believing as it does that the combined wisdom of legislators in touch with their constituents and schooled as to the country's wants is more to be relied upon than the varying views of township councillors working more or less in the dark. When the Good Roads movement descends to township control it will lose the force of a Provincial enterprise—and back into the rut it will fall. We are of the opinion that the Government will not recede from the position that it has taken, that the larger body representing all parts of the county, is the only one fitted to create good roads out of bad ones, the only body entitled to Provincial assistance in the work performed."

While we do not at all agree with the Reporter's argument, we are pleased that that excellent journal is alive to the best interests of On-

tario in bettering the public roads. Indeed this is a question which editorial writers should just now be agitating to the fullest extent for the public good. If a "leading road" is intended for the benefit of automobile companies, then the farmer has no use for it; if it is intended to lead to the county town, he cares but little more for it. But if it is intended for the benefit of the farmer—to lead, to his nearest market—the law should be amended to allow the farmer, through his township council, to designate where it shall be located. The government that offers to pay one-third of the cost of permanent roads should be willing to pay the interest on money borrowed for this purpose. If they paid the interest, and the commuted statute labor along the improved roads paid the principal, as advocated by the Maple Leaf, there should thus be given the greatest incentive to build permanent roads all over the province.

Champion Liniment for Rheumatism.

Chas. Drake, a mail carrier at Champlain, Conn., says: "Champlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the storekeeper here recommended this remedy and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be secured for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure. For sale by A. J. Saunders, druggist, Wellesley.

THE EDITOR AND MONEY.

It takes money to run a newspaper, says the St. John (Kan) News, an exaggeration; what a whopper. It has been disproved a thousand times; it is a clear case of fancy. It doesn't take money to run a newspaper; it can run without money. It is a charitable institution, a benevolent concern, a highway robber. The newspaper is a child of the air, a creature of a dream. It can go on and on when another concern would be in the hands of a receiver and wound up with cobwebs in the window. It takes wind to run a newspaper; it takes gall to run a newspaper. It takes a scintillating, acrobatic imagination and a rail road pass to run a newspaper. But money—who ever needed money in conducting a newspaper? Kind words are the medium of exchange that do the business for the editor and the church societies' tickets. When you see an editor with money, watch him. He'll be paying bills and disengaging his profession. Never give money to an editor. Make him trade it out. He likes to sway. Corn salve, cabbage, corn salve, old clothes and scrap iron are all useful to him. Money is a corrupt thing. The editor knows it, and what he wants is your heartfelt thanks. Then he can thank the printers and they can thank the grocers. Send your job work to some city office and then come and ask for free puffs. Get your lodge letter heads and stationary printed out of town, and then flood the editor with resolutions and cards of thanks. They make such spicy readings, and when you pick the paper up and read these glowing and vivid articles you are so proud of it. But money—scorn the filthy thing. Don't let the pure, innocent editor know anything about it. Keep that for sordid tradespeople who charge for their wares. The editor gives his bounty away. The Lord loveth a cheerful giver. He'll take care of all the editors. Don't worry about the editor. He has a charter from the province to act as a dove and for the community. He'll get the paper out somehow; and stand up for it when you run for office, and lie about your pigeon-toed daughter's tackey wedding, and blab about your big-footed sons when they get a \$4 per week job, and when you die, after having stood around for years and sneered at the editor and his jim crow paper, lie about your wife and send in for three extra copies but don't offer the 15 cents, it would overwhelm the editor. He'll get along. The Lord only knows how—but the editor will get there somehow.

NEWS NOTES.

A busy man has but little time in which to act mean.

Any man with nothing to do has a hard job.

Berlin teachers have been given a raise in salaries and the Public School Board has accordingly raised itself in the estimation of the recipients of its favors.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Shenick 220 So. Florida St., Chicago. "Two years ago during a political campaign, I caught cold after being overexerted, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the Council." This remedy is for sale by A. J. Saunders, druggist, Wellsley.
