

SAVING The Key to Success.

Men who have been successful in business have followed the way to success, but all unite in the opinion that to save is the first essential. This idea is variously expressed by different men. Carnegie says the sure mark of the coming millionaire is that he becomes always exceeds his expenditure. Having is the "must be" of success.

You will receive your savings from \$1 up and allow you interest thereon compounded every six months.

ABSOLUTE SECURITY.

LINWOOD.
Never a January without a thaw. This year is certainly no exception. The roads are perfectly bare and the wheeling is good.
Owing to a scarcity of ice the collector of the day did not take place.

Don't forget the first meeting of the Literary Society to be held in Spahr's hall on Friday evening, Feb. 2nd. A good program of vocal and instrumental music, dialogues, readings and recitations has been arranged for, besides a lively debate on one of the most important subjects of the day. As this is the first meeting of the season those most interested would like to see a full house. Come, bring the family, and enjoy a literary treat.

The management committee of the Library has been re-appointed and a new year entered upon. During the year it is expected that several new and popular books will be added, which will improve the library considerably. For the sake of the place Linwood has one of the finest collections of books to be found anywhere, and anyone looking for good, spicy reading will go well to call on Mr. Heinbock, Librarian, and subscribe for 1906. The subscription rate has been again fixed at 50c per year.
Mr. Alex. Rennie, who has been reading for years on a farm near Linwood has decided to retire from farming activities, and, we understand, intends to bring in our village in the spring.

Mr. L. Meyer is busily engaged improving his property and putting in the necessary machinery for the manufacture of such doors, etc.

Mr. G. B. Hilmer, of Elmira, has come to Linwood with the intention of starting a jewellery business. He has opened up shop opposite the post office and is prepared to meet the requirements of all in the jewellery line.

The Misses Buttery, of Brussels, were the guests of Mrs. Wm. Caranach last week.

We are pleased to see that Mr. Patrick Smith has so far recovered from a recent operation as to be able to walk around again.

Owing to the Quarterly meeting service at Hawkesville on Sunday last there was no service in the Methodist church here.

There will be no service in the Presbyterian church next Sunday as it is anniversary Sunday at Hawkesville.

Rev. Wm. Sterling preached at all services on the Elmira circuit on Sunday last.

Linwood Junior Hockey Club journeyed to Wellesley to try conclusions with the boys of that place on Saturday. Don't mention results.

Mr. M. Bricker, Waterloo, general agent of the Dominion Life Insurance Co., was in the village on Monday in the interest of the company.

FIFTH LINE.

Miss Mary McFarren, who for the past week has been sewing on the 5th line, left for her home in Hampton, where others are waiting for her. The people here were well pleased with her work.

The farmers are taking advantage of the fine weather, and are cutting their seasons' wood.

While the people of Ontario were enjoying the fine weather last week, the thermometer at Edmonton, Alberta registered 32 below zero.

HAWKESVILLE.

Mr. John Frey, of Lisbon, visited his brother, Mr. H. Frey, last Monday.

Mr. Gilbert Smith, of Linwood, attended the Quarterly meetings in the Methodist church at Hawkesville.

Mr. Sidney Snyder, and Miss Sylvia Shelley, of Bloomington, spent Sunday at the later's home.

Mr. J. A. McAllister, of Bloomington is spending a few days at Mr. A. McAllister's.

Mr. and Mrs. Wm. Foster and children, and Mr. and Mrs. R. Winn, and children spent Sunday in Crosshill.

Miss Ella Spies, of Fergus, spent a few days of last week at Mr. F. Spies.

Miss Olive Jefferson was the guest of Miss Edna Oakes, for a few days last week.

Mrs. D. Lockner and son, Harold, have returned after spending some time in St. Agatha.

Miss Bella Meyer, of St. Clements, is the guest of Miss Gertrude Martin.

Rev. Mr. Vollick, of Elmira, conducted the Quarterly services on Sunday.

A pretty wedding took place last Wednesday at the home of the bride's parents, Mr. and Mrs. Jacob Bricker, when their daughter Hannah was united in marriage to Mr. James McColloch, of Okotoks, Mr. Edgar officiating. The bride was gown in crepe de chene and carried a bouquet of carnations. The bridesmaid was Miss Melissa Bricker, while the groom's brother, Mr. McColloch, of Calgary, was best man. We extend our congratulations and they will carry our good wishes with them to their home in Okotoks, Alberta.

The flood in the Conestoga river, at Hawkesville, was higher than the last spring freshet. It reached the highest mark at midnight of Jan. 31st, when it ran over the side of the dam, 4 ft deep and 276 feet wide. The following figures will give the readers of the Maple Leaf an idea what this means by water table. It means that in every minute 311,300 cubic feet of water passed over, or 19,468,250 lbs., or 6,726 tons or 2,433 cords. To use this on a 10 ft. head would give 4 7/8 horse power and would run 100 grist mills using 8 h. p. each day and night for the time being.

CROSSHILL.

Mr. and Mrs. Wm. Foster, of Manitoba, are the guests of Mr. Robt. Foster.

Mr. Hugh Frame, of Waterloo, spent Sunday in the village.

Mr. and Mrs. Doering, attended the funeral of Mr. Hoss, in Palmerston on Sunday.

Mr. Thos. Campbell of London, left to-day after spending a few days with friends here.

Mrs. John Webster, is spending this week in Baden.

Mr. Thos. Rennie, of Eden Mills, visited friends here last week.

The Farmers' Institute meeting will be held in the town hall here on Tuesday, Feb. 9th. Afternoon session at 1:30 and the evening 7:30. A program will be furnished by the young people.

Chamberlain's Cough Remedy and Mother's Favorite.

The soothing and healing properties of this remedy, its pleasant taste and prompt and permanent cures have made it a favorite with people everywhere. It is especially prized by mothers of small children, for colds, croup and whooping cough, as it always affords quick relief, and as it contains no opium or other harmful drug, it may be given as confidently to a baby as to an adult. For sale by A. J. Saunders, druggist, Wellesley.

DOERING'S CORNERS.

On Saturday afternoon last, Mr. Geo. A. Cook had a narrow escape. While working in his swamp he was struck by a falling limb, which fell from a tree near him. He is under Dr. Doering's care, and says he will soon be able to be around again.

Miss Tills Art returned home from Bay City, Mich., on Saturday, after an absence of two months.

Mr. Samuel Art was in Berlin on Saturday.

Mr. Henry G. Cook, is busy building brick from Lisbon for the erection of a house next summer.

Afraid of Strong Medicines.

Many people suffer for years from rheumatic pains, and prefer to do so rather than take the strong medicines usually given for rheumatism. Not knowing that quick relief from pain may be had simply by applying Chamberlain's Pain Balm without taking any medicine internally. For sale by A. J. Saunders, druggist, Wellesley.

THE CANADIAN HOG RAISING INDUSTRY.

Investigation by the Live Stock Branch of the Dominion Department of Agriculture into the alleged shortage of hogs has shown that for some months past the supply of bacon hogs in Canada has been falling off. Even before the order was issued forbidding packers from importing United States hogs to be slaughtered in bond, difficulty was experienced by Canadian packers in procuring sufficient hogs. The amount of the shortage during the summer and fall is indicated by the fact that packers claim to have been able to secure only from 30 to 35 per cent.

Hog raisers on the other hand claim that the productions is considerably nearer the normal than would appear from the statements of the packers. It is, they say, partly an increase in packing house capacity rather than a decrease in hog raising. In some of the dairying sections supplies are reported to be very little below the normal, while in other districts the shortage is placed at about 30 to 35 per cent.

Enquiries as to the cause of the shortage brought from packers and producers a variety of replies. The packers claim that for the past three years or more the competition between buyers of hogs has been so keen that top prices have been paid continuously and that these prices have been high enough to give a profit to the producers. They claim therefore to be at a loss to understand why there is a shortage at this time. Speaking from the standpoint of the producer, well informed authorities claim that the price has not been as uniformly high as it should have been. At times of the year when the packers anticipated heavy runs, prices dropped to a point where no profit was left to the feeder. This, they claim, took place last season when sows would be bred for the supplies of the fall just past, and as coarse grains were high and labor scarce at that time many brood sows were sent to the market.

Again it is argued that the majority of packers have not encouraged the production of hogs of the bacon type and weight. For a number of years improvement in the hog stock of the country make satisfactory progress, but during the past season at least the producers of the ideal sort have received no encouragement to continue their good work; a flat rate has been paid for good and bad alike. The hog fits only to compete with the low price American stock brought quite as much as the sort that competes with Irish and Danish bacon for the highest place on the British market.

(To be continued next week.)

EDITORIAL NOTES.

Good morning. Is your cold better?

The Berlin hockey editors have stolen the Maple Leaf's tennis slogan and changed it over to "Berlin always wins."

It is now rumored that the Wellesley section will shortly be asked to submit new bonuses for the construction of the trolley extension west from Waterloo town. This section is prepared to consider any reasonable scheme for railway connection but will take care to get security that any future bonuses voted will be used instead of thrown aside as the last ones were. An electric line from Waterloo to Stratford, with a short spur running north to Hawkesville would be very popular and every mile of it would pay well from the start, in fact there is every reason to believe it would be as profitable as the Galt, Preston and Berlin now is. Much a line might be extended on south to Ingersoll to connect with the C. P. R., and pay well. But if the C. P. R. decides to give Stratford connection from the north by building a steam road, many years would elapse before an extension of this road on north to Linwood could be made to pay for the axle grease used upon it. Unless Wellesley village gets trolley connection from Waterloo, or the Grand Trunk Railway can be induced to run a spur line from Baden to this village there looks at present to be but little hopes of railway connection.

The re-organization of the Ontario scheme for road improvements seems to be taking a firm hold upon the people of the Province. That better highways are required for the farming interests everyone admits; that the present system of keeping our roads in good order is insufficient and too costly is also indisputable, but the townships are not willing to admit that the only remedy lies in passing over to the county councils the supervision and control of our main roads. All "county roads" schemes are looked upon with suspicion by suburban municipalities for fear that the county towns are trying to get some advantage at the countryman's expense, and so a stumbling block is placed in the way of the initial move for better roads. The idea of a long line of "model" roads leading through the Province does not appeal to the farmer because his market is seldom more than five or ten miles from his home, and he has no sympathy with, or money for, the rich automobilist who wants to make a record run from Montreal to Barrie, frightening horses and perhaps killing stock on the way. If the government is really aiming at the farmers' interest in assisting, with money, the making of permanent roads in the township, the Maple Leaf's scheme, as outlined last week, comes nearer the mark than the government's present plan. Paying the interest on the money borrowed would be but a little more than the one third now offered by the government, while the local municipality, which ought to be the best judge, can designate and control the roads to be improved. It has been stated that the Provincial government is willing to give away two million of dollars, or even more if necessary, for the purpose of assisting to make permanent roads. If the government set aside \$1,000,000 at a per cent. interest the \$60,000 thus raised would pay the interest

on the cost of 135 miles of permanent road a year without touching the principal, as the government now proposes to do. Ontario could well afford to set aside a sum of \$5,000,000 or even more, for such a purpose allowing the interest upon it to assist the good roads scheme instead of dissipating the principal. If township councils could borrow money to build permanent roads without loading the ratepayers with a heavy tax for interest there would be a big incentive to raise money for good township roads. And if the Province set aside a sum from which to pay this interest the capital would never be lost to Ontario, while its interest earnings would be applied to the best possible use. And by giving each township control of its own expenditures all cause for friction and jealousy between the township and the country would be removed. This scheme is worth investigating.

WINNIPEG NEWS.

Continued from last week.

At the last municipal elections two by-laws were carried; one was to authorize the council to spend \$500,000 for a new gas producer plant, and the other was to vote \$150,000 to the General Hospital for extension purposes.

A social afternoon and evening was spent last Saturday (in the good old Pennsylvania German style,) at the home of Mr. and Mrs. Moses Bechtel, formerly of Wellesley. Mr. and Mrs. Ken. Fraser, (now Miss Lillie Bechtel) and the writer had the privilege of being present and had a very enjoyable time. Mr. and Mrs. Bechtel are favorably known in Wellesley, having lived there previous to coming to Manitoba about 13 years ago. They are happy and contented and have not as yet regretted the step they took in locating out here, the result being that they are now living a retired life. This may be a gentle hint to this village who could do likewise if they managed their affairs according to their convictions.

The T. Eaton Co. hold a very successful banquet last week in honor of their 1400 employees, and no pains or expense was spared to make it an ideal event for all present. They are a wide-awake and up-to-date firm and are always aiming at in doing justice to their large and efficient staff of hands. Their store opens at 8 a. m. and closes at 6 p. m. sharp, daily, a rule which no other store in the city has adopted.

The outlook for the approaching season for the coming in of settlers into the west is very bright. A great rush is expected from many parts of the United States as well as from Ontario. No doubt the price of land will take another step higher. Those people who invested in a section of land a few years ago are now realizing what possibilities there are in store for those who venture and risk a few dollars in some good prairie settlement.

—C. B.

PREVALENCE OF SMALL-POX.

The prevalence of small-pox in Ontario is perhaps the most noticeable feature of the report of the Provincial Board of Health for Dec. 1905. However, although there were 1,289 cases of the disease reported from 20 municipalities in the older settled parts of the province, no deaths from it are reported. It was a mild type of the malady. In many instances it was mistaken for chicken pox, but when its true character was learned it was energetically combated.

The ravages of consumption were as usual, very large. Of the dread white plague 172 cases were reported and in every one of them death ensued. Typhoid fever was more than ordinarily prevalent. There were 152 cases of it, 84 more than the previous year, but only six more deaths than in December, '0.

There was a falling off of 31 deaths in the mortality from infectious diseases.

In 735 divisions, representing a population of 1,659,700, the total number of deaths was 3,116, which is an annual death rate of 2.9 per 1,000 as compared with 1.67 deaths, or 12.7 per 1,000 in the same month in 1904.

The following table shows the figures for infectious diseases:—1905

Diseases.	Cases.	Deaths.
Smallpox.....	127	0
Scarlet fever.....	151	5
Diphtheria.....	231	23
Measles.....	40	2
Whooping Cough.....	35	6
Typhoid.....	152	45
Tuberculosis.....	172	172

NEWS NOTES.

A brave act was performed in Guelph, last Thursday, by a 15 year old girl, when Donald Adams, the four-year-old son of Mr. and Mrs. Adams, Guelph was saved from drowning by the heroic efforts of Miss Ella Crooks, daughter of Mr. and Mrs. Charles Crook. The little fellow had ventured out onto the ice on the river just a little above the foot bridge. It gave way and he was precipitated into the icy waters and sank. Miss Crook saw his plight, and crawling out on the ice on her hands and knees, seized him by the arm just as he was sinking for the third time. Both reached the shore in safety.

On Tuesday evening of last week Adolph Schultz, of Bridgeport, was almost drowned in the mill-dam. He was skating and broke through the ice. The water was quite deep but by a heroic effort he pulled himself out of his uncomfortable position. Beyond getting a thorough soaking and a bad scare, he suffered no other injuries.

The directors of the Berlin rink and the Auditorium Company have decided to instal an artificial ice equipment this year, to be used next winter. Manager Doerr stated this morning that the plant would cost in the neighborhood of \$8,000, but he was confident that it would be a money maker for the directors and shareholders of the company. The receipts from the skating public when there is good ice averages between \$400 and \$600 a week. The company receives half the receipts from games played by hockey clubs, and in addition to this they would be frequent games played in Berlin by outside clubs that would bring in a large revenue. It is also proposed to use the rink in summer time for cold storage purposes, which will also yield a revenue. The decision of the auditorium directors to establish an artificial system, in addition to the present natural plan of ice making, has been well received in local hockey circles, and will enable teams to get into training early in the season and to continue playing games for weeks before and after the ordinary season. It is also expected that Berlin's rink will be a great service in pulling off O. H. A. games in this vicinity without the necessity of postponement on "no ice cry."

They are moving out rapidly.

P. M.—12.14, 1.15, 2.15, 3.15, 4.15, 5.15, 9.15, 10.15, 11.15, 12.15, (Preston only).

East of London the G. T. R. tracks out through a small sand-bank, and a cave in had occurred, the sand falling onto the tracks, covering them to a depth of about two feet for about several yards.

Two boys, Fred Jones and Harry McKay, happened to be walking on the tracks, and discovering the sand, realized at once that a serious accident would be the result should a train run into it. They quickly tied their handkerchiefs to sticks, and preceding two or three hundred yards past the cave-in flagged two passenger trains. The engineer took the boys' names who will in all probability be remembered by the company for their action.

If you like the Maple Leaf, recommend it to your friends.

Tie said that Trotter time is all the time, and the fellow who said it was right. Come and select a pair of the late Fall out and fabrics. Wise buyers come early and often—early to make their own selections and often with their friends.
