DISTRICT NOTES

The second inaugural meeting of the Town council for 1908 was held at the council chumber on Monday morning. Unusual interest was manifested in the proceedings as one of the largest crowds that has ever assembled at a council meet. ing was in attendance, apparently expecting that there would be some interesting doings, but the business was transacted in almost the same old wav

There was general enriosity on the part of all present as to the manner in which Mayor Huber would conduct the business and hose who expected he turn things upside down" those disappointed. He delivered his address in a cool and deliberate manner, and while the clerk was reading the minutes and communications he took out a new pipe and proceeded to "smoke up." He had to be conched by Clerk Huchnergard and the members of the council re garding the proceedure and was a willing student. While he was referring the communications to the various committees the clark and Reeve Gardiner stood boside turn and advised him, and the council and speciators looked on. members of conneil were patient throughout and the business was completed in fairly good time.

Mr J. K. Miller of Wellesley had an exciling time with his team on Saturday. He had left the horses on the road in front of his son's butcher shop, opposite behnarr's grocery, on King St., when they started on a run for Waterloo. At the City Hotel they took to the sidewalk and lost the sleigh as it strack a post. steign as it strack a post. They ran along the sidewalk to Zick's shoestore and there took the read again, running up Kings, across Erb to Albert St, and were finally brought to a stop at the Market hotel. One of the horses was badly used up, and the harness was pretty well torn, but the damage to the sleigh was not very great. A the sleigh was not very great. A lady with a buby carriage had a narrow escape, just getting into Strasser's clothing store in time to avoid being run over .- Waterloo

Mayor Fischer, Mr. J. B. Hughes, and Mr. E. P. Clement, K. C., left this evening for Ottawa, to interview the Dominion Governhe Treasurer's accounts, as audited be now finally passed, and the clerk is hereby instructed to love 35 ment in reference to securing a public building for Waterloo. town has a stronger claim than any other town or city in Ontario, and we hope they may be rucce ful in their efforts .- News Record.

> Kuntz's Berlin hockey team play ed St. Clements at the latter place m Saturday afternoon last. Clements were defeated by a score

EDITORIAL NOTES.

Portugal is still in a state of un rest, and armed crowds are daily parading the streets of Lisbon.

The local government has refused to interfere in the stand taken by the Toronto city council in regard to license reduction.

Allen Huber did not get as many otes as his three opponents to gether, but he certainly rolled up a decisive majority.

Where are those critics hiding who would have guillotined Rud-yard Kipling for calling Canada "My Lady of the Snows."

The only difficulty in the way of amalgamation of the Lord's Day Alliance and the Templars of Tem-perance would appear to be the in ability of some of the former owing to cherished and deep-rooted habits—to live under the rules of the latter body. Both organiza-tions are of an extreme cast, narrow and prejudiced in their views having no limit to their demands and expectations, and thanking the legislators of the country for favors extended to them by clamoring for

What caused the decline apprice of Ontario wheat? What has kept the price down so low that many of our farmers stopped raising any wheat? Primarily, the shouselyes. With the shouselyes. ing any wheat? Primarily, the farmers themselves. With the development of the West, came the introduction of Manitoba wheat introduction of Manitoba wheat flours into our province. And our farmers fell into the trap. They bought western hard wheat flours, not realizing that every dollar spent for such flour meant a dollar out of their own pockets and noth ing in veture. As the demand, or ing in return. As the demand for Manitoba wheat increused, the de-mand for Ontario wheat decreased.

However, a few years ago, some four millers began to experiment with wheat, and finally found that by blending Ontario wheat with a little Manitoba wheat, the resulting flour was far better for both bread and pastry, than flour made from any single kind of wheat. Throughout the Maritine Prov-inces and in Toronto and other

large cities, these Ontario blended flours have driven western wheat flours out of the market in many instances. Our millers have done their part, by proving that Ontario wheat—when combined with a tittle Manitoba wheat—makes the finest flour in the world. Now, let our farmers back up the millers by using only blended flours in their homes. The money which they spend for flour, will then be return-ed to them for their Ontario wheat. The demand for Outario wheat will thus increase prices, and the farm-ers will be the ones most benefitted

A CALL FOR NURSES.

The residents of this part of the state will be interested in the call for nurses issued by one of the largest and most famous sch for nurses in the world—the Phila-delphia school for nurses, 2219 Chestnut Street Philadelphia, Pa.

Good, honest, ambitious Ameri tan girls, whether rich or poor, cannot do better than to take up the finest profession now open to women-trained nurses. The trained nurse occupies an unique sition among busine position among business women. Her salary is approached by that of very few of her sister-workers in other lines of effort, she is in-dependent and receives great con-sideration and respect. The profession of nursing is so

The procession or nursing is a far from being being overcrowded, that it is an important question among physicians how the deficiency may be made up, since no constitution of inflicient canacter to ency may be made up, since no school is of sufficient capacity to school is of sumicient capacity to meet the need. The nearest approach to a solution has been found by the Philadelphii school for nurses. A generous endow-ment enables the school to enlarge its classes very greatly and to offer a large number of free scholar ships to suitable applicants. It is now desired to reach the right class of young women in small towns and country districts, that its classes for the coming year may be recruited from them

Several hundred students now receiving instruction, a large class was graduated in June and another in December. These young women are immediately employed, the demand for their services far the demand for their services in-exceeding the supply. There are graduates in nearly every state of the Union, and in all civilized countries there are a number of representatives. In every mission field, as well as in their home com-munities, they are winning a warm place in the hearts of the people by earnest and unselfish service to their fellow beings. Important positions are held by them in large institutions with the greatest suc-cess. One graduate expressed the feeling of many when she said: "I shall never cease to be grateful to the School for the greatest bless-ings that have come into my life."

Classes are now forming in eral of the courses of the school, and applications should be made promptly in order to secure early admittance. Full information sent upon request.

"A Kingly Gift

EARL GREY'S APPEAL On behalf of Needy Consumptives Strong words of Canada's Governor-General

At the official opening of the King Edward Sanatorium for Consumptives, near Toronto, His Excellency delivered an address that must have an important bearing on the future of the sanatorium movement in Canada. We quote:-

"The proceedings this afternoon commenced with a beautiful and reverent prayer from your old friend, Dr. Potta. He prayed that the light of the Lord might shine upon us. That prayer is abundantly answered. He also prayed that the White Plague might be removed. Well, whether that prayer will be answered or not depends upon yourselves."

"is it not a standing shame and repreach to the govern-ments and individuals that there is not more care taken by the people of Canada to protect themselves against the curse of consumption?"

On his way out to the King Edward Sanatorium,—so named by permission of His Majesty King Edward VII—the Governor-General's car was stopped in its progress outside the Canada Cycle & Motor Co. by a large crowd of its employees. A contribution of one hundred dollars was handed the Governor-General, a donation to the General, a donation to the Toronto Free Hospital for Con-

"Twas a kingly gift" said His Excellency in making acknow ledgment. "I will tell the King."

Addressing the large audience that attended these opening exercises, referring to this event, Earl Grey said :

"Ladies and gentlemen, when the workingmen of Canada are setting an example of this character, I hope you will not be slow to follow, and I trust that the example of the Canada Cycle & Motor Co. may be followed, its I am sure it will, in every factory and manufacturing industry throughout the land."

We carry these words to the people of Canada in our appeal to-day on behalf of the

Muskoka Free Hospital for Consumptives

An institution that has never refused a single applicant admission, because of his or her inability to pay.

Seventy-five patients can be cared for to-day. Accommodation could be provided for three hundred if the required money were forthcoming.

To make this possible, our appeal is for \$50,000, to be used in extension of buildings and maintenance of patients.

Where will your money do more good?

Every community, and every individual is interested.

His Excellency Earl Grey has shown his interest and sympathy in the work at Muskoka for needy consumptives, by accepting the position of Honorary President of the National Sanitarium Association.

Contributions may be sent to Sir Wm. R. Meredith, Kt., Chief Justice, Garcode Hall, Toronto; J. Garco, Esq., 84 Spadina Avc., or J. S. Robertson, Sery-Treas., National Sanitarium Association, King Street West, Toronto, Canada.
