DISTRICT NOTES.

Shakespeare, March 23. - Citizons of the little village of Bhakespeare were greatly disturbed Saturday afternoon, when it was learned that Miss Margaret Smith, one of the best known residents of South Easthope, had been killed by the afternoon train from Toronto

The accident occurred of the ressing a mile and a quarter east of the village, and shout half a mile from Miss Smith's home.

The road along here is banked high with snow, but when nearing the track fliere is very little snow.

Mr. A. Riddell, an eye-witness of the accident, says that he saw Miss Smith lashing the horse floreely just before she came to the track.
It is supposed that when Miss Smith tried to drive over the mud. the cutter became stuck in the mire. She whipped her horse, and the au-imal made a heroic struggle to get across the track before the approaching train drew near.

prowelling train drew near.
Unfortunately the effort put
forth was all in vair. The fact
approaching becommittee reshed forward and whirled by, and the rearedd of the cutter was attrack with
sertific force by the engine. The
cutter was thrown clear off the
track and smoshed into spinners,
while the horse was thrown over
beavy on bis side.
Miss Smith was precipitated out
head first and was thrown several
feet away, alighting again the
fence. In the fall her neck was

The danger of tuberole infected milk is a question occupying the attention of many health authori

attention of many bealth authorities throughout the country Dealing with this all-important topic, a recent issue of "Saturday Night" has the following.—

The next great scare that will sweep over the country will probably be in connection with milk—is it tabercle infected and is it the chief agent in the spread of toberculosis. We live in an age of scares, and wide-pread sensations. To bring about a reform it is necessary to produce a punior. There ary to produce a panie. There are so many noises that people will not torn to look and listen, unless their attention is attracted by a few piercing shitok.— If it is true that milk spreads tuberculosis, if that milk spreads tuberculess, it should be enough to place the proof of the fact before the provincial and municipal health authorities. In a rightly organized state of society the discovery of the evit would be enough to enaure the suppression of it by the authorities, no matter how drastic the mount is be enuloyed. But we have not no matter how drastic the mount is be employed. But we have not reached that perfected state of society, and so we shall have a mik scare. The newspapers and magazines will take it up, the lecthre platform will ring with it, un-til half the people will cease drink-ing milk, and business in this line will be so injured that no regula-tions will seem too stringent if they will allay but popular fear. Addressing the newspaperman

EARL GREY'S APPEAL On behalf of Needy Consumptives Strong words of Canada's Governor-General

At the official opening of the King Edward Sanatorium for Consumptives, near Toronto, His Excellency delivered an address that must have an important bearing on the future of the sanatorium movement in Canada. We quote:-

"The proceedings this afternoon constrained with a beautiful and reverent prayer from your old friend, Dr. Petts. He prayed that the light of the Lord might shine upon us. That prayer is abundantly answered. He also prayed that the White Plague might be removed. Well, whether that frayer will be answered or not depends upon yourselves."

"is it not a standing shame and represent to the govern-ments and individuals that there is not more care taken by the people of Canada to protect themselves against the curse of consumption?"

On his way out to the King Edward Sanatorium,—so named by permission of His Majesty King Edward VII—the Governor-General's car was stopped in its progress outside the Canada Cycle & Motor Co. by a large crowd of its employees. A contribution of one hundred dollars was handed the Governor-General, a donation to the Toronto Pree Hospital for Consumptives. sumptives.

"Twas a kingly gift" said His Excellency inmaking acknow-ledgment. "I will tell the King."

Addressing the large audience that attended these opening exercises, referring to this event, Earl Grey said :

d:

"Ladies and gentlemen, when the workingmen of Canada are setting an example of this character, I hope you will not be alow to follow, and I trust that the example of the Canada Oycle & Motor Co. may be followed, as I am sure it will, in every factory and manufacturing industry throughout the land."

We carry these words to the people of Canada in our appeal to-day on behalf of the

Muskoka Free Hospital for Consumptives

An institution that has never refused a single applicant admission, because of his or

her inability to pay.

Seventy-five patients can be cared for to-day. Accommodation could be provided for three

hundred if the required money were furtheoning.

To make this possible, our appeal is for \$50,000, to be used in extension of buildings and maintenance of patients.

Where will your money do more good? Every community and every individual is interected.

His Excellency Earl Grey has shown his interest and sympathy in the work at Huskoka for needy consumptives, by accepting the position of linearary President of the Rational Scalitarium Association.

Contributions may be sent to Sir Wm. R. Moradith, Kr., Chief Justice, Occode Hall, Toronto; W. J. Gago, Etq., 83 Spadina Avo., or J. S. Robertson, Sady-Treas. National Sanitarium Association, 847 King Street West, Toronto, Canada.
