EDITORIAL NOTES.

In the North Bruce bye election, held last Thursday, Wm. Tolmie (Ref.) was elected by a majority of over 400. The following day Finance Minister Fielding was re-elected by over 1000 majority. Both were Dominion parliament election.

Every body reads the Maple Leaf and its articles are freely copied into other papers. But within the last week we've had the unique experience of having a "paid local" copied into no less than three of the neighboring dailies as "Wellesley News."

The Waterloo Board of Trade is taking up the "Wellesley Extension," project, of which the Daily Citizen is the pioneer, and is urging the Berlin Board of Trade to join them in pushing the scheme. The route which is apparently proposed—from Waterloo to Wellesley village, and thence to Linwood village—is faulty in that it would pass for the last eight miles or so after leaving this village, through a territory to be served by the C. P. R.'s new Guelph-Goderich line. The people would not bonus that portion, and the company would not likely build it. But if the Daily Citizen's idea is to reach Linwood and Wallace township by running a street trolley line north from a point just west of Cambridge, through St. Clements, Heidelberg, Hawkesville and Wallenstein, reaching Linwood and the northern township by that route, this line would be shorter, more profitable, cheaper to build and better supported by the people. It would also serve the Twin City purposes more fully.

Next year the reeve and deputies resume sway as county councils under the new Act.

The "Boggs Drain"—a long arm of ditch work intended to drain portions of Mornington, Wellesley, Peel and Maryboro townships—is gradually assuming shape and the scheme will likely be fully developed during the coming winter.

Hughes (Republican) was elected Governor of New York State on Tuesday.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable to me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally.—Mrs. Rosa Fottis, Birmingham, Ala. These tablets are for sale by A. J. Saunders, druggist Wellesley.

RIK-SAW DUST.

If you want to lighten your own load take on some of your neighbor's burdens.

If you want to do big things to-morrow, you've got to do a few little ones to-day.

The more the most of us are civilized, the less we want to work.

If we were all forbidden to say our prayers, we'd pray or bust.

The "man who has a price" generally skins the fellow who buys him.

If we'd all "live-right," we wouldn't give the subject of "dying right" a thought.

Following "a good example" is much harder than telling the other fellow how to do it.

If we were all tried by our own conscience, there'd be a powerful lot of convicts in this country.

You can't cure the curse of poverty by giving away a part of that which you have stolen yourself.

HOCKEY AND CURLING.

The following is, substantially, the report of a meeting which may be held any old evening soon for the purpose of building a combined curling, skating and hockey rink in Wellesley. After calling the meeting to order the chairman states that all are concerned in providing winter amusement for the young; a rink of some kind is considered a necessity and it would at least for several years be a paying investment if properly built and operated. The first speaker endorses the chairman and believes a suitable building to last a few years could be roughly constructed for \$300 or \$400 and during its life would pay for itself while giving the users lots of sport. The next speaker thinks it foolish to build a cheap building; the big towns around here have costly rinks and it would be a waste of money to build a rink under a couple of thousand dollars. Next speaker states that so much money could not be raised. Then follows two or three speakers who don't believe in rinks and propose debating clubs, literary societies, reading rooms, staying home nights, etc., to the disgust of the young people present who are hoping for a place to skate. A committee is appointed to get estimates for a cheap building; the price of lumber and nails is discussed; a cement rink, brick rink, iron rink, open rink, individual experience with the rinks of "the town I came from," are considered and then the committee to get estimates is withdrawn. Next follows a rebash of all the things that have been previously said during the evening until a late hour. The cheap rink scheme is talked down and out, and some of the wealthier ones present state that they will look into the matter of forming a company to build a permanent rink some day. The small boys then get together and start a 10-cent subscription to keep a little space on the pond clear of snow as long as possible during the winter. And thus the fate of winter sports in Wellesley is decided for the year.

Hallo'een was "observed" here in the old time, foolish manner on Wednesday night of last week. Boys who indulge in that kind of "sport" are generally too cowardly to do much damage. As long as the older people continue to find that kind of thing by speaking of the depredations as jokes so long silly boys can be found to perpetrate them.

No store, ahead of ours in this fall rush of cheap sales. John Spahr.

Judge's Court of Revision meets in Crosshill on Friday.

Have you got your seat reserved for the basket ball concert. Date Nov 15th.

A debating club or literary society would help to profitably pass the evening long winter evenings.

The business failure of the T. Ruggie Co., general merchants, Linwood, is announced. Mr. Ruggie conducted an excellent business and became personally quite popular in that section. He has the general sympathy of the public in his loss, which is reported to be the result of legitimate reasons.

Rev. Mr. Stewart occupied the pulpit of the Union (English) church here last Sunday evening. The aged gentleman preached a powerful sermon. A ludicrous incident occurred while the scripture lesson was being read. Some words the preacher said were mistaken by the congregation and all heads were bowed in prayer, while the reverend gentleman concluded the reading of the chapter, wondering what had caused the smiles to be seen on all sides for a few minutes.

The young ladies basket ball concert promised to be a financial success. Already the reserved space has been pretty well sold, and those who wait until the last minute before buying their seats will find themselves pretty well back in the ball. The program which appears on another page is an attractive one, and the fair sex will demonstrate their ability to entertain unaided by their big brothers.

The death of Mr. William A. Lackner at Berlin last Friday removes one of the early settlers of Wellesley township. He was in business in Hawkesville many years ago, then went extensively into farming and thoroughbred stock raising. He was in the council five or six years, president of the Wellesley Agricultural Society and held other positions of trust. He is survived by a widow, four sons and two daughters, among the sons being Dr. Lackner, M. L. A.

The congregation of St. Paul's (Miss) church recently made a liberal donation to their former pastor, the late Rev. Mr. Lochner, and also erected a tombstone on the grave of his little twin son who died while he was in charge here. Last Sunday morning a letter from Mrs. Lochner, thanking the congregation for these touching kindnesses, was read from the pulpit by pastor Battenberg, producing a profound impression in the assembly.

The State election held in the United States on Tuesday had a decided Republican trend in the Northern States although the South as usual went solidly Democratic. It is an old adage that "as goes New York so goes the Presidency." If that is fulfilled in '08 Roosevelt should be "feeling good" about now.
