FIFTH LINE.

Mr. Henry Kelly is erecting a large straw shed and also making costly improvements to his barn. The raising of the straw shed will occur on Friday afternoon.

Some of the farmers along the Fifth line have already commenced haying. The crop is a good one although not as heavy as in some other parts of the country.

School closed for the summer holidays last week.

The indications are that there will not be a very long rest this year between haying and the fall wheat harvest.

WELLESLEY COUNCIL.

The July meeting of the Wellesley township council was held on Monday, July 6th in the township hall, Crosshill.

All the members were present, Reeve Robertson, in the chair.

Minutes of last meeting read and approved.

Mr. Brenner asked the council to leave him in the Separate School northwest of Linwood, where he formerly was, instead of placing his property in the new Separate School section of Linwood. Action deferred.

Messrs. McConkey and Ball, representing the new Steele Culvert Mfg. Co., Stratford, laid the merits of their culverts before the council and created a favorable impression. It is likely an experimental order will shortly be given.

A delegation from Linwood Public School section asked for a grant to purchase sewer pipes to drain about 24 rods along the southern limits and easterly of the village. Council promised to meet there in the near future and investigate the matter.

The clerk was instructed to notify engineer that he has to survey and make award according to by-law for ditch on the public highway at Huber's corner.

Another Linwood delegation pressed the council to hustle the authorities in settling the question of having the water tank at the Linwood station removed to a spot where it will not form an obstruction to the public highway as at present.

Moved by Messrs Dammeler and Hastings that the council take the necessary steps to lay before the Board of Railway Commission the grounds existing on the G. & G. branch of the C. P. R., at the village of Linwood; said grievance consisting of the location of the station building, the water tank and Y; and that our engineer be instructed to make a survey of the grounds and location, and to have the necessary number of blue-prints printed.—Carried.

A motion was passed authorizing the treasurer to borrow \$300 from the bank at Linwood at the credit of the township.

Moved by A. Dammeler, seconded by W. Hastings, that this council do hereby ratify the action taken by the reeve in the matter of Wellesley vs. Wellesley Police Village in the High Court of Justice; and further instruct him to have the township solicitors, McBride & Flintoff, attend to the matter if further proceedings are taken in the matter by either the Police Village or township.—Carried.

A by-law to close a strip of narrow road, and open another, near Hawkesville, if conditions are complied with, received its preliminary readings.

Messrs Dammeler and Reidel moved to instruct the engineer to inform on a ditch on the public highway at Thos. Huber's.—Carried.

Councillor Hastings wanted to know why the minutes of the council proceedings are not furnished to the Wellesley Maple Leaf regularly, which is the only newspaper printed in the township.

The editor, who was present explained that there are about 400 Maple Leaf readers among the taxpayers of Wellesley township. The Leaf had been publishing the minutes free for years until last January when the clerk ceased sending them. If necessary he would pay the council \$1 for a correct copy of the minutes of each regular council meeting, if furnished him in time for that week's issue.

ed him in time for that week's issue.

No action was taken.

Messrs Reidel and Lintick introduced a motion to the Police Village of Wellesley, rescinding the council's first by-law and now granting 60 per cent township rates and "all the statute labor," but no dog taxes or license money except fines, which was discussed at some length and then withdrawn.

The reeve objected to passing any further resolution until further word was received from the judge.

Mr. Reidel would like to see the motion put through as he had instructions to place it in that form.

The clerk stated that he had interviewed Messrs Chas. and Peter Ottmann and Alex. McDonald, and he thought the village of Wellesley would now be satisfied to take what the council originally offered.

No one disputed him and the matter was dropped.

The following accounts were ordered paid.

Sawyer & Massey, rep for road machine	\$ 8 50

EDITORIAL NOTES.

In the July number of "The Busy Man's Magazine" appears a long and well written article by H. H. Miller, M. P., for South Grey, describing "The German in Canada," which pays a high and well deserved compliment to the business and moral energy of that nationality of Canadians. The article is illustrated with many photo engravings, amongst which are pictures of at least three Wellesley villagers who have come to the front, being J. G. Reiner, woolen manufacturer; D. Weishiller, now of London; and Judge Klein, now of Walkerton.

The list of bathing accidents this year is getting to be a very long one and is still rapidly growing. Learning to swim is a very useful accomplishment, which should be possessed by every boy and girl; but being able to swim is of but very little use to people who recklessly disobey natural laws by risking their lives in woody pools and treacherous currents, plunging their warm bodies in cold water, rocking boats and the dozen of other unwise acts recorded nearly every day. The old adage: "Fire is a good servant but a bad master," should be applied with double force to water.

One of the cleanest printed and newest country weeklies which comes to our exchange table is the *Mildmay Gazette*, owned and edited by Mr. John Johnston, a native of that village. As the editor of the *Maple Leaf* had the honor of founding the *Gazette* some years ago we are naturally proud of its prosperity, more especially as it is conducted by a lad who "learned his trade" under the writer. Success to you, Jack.

The *Stratford Daily Herald*, in an heroic effort to wake up the *Classic City Council*, prints the following:

"The press tell every now and again of the progress of the Canadian Pacific Railway with their Ontario branches. The new branch from St. Marys to Embury has just been opened, as has also the branch from Listowel. We need of plans next year to run a new branch from Kemptville to Sarnia. But what we do not read of is when the branch from Linwood or Oneonta to Stratford is to be started. One would suppose this to be a question about which an alert city council would bestir itself. There is little doubt that the C. P. R. is leaving off the Stratford connection until near the last, because of the lack of demonstration on the part of the men who are supposed to represent Stratford, that the C. P. R. is wanted here. The fact is that the citizens of Stratford want connection, if practicable, with every one of the big transcontinental lines, and it is affection and supineness to pretend that our interests are being served by a lackadaisical policy. A few years ago there was a scheme to bring the C. P. R. in for a bonus of \$25,000; but somebody got cold feet and the scheme was abandoned, and the C. P. R. wrote the city that they would come when they were ready and would ask no bonus, only for free right of way over city property. We believe that the scheme would have carried had it been submitted to the people at the time, and of a truth the people of Stratford have been serious losers by not availing themselves of the opportunity then spread before them. It would have been worth \$25,000 to us as possibly two or three times over in new industries to have had the C. P. R. already running into the city. But the C. P. R. instead of being in Stratford is in St. Marys and Listowel, and may be in various other places before us, and our City Council sit with folded hands and turn not a hair on the subject. 'They're not to reason why; there's but to sit and sigh!'"

A couple of years ago, when Wellesley was trying so hard to get trolley connection, with a view of having it extended on to Stratford, there was no glad hand held out by the *Classic City*. In fact that trol-

ley would have been a better proposition, both for the C. P. R. and for Stratford than the Linwood branch visionary scheme, for it would not only have handled freight but would have solved Stratford's much-needed street car problem. We believe it is not yet too late to secure a Waterloo-Stratford extension of the trolley line. Berlin, Waterloo, Wilmot, Wellesley and even North Easthope have expressed their desire for it by voting liberal bonuses, and if the *Herald* can manage to put ginger enough into the Stratford council and Board of Trade these combined municipalities might be able to induce the C. P. R. to build this easily constructed line which would be a profit earner from the date of its opening.

If the good roads money is received by Waterloo county this year, as is confidently hoped, Wellesley village's share, according to assessment, will be slightly over \$100. This money will, of course, be spent on the township roads, where needed. Under incorporation this money would be applicable to permanent work within the borders of the village every year.

The *Galt Daily Reporter* copied an editorial from the *Maple Leaf* a few weeks ago concerning Wellesley's electric railway possibilities under the Niagara power scheme, then adds:

Wellesley's efforts in the past were creditable to its enterprise, but circumstances over which it had no control blocked the construction of an electric railway—the extension of the Galt, Preston and Berlin line—from Waterloo north. Cheap power may produce the results hoped for. But it all depends how Berlin and Waterloo take hold of the project. They should be fighting for northern trade and ready to spend a goodly sum in penetrating such local trade centres as Wellesley with an electric line. The C. P. R. Company, which now owns the charter, is in a receptive mood. Probably it is waiting for the two towns to make the first move. The revival of the project will not occur as the result of a little wind. Cold cash will be the main factor in the resurrection thereof.

THE AMENDED WEED ACT.

It seems to be overlooked by overseers of roads, or pathmasters of the country parts, that the law relating to the destruction of obnoxious weeds was amended at last session of the Legislature, restoring to them control over the matter.

The law to compel owners or occupants to clear the roadways was not observed. Like the snow by-laws in many of our cities, it fell into "innocuous disuse." The old saying, "what is everybody's business is nobody's" was here strangely exemplified.

Though farmers are the greatest sufferers from the weed pest, few of them have either time or inclination to go into the highways to cut down the growths, which cast their ripening seed over the land. They have enough work and more than enough in attending to their own fields. As a result the highways around Galt and indeed all over the western country are just now overgrown with the pests which it was formerly the duty of the road overseers to keep down.

It was a wise move of the Legislature to alter this state of things, by restoring the duty to persons who will be responsible and competent.

The amendment to the act passed last session requires the overseer or pathmaster to cut down or destroy, to prevent the ripening of their seed, all noxious weed growing in the highways or road allowances, of their respective divisions, such work to be performed as part of the ordinary statute labor, or to be paid for at a reasonable rate by the treasurer of the municipality, as the council may direct.—*Galt Reformer*.

Little Newman's mother had faithfully tried to answer his questions in regard to death and the future life and he had been told that when he died that just his soul would go to heaven.

One day he came running in from his play, and in excitement cried, "Mama, mama, if just my soul goes to heaven, what am I going to button my pants on to?"—The *August Delinquent*.

BALLOON OVERHEAD.

Early on Sunday morning Mr. John Daub noticed a balloon passing directly over Wellesley village. The balloon was at a considerable height and was moving swiftly eastward. This would, no doubt, be one of the half-dozen or so balloons which were sent up at Chicago on Saturday evening on a long distance race. Monday's daily papers report that most of the balloons landed in Ontario, one at Milton, one at Atwood, and one at Owen Sound. It is likely the one that Mr. Daub saw was the winner of the contest, landing somewhere in Quebec on Sunday afternoon or evening.

BORN.

In Wellesley, on July 4th, to Mr. and Mrs. Dan Lobold, a daughter.

The doctor of an asylum was showing an interested visitor round the place. In the first cell was a young man gazing blankly about him. "This man was in love with a woman who married another man and she drove him to this," said the doctor. The next cell was padded and in it sat a man stark, staring mad and padlocked down. "Who is this poor fellow?" inquired the visitor. "This," said the doctor, "is the other man."
