## FOR THOSE WHO CANNOT SEE.

In making his annual appeal to the readers of Ontario newspapers for information which will enable blind people to be admitted to the school for the Blind at Brantford, Principal Gardner asks The Maple Leaf to call public attention to the need for some institution where the adult blind may be instructed and employed. General experience has demonstrated the inadvisability of combining a workshop for adults with a school for children under one management, yet the blind adults, who far outnumber the children of school age, should be no longer neglected. In New York State it has been ascertained by careful inquiry that out of 6,008 blind persons only 384, or 6.32 per cent. of the total number, are under 21 years of age; 3,193 or 53.14 per cent., are over 60 years of age; while 1,375 or 22.88 per cent., are between the ages of twenty-one and fifty in the prime of life and capable of being rendered in whole or in part self-supporting. It is probable that the percentages in Ontario are similar to those in New York. Many lose their sight by accident after passing school age and many who have been blind from birth or childhood need help and direction in order to work profitably. In California, Connecticut, the district of Columbia, Illinois, Indiana, Massachusetts, Michigan, New Jersey, New York, Ohio, Pennsylvania and Wisconsin work shops or "homes" have been provided and other States the matter has been taken up by Women's Clubs and other associations of philanthropic ladies, whose influence upon public opinion and the Legislatures will certainly effect the desired result.

The first necessity is to get an accurate knowledge of the facts and to this end Mr. Gardner will gladly receive information relating to blind residents of Ontario, of all ages (names and post-office addresses) those under twenty-one years of age, not deficient in intellect, and free from disease and physical infirmity, who are blind, or whose sight is so defective that they are

unable to read ordinary type and attend a school for the seeing without serious injury to the sight, should attend the school at Brantford, which is maintained by the Provincial government for their benefit. A letter or post card, addressed to the Principal, will receive immediate attention.

## ST. CLEMENTS.

We have this week to record the death of Mr. Jacob Rank, sr., which occurred at his home just west of this village, lot 7, con. 7, s. 8., at one o'clock last Wednesday afternoon, aged 76 years, 1 month, and 19 days. Deceased emigrated from Germany with his parents when a lad of 12 years and the family settled at once on the farm upon which he died. At the age of 20 he was married to Catharine Felck, who predeceased him twenty years ago. Of their twelve children, ten, (six sons and four daughters), survive. The surviving children are: John, Wellesley T., on his Grandfather's homestead; Henry and William in Waterloo; Louis in Wellesley T. west of Bamberg; Jacob in Sebastopol; Christine on his father's homestead; Mrs. Henry Hahn, near Linwood; Mrs. Henry Hergenroeder of Berlin; Mrs. Jacob Fenner, Waterloo; and Mrs. John Schneider, Wellesley T., west of Heidelberg. The funeral occurred last Saturday morning, the attendance being very large. The remains were interred in the Heidelberg Lutheran cemetery.

The Doctor Away from Home when Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diarrhoea, cholera, and cholera morbus require prompt treatment and have in many instances proven fatal before medicine could be produced or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by A. J. Saunders, Druggist, Wellesley.

### EDITORIAL NOTES.

The Stratford Herald's Sarnia-Detroit excursion is certainly the finest midsummer outing trip to be had in western Ontario. Next year—when we get that railroad, you know—count on 250 tickets being sold at Wellesley station alone. But this year, if you can possibly spare the time, take the train as advertised and don't miss it—the excursion.

Bourassa threatens to do things in Quebec. It is not quite settled yet whether he is to found a new Party or intends playing havoc by operating a new fangled party-buster. He invites both Laurier and Borden to "watch his smoke."

The miners' strike, now on in Cobalt, is evidently not run by walking bosses from the big unions. The men are not satisfied with the wages offered so they quietly throw up the job and hundreds of them took the train out of the country. When these Cobalt miners dig a hole for the big owners they don't want "all there is in it" but they evidently want their own share.

■ This is hot weather, prothor ad-stors, and it keeps us jumping to hustle around after those slow dollars that belong to this business and at the same time keep the Leaf the liveliest village paper in the section. So don't make us hotter by publishing so many items clipped from this giant journal without putting the Wellesley Maple Leaf tag on them.

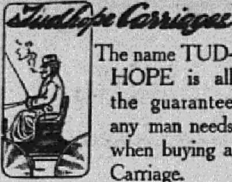

The Orange parade in Toronto last Friday came into conflict with the city street railway, and a riot might easily have resulted had the street car people or their sympathizers been out in force. As it was the procession claimed the right of way and damaged several cars which attempted to push across the big procession. Many good people all over the Province are regretting that Toronto so far forgot itself on that occasion.

The ancient history editor of the Berlin Daily Telegraph knows the exact number of days, Sundays included, since the late John MacDongall's office has "not been filled." Next thing we know he'll be printing it right in his newspaper.

Wellesley is beginning to require a more rigid police system. The respectable portion of the community will not stand for very much lawlessness of the nature reported on Saturday night last.

## Will You Help It?

THE HOSPITAL FOR SICK CHILDREN

For It Cares for Every Sick Child in Ontario whose Parents Cannot Afford to Pay for Treatment.

The Hospital for Sick Children, College Street, Toronto, appeals to the fathers and mothers of Ontario for funds to maintain the thousand sick children that it nurses within its walls every year.

The Hospital is not a local institution—but Provincial. The sick child from any place in Ontario who can't afford to pay has the same privileges as the child living in Toronto and is treated free.

The Hospital had last year in its beds and cots 761 patients, 267 of these were from 196 places outside of Toronto.

The cost is 98 cents per patient per day, and there were 129 sick little ones a day in the Hospital.

"GOOD DAY, DEAR." Since its foundation the Hospital has treated 10,371 children—about 7,500 of these were unable to pay and were treated free. Every dollar that is paid by the friends of your kind thoughts into the Hospital kind deeds.

Everybody's dollar may be the friend in need to somebody's child.

Let the memory of the strong be memory to the weak. The Hospital pays out dividends of health and happiness to suffering childhood on every dollar that is paid by the friends of little children.

If you know of any sick child in your neighborhood who is sick or crippled or has club feet send the parent's name to the Hospital.

"BIRD'S KNITTING" See the example of what can be done for club-foot children. There were 16 like cases last year and hundreds in 25 years.

Please send contributions to J. Ross Robertson, Chairman, or to Douglas Davidson, Sec. Treas., of The Hospital for Sick Children, College Street, Toronto.

On common fences the conditions wire stays are sure to bend and the lock to lose their grip under continual pressure of your horses or cattle. And once they do, the top wire, soon followed by those below, will sag and destroy the efficiency of your fence.

Nothing like that can happen to our Dillon Hinge-Stay Fence. The short, stiff hard steel wire in our hinge-stays cannot bend when the lateral wires are weighted down, owing to their being so short and jointed at each strand wire.

Pressure of a horse on the top wire brings the "hinge" in the stays into action and prevents them from bending, and when pressure is relieved the fence springs back into place again.

The lateral wires are High-Carbon Hard Steel and coiled to provide for expansion and contraction by heat and cold, and are also crimped at the intersection of the stays and strands to prevent the stays from slipping sideways—therefore no locks are needed.

Buy the Dillon Hinge-Stay Fence. It's "twice as strong." Twice as good an investment. Catalogue free.
