EDITORIAL NOTES.

The recent proclamation of the Mikado to his subjects in Hawaii has caused much anxiety in United States circles. The result of his message has been to create among his subjects unbounded enthusiasm, and bring forth such a display of patriotic feelings as has never before been manifest among them.

In Woodstock butter is selling at from 30 to 35 cents per pound, and eggs at 30 cents per dozen. Under such conditions the average working man in that goodly town will be called upon to make a game struggle to keep his family from the gloomy gates of the poorhouse.

In Canada a paper that hands cut truth without capsules is almost certain to be marooned. Truth is like Hudson Bay rum. Few can swallow it straight without making signs for ice water and trying to club the bartender at the same time.

Canada to-day is in need of great men; men among men, righteous and fearless, who pander not to the partisan spirit, but who will act according to their sincere convictions and not sell their souls and honor for the sake of material gain.

Considerable apprehension is being felt in connection with the Kaiser's visit to England. The socialists of that country are not friendly to the Kaiser, and it is feared that unpleasant scenes may take place.

The total immigration into Canada from April to August, inclusive, was over 174,647, there being a large increase in the number of British immigrants.

The threatened railway strike in Great Britain has happily been averted and terms arranged satisfactory to both parties.

BONNIE BRIAR BUSH.

A genuine treat in dramatic offerings will be the appearance of that delightful story of "Auld Scotland" "The Bonnie Brier Bush" at Theatre Albert, Stratford, on Thursday, November 14. It is an acknowledged fact that no play that has ever been produced in this country has got so close to the hearts of the great reading public as this homely simple story. The scenic enframement is a beautiful representation of Scotch glens and cottages, and were painted from photographs and sketches of the exact locality from which the stories were taken. The company is composed of players of prominence and will include many who have been identified with the cast ever since the first production. Among them are J. Palmer Collins, Chas. E. Blumer, Bino Below, Marion McDonald, W. Leonard Howe, Helen Warren, Robert Ireland, late Pipe Major of the 48th Highlanders of Toronto, Kenneth McKenzie, Annie Daydon and many others of note. The entire original production is carried and the company is fully up to the standard.

## OBITUARY

The death of Mrs. Wm. Mc. Dougall on Wednesday last came as a surprise to the neighbors. Although in failing health for the last year, due to old age, being in her 80th year, she was able to be about and attend her household duties. Her last illness was of short duration. She was taken sick on Saturday morning, and died the following Wednesday night. She was of a kind and cheerful disposition and her persevering industry, combined with touch of humor, earned for her the respect, admiration and affection of all with whom she came in contact. Her remains were followed by a large number of friends to their last resting place in Hamstead burying ground on Saturday last. Deceased was a native of Forfarshire, Scotland, and came to this country 50 years ago with her husband, who predeceased her about 11 years. They settled on lot 21, con. 9, North Easthope, remaining there about four years. They then moved to Kithburg, where deceased lived till her death. She is survived by one brother, David, residing in New Zealand, one sister, Mrs. J. Low, North Keirmuir, Scotland, three sons and four daughters as follows: Charles, near Palmerston; William, who is now seriously ill in Berlin hospital, having undergone a painful operation about ten days ago; Alexander, of Waterloo; Mrs. H. Lee, of Brantford; Maggie, of Gads Hill; Mrs. Ed. Capling, Sask; Mrs. E. Heinbecker, Hamilton.

Mrs. William Ferroll, of Listowel, died very suddenly last Sunday morning while the family were at church. Mrs. Ferroll had not been feeling any too good of late but the family were not alarmed, as she always was cheerful and hopeful, but last Sunday morning died of heart failure in her sixty-fourth year. The funeral took place on Wednesday Nov. 13 at 7 15 a. m. from their residence for the Grand Trunk to New Hamburg, where she will be laid to rest. She will be much missed by her family and friends of Listowel. —Stratford Herald.

## SPLIT INK

It is a still fact that every religion but our own looks ridiculous, and tends to excite our patience.

Remember, partner, when your liver grows cold what a friend you have in the back-saw.

Dyspepsia can be cured by living upon 25 cents a day, and saving the price.

You will sometimes notice that the drachid atop called man, when clothed in dried authority, will attempt to dam the stream of eternal truth that flows from minds mentally kerked beyond the grasp of the pulpit stuff he calls brains.

An Irishman was sitting in the depot smoking the other day, when a woman came in, and sitting down said: "Sir if you were a gentleman, you wouldnt smoke here." "Mum," he said, "if yer was a lady ye'd sit further away." "Pretty soon the woman burst out: "If you were my husband, I'd give you poison." "Well, mum," returned the Irishman, as he pulled his pipe, "if ye was me wife, begablers, I'd take it."

Blessed is the man who has reached the point where tales of ten figures with a dollar mark on the left, no longer thrill him; to whom life is more than getting, and success more than piling up, whose happiness may lightly turn its back on wealth; whose interest in life may centre about unpractical, unsalable things, and whose best life effort is freely given, without money and without price. Only through such citizenship can our America be redeemed from the moral smothering that comes with unlimited "prosperity."

A certain class of newspaper men assert that a farmer is the most independent man on earth, and he has nothing to do but to enjoy life. That when winter comes and the blizzards on the wing he roasts his feet in the oven and reads the local newspapers and the only thing that disturbs him is a call three times a day to a banquet of mince pies and other luxuries. It is a mistake. The industrious farmer begins work before the sun thinks of getting up. With his soul shrouded in gloom he proceeds to build a fire with a sledge hammer. He then takes a lantern and shovels his way to the barn and feeds the cows. It is then time to feed the newly arrived calf which seems to delight in butting a pail of milk over the tiler of the soil until he only needs to be stamped to pass for a package of cleomargarine. He crawls through a barb wire fence and digs the hay out of the snow, feeds the cows, cleans the stable, gathers up the frozen chicks, chases a stray hog worth twenty-five cents for four miles and does not catch it, freezes his fingers, gets kicked by a one-eyed mule, and when the gloaming comes and quietness broods over all the earth he has a single half hour to meditate and wonders how he will pay his taxes.

### Niagara Power.

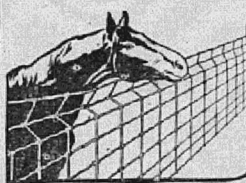

The Niagara power scheme will be the most prominent topic of discussion in the municipal elections in many towns and cities in this part of Ontario, next January. For some time past the government appeared to have dropped the matter and Hon. Mr. Beck, in fact, came in for a lot of ridicule from the masses. It turns out that the Commission has been laboring hard on the ground, work and have now the scheme in shape to present to the municipalities along its route, and the cost per horse power will be at least twenty per cent lower than the former low estimate.

Wellesley village, which use 300 or 400 horse power and has woolen and flomring and lumber mills of no mean proportion may, before the present year closes, be invited to take a local interest in the Niagara power scheme. The power line will pass quite close to Philipsburg

along the route surveyed a couple of months ago. If the village becomes incorporated it will be in a position to contract the power direct with the government; otherwise it may negotiate with New Hamburg if that village carries the power by-law for service line from a point near Philipsburg to Wellesley. This latter plan would be more cumbersome and costly however.

Every property owner and business man in Wellesley has a stake in the village's prosperity, and it does seem that the crucial time has arrived when incorporation should be sought to place this prosperous village in a position to fight manly for its own weal. The Board of Trade was organized to grasp just such questions as this, and will always be regretted if it continues lax at so important a crisis.

J. W. GREEN.

On common fences the continuous wire stays are sure to bend and the locks to lose their grip under continual pressure of your horses or cattle. And once they do, the top wire, soon followed by those below, will sag and destroy the efficiency of your fence. Nothing like that can happen to our Dillon Hinge-Stay Fence. The short, stiff hard steel wire in our hinge-stays cannot bend when the lateral wires are weighted down, owing to their being so short and joined at each strand wire. Pressure of a horse on the top wire brings the "hinges" in the stays into action and prevents them from bending, and when pressure is relieved the fence springs back into place again. The lateral wires are High Carbon Hard Steel and coiled to provide for expansion and contraction by heat and cold, and are also crimped at the intersection of the stays and strands to prevent the stays from sagging sideways—therefore no locks are needed. Buy the Dillon Hinge-Stay Fence. It's "twice as strong." Twice as good an investment. Catalogue free.
