EDITORIAL NOTES.

No person has the right to criticize Rockefeller while unwilling to strike at the system that permits his manipulations. He is as much a creature of conditions as any victim he has crushed in the mighty machine of commercial competition. He can no more help being rich than you or I, my impotent friend, can help being poor. He is abnormally endowed with the faculty for money getting, to which activity is essential, and he can no more avoid exercising it than he can cease breathing without inconvenience. In such is the attribute of acquisitiveness is as natural as the law of gravitation to our swinging star. Divest him of the last remnant of his vast riches, and wealth would grow upon him again as surely as vegetation springs from a fecund soil. He would rise from obscurity to affluence as infallibly as water seeks its level. He is a product of, and subject to, natural law.

Mayor Huber is already in hot water with the Berlin board of trade. The undaunted mayor has issued a flat against granting special concessions to industries. In the form of reduced assessments, and this has stirred up the lethargic board of trade to a state of revolt. Many members of this board are connected with industries benefiting from the past system of assessment, and are alarmed at the attitude taken by the mayor.

There are two ways you may assist your neighbor.—Speak well of him or be mum as to his shortcomings.

EXPERIMENTS WITH FARM CROPS.

The members of the Ontario Agricultural and Experimental Union are pleased to state that for 1908 they are prepared to distribute into every township of Ontario material for experiments with fodder crops, roots, grains, grasses, clovers, and fertilizers. About 2,000 varieties of farm crops have been tested in the Experimental Department of the Ontario Agricultural College, Guelph, for at least five years in succession. These consist of varieties from nearly all parts of the world, some of which have done exceedingly well in the carefully conducted experiments at the College and are now being distributed free of charge for co-operative experiments in agriculture for 1908.—

The size of each plot in each of the first twenty-seven experiments and in Nos. 29 and 30 is to be two rods long by one rod wide; and in No. 28, one rod square.

Each person in Ontario who wishes to join in the work may choose any one of the experiments for 1908, and apply for the same. The material will be furnished in the order in which the applications are received until the supply is exhausted. It might be well for each applicant to make a second choice, for fear the first could not be granted. All material will be furnished entirely free of charge to each applicant, and the province will, of course, become the property of the person who conducts the experiment.

CHAMBERLAIN'S
GOLDEN CHILDREN'S
DIARRHOEA
REMEDY

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.
It can always be depended upon, even in the most severe attacks of crampy colic and cholera morbus.
It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.
When reduced with water and sweetened it is pleasant to take.
Every mother and family should keep this remedy in its home. Buy it now.
PRICE, 25c. LARGEST SIZE, 50c.

Come and see our new stock of spring goods as we have added three thousand dollars worth to our stock. J. Spahr.

Mrs. Froehlich Krehler, Mrs. Schupps and Mr. and Mrs. J. L. Roth were visiting on Monday last at Mrs. Lichty's, St. Agatha.

Montreal Wander's defeated the Toronto professionals by a score of 6 to 4 in a sudden death game for the Stanley cup.

Mr. J. A. Drusar has given up his blacksmith business here and will commence farming near St. Clements.

Some Linwood parties have a grievance that they intend to bring to the Berlin Police Court to be ventilated. W. J. Beggs has charged R. Hara with assault, and Hara has laid a similar charge against D. Beggs.—News Record.

An meeting was held in the Queen's Hotel on Tuesday evening last for the purpose of making arrangements for the spring horse show. A good number were present. J. Greenwood was chosen president, A. K. Friesborn, vice-president, and G. Bollinger, secretary. The date for the spring show was fixed for April 14. Bills will be out shortly giving prizes to be awarded and other information.

NOTICE.

All members of the Brass band are respectfully requested to be in attendance at the Band-hall next Friday evening March 20th, at 8 o'clock p.m. sharp.

Chas. F. Ottmann,
Leader.

In the course of the promotion examinations recently held in our public school, many amusing incidents arose. In one case a class of boys were asked to give the feminine of "Bridegroom." It so happened that a misprint occurred in this word on the printed question sheet, and it was made to read "Bridgroom." This evidently puzzled some of the boys, judging by several answers given. One youth gave "Bridgo" as his answer. Another boy, evidently with a streak of Irish in his blood, went one better and in a bold hand wrote his answer "Bridget."

Five pounds of butter were found to be short in weight at the market this morning and were sent to the Ordnance. The attendance was large and a large amount of produce was sold. Butter sold at 28 cents and eggs were offered at 25 cents per dozen.—B Telegraph.

THAT DOLLAR BILL.

We have been requested by one of our local merchants to reproduce the following lines, which appeared in the March issue of the Canadian Grocer.

A farmer out in Kansas,
About five years ago,
Went into town one day to spend
Some of his hard earned "dough."
And in a merry jest, "and just
To show his printing skill,
He printed his initials on
A brand new dollar bill.

He spent that dollar that same day
Down at the village store.
He thought 'twas gone for ever
then.

And he'd see it no more.
But long before that year rolled
by

One day he went to fill
A neighbor's order, and received
That same one dollar bill.

Once more he spent that dollar bill
In his own neighborhood,
Where it would do himself and
friends

The most amount of good.
Four times in two years it came
back.

As some bad pennies will,
And each time he'd go out and
spend
This marked one dollar bill.

And he been wise that dollar
might
Be in his town to-day.
But just about two years ago
He sent it far away.

The people who received it then
I know have got it still,
For 'twas to a mail order house
He sent his dollar bill.

No more will that marked dollar
come
Into the farmer's hands.
And nevermore will it help pay
The taxes on his land.

He put it where it never
can
Its life in work fulfill.
He brought about the living death
Of that one dollar bill.

Chamberlain's COLIC, CHOLERA AND Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success. It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is a equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year. When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his house. Buy it now. It may save life.

Price, 35 CENTS.

A LADY MISSIONARY.

We asked a returned missionary from Africa one day if she would recite to us in a terse manner, in paragraphs of three lines each, her half-breadth escapes. She looked sorry and said she never had any. For eighteen years she had held down a first-class missionary pit in Africa with red ants in the sugar and not a hair-breadth escape. It seems remarkable and we mention it as a piece of news. We then asked her if she had ever crept across the country on the back of a camel. She never had. We were surprised and she was disturbed, but she could not dig up a ride on a camel's back. Was her lips ever parched and her tongue swollen for the want of water? No. She had always had plenty to drink during her long term of missionary work, three hundred miles from a painted house. How did she feel when Chief Alligator Tooth sent her an invitation to a boiled dinner. The invitation never came. Did she light her missionary hat with the eye of a live tiger? No! tigers were rarely seen near the mission. The day the hostile tribe burned down the church did she attempt to save the hymn books or her best dress? There was no fire. Nothing had she done, that we supposed all missionaries had at their finger's ends in reciting their experiences, but one thing she had done, and spoke of it with a happy smile as a sort of a redeemer: She had once ridden a mule.

ADVICE TO KICKERS.

If you are a kicker and see the shadow of failure in everything that is proposed to help the town, for goodness sake go into some secluded canyon and kick your own shadow on the clay bank, and thus give men who are working to build up a town a chance. One long-faced, hollow-eyed, whining kicker can do more to keep away business and capital from a town than all drought, short crops, Chintz bugs, cyclones and blizzards combined.—Ex.
