The Maple Leaf's new sign ar-
rived this week and is now in pos-
ition. It is a beauty—decidedly the
proudest in town. It was designed
and made by Mr. Rosenblatt, of
St. Clement's, manufacturer of dec-
orations for churches, and it cer-
tainly reflects credit upon his skill
as a sign writer.

The Maple Leaf is issued a day
or so late this week on account of

came unexpectedly to the office al-

FARMERS' INSTITUTE.

The Institute meeting held here
last Friday was very successful, all
the sessions being fully attended.
Vice-President Albert Dowling oc-
cupied the chair at the afternoon
meeting. Mr. Luckner, of Haw-
kinsville, spoke at some length upon
the question of raising and fattening
hogs and his able remarks
brought out a strong discussion in
which the farmers present took an
animated part. He was followed by Mr. Thos. McMillan, of the Insti-
tute lecturer, who took for his subject
the horse, speaking in an interest-
ing and instructive manner
on the most profitable breed for a
farmer to raise, strongly favoring
the Clydesdale. His lecture elicited
much questioning, bringing out
important information and showing
that the farmers of this section
are giving much attention to
the subject. At the close of the
meeting the audience was invited to
the Albion hotel stable where
Mr. McMillan, using two imported
Clydesdale mares as subjects, went
over the two animals carefully and
from a judge's standpoint, explained
the points of merit on the animals
from their noses to their heels.
He invited criticism from the
audience as he went along and although occasionally disputed by all for
his work.

There was also a crowded attend-
ance at the halve meeting in the
adjoining hall where Miss Smith, of
Hamilton, gave an interesting and
instructive lecture. In the absence of Mrs. Green, the President, Mrs.
H. K. Forler, 2nd V. President, oc-
cupied the chair. There was also a
short musical and literary program
rendered by young ladies of the
village.

At the evening meeting the hall
was crowded to the doors, many of
the audience having come long dis-
tances to be present. Mr. Dering
again ably presided. After a splendidly
performed piano selection by
Miss Spahr, who also rendered one
or two other numbers during the
evening, Mr. Green was called upon
for the address of welcome, which
was replied to by Mr. Allan Shantz,
the able secretary of the North
Hilling Institute. Miss Smith fol-
lowed with a well-worded address
on home influence upon the chil-
dren, the community and the na-
tion. This was followed by a ten-
min drill by sixteen village maidens
and it fairly brought down the
house. Mr. McMillan's address
followed the lines taken by Miss
Smith and in a masterly effort he
traced the rise and fall of the em-
pires of the past to prove that the
strength and durability of a nation
lie in the purity and integrity of its
homes. At the close of his address
Mr. C. F. Ottmann moved a vote of thanks, seconded by Mr. H.
Kelly, both using neat language in
complimenting the speakers and the
entertainers of the evening. The
meeting then closed with the
National Anthem.

Both the Ladies' and the Men's
Institute received large additions
to their membership during the
day, and the probabilities are that
these two branches will be stronger
than ever next year.

From the Chicago Tribune
"Don't tell us there is no such advice for prevent and cure colds. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter, and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary colds will become severe if neglected, and a well established regime for the prevention of colds will insure better health. This creates memory to a child's life at this season of the year is a neglected cold." Whether it is a child or adult the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is so certain the great popularity and universality of this preparation has been attained by its remarkable virtues of this medicine. A cold never results in pneumonia when it is given.
