NORTH EASTHOPE COUNCIL.

The council met at the Town Hall on the 30th day of July at 2 p.m.

All the members present. David Wilhelm wanted on leave on sideline 30 approach to 10 on road. moved back some distance as he said it was dangerous. He wanted \$5 to do the work, but agreed to do it for \$4. Councillor Hoffmeyer to attend to it.

William Habel wanted ditch cleaned out on side line 15 on 7. As this ditch had been cleaned out several times in the last few years and had not given satisfaction the council advised Air Habel to take proceedings under the ditches and water course Act.

Wm McFarlane asked for grant on con 125. He said the road was rained by the heavy teaming of logs to Stratford and as the division in which he was in had only had one grant to road in 35 years, he thought he was not asking too much in asking for \$100. The council agreed to let a contract for the work after harvest. They did not decide as to the amount to be spent.

Win. J. Cook wanted a culvert put in on blind line, con 11, 12. He was given permission to put them in. Mr. Hoffmeyer to superintend the work.

Jonah Jacobs again appeared at the Board to ditch on N. E. road. On certificate of clerk of Ellice that the work had been done and that Ellice had paid their proportion the amount was paid, viz \$25.

The clerk read a letter from Conrad Smith asking that something be done with ditch along 22, con 11. The Reeve and J. C. Cook were appointed a committee to attend to it on Friday, July 24 at 2 p.m.

A letter from John O'Donnell asking that the council take the necessary steps to have the western drain cleaned out, was also read, and the following motion passed:—Moved by Messrs A. Heidel and John C. Cook that the clerk instruct the township engineer to make an examination of the western drain with a view to having it cleaned out on the regulation of John O'Donnell; also to report on the advisability of making a new outlet for the water from where the drain strikes the North gravel road, on the regulation of Messrs E. Finnegan, J. Brownan, G. Cant and D. A. Deunway.

The Reeve reported the following contracts let: Township portion of Canada to award to Henry Knoisel, 45 cents per rod; N. E. and Ellice portion to J. Schwartz, 35c per rod; to Cur. Hlaward and filling up old culvert on N. E. road and Ellice portion to Selig Bros. for \$31.

A few accounts were paid.

Council adjourned.

J. D. Finner, clerk.

RAINSTORM AT LISTOWEL.

The Listowel Standard of July 23 says that not since the big flood in August twenty five years ago has there been such a down-pour of rain as fell on Friday last. A heavy rain set in on Thursday night and kept up for over twelve hours, during which time nearly five inches of rain fell, almost as much as the average for a whole year. The result was that street drains and sewers were entirely inadequate to take care of the water, and consequently gardens and cellars were flooded, and some bad washouts occurred. The stone wall on Inker-man-st. at the woolen mill was washed away and several sections of granolithic walk fell into the river. Much other damage was done in town to streets, cellars and market gardens. Fortunately the rain ceased by six o'clock Friday evening and by the next morning most of the water had got away. The neighboring townships suffered to a considerable extent by the storm. Standing grain was flattened down and much hay was badly damaged as to be of very little use. In some fields the water stood nearly to the top of the hay cocks. In Morrongton and Ellice the effects of the storm were worse than the townships north of them.

EDITORIAL NOTES.

The Olympic games now being held in England are producing considerable dissatisfaction from several different standpoints. First, the business managers of the games overcharged for admission until the people refused to attend; then the United States representatives seemed to be keeping up a continual grudge which is not yet ended and which has marred the efforts to conduct the sports along lines of British fair play. The fouling of an English runner in the 400 meter race may have been a "cute Yankee trick," but it produced only the prompt disqualification of the runner and the disgracing of the great country which he represented. So far there has been no material disputing except by the contestants from the States and as a general thing they have been promptly and properly turned down. Canada is doing the best it can at this great world's contest, and while not, as yet, getting a very high place in the games, is winning the admiration of all by its sturdy class of athletes and gentlemanly sporting instincts.

The Marathon race gives convincing evidence that in a world's contest the weather is the principal factor in selecting the winners. The day happened to be a sweltering hot one and as a consequence the runners from Southern climes were all to the fore, with the Canadians, Norwegians and other cold country athletes away back. Had the day been cold and wet there seems no doubt that the men from the chilly north would have been the victors.

The Quebec centenary is over. It was, in all probability, the grandest demonstration ever held on the continent and among the grandest in the world's history. It was practically a joint anniversary celebration by three nations—Great Britain, France and the United States—commemorating the heroism and fortitude of the pioneers who moulded the Christian civilization of the North American continent.

The time for entering protests over the recent Provincial elections has now expired and only one protest is on file—between two conservatives at that. If political morals keep improving at this rate Sir James Pliny Whitney will be getting too proud altogether. Not so many years ago Ontario's election methods were so bad that it was classed among "the nations that forgot God," but at the present rate of improvement Ontario will soon be called "the nation that forgot graft."

Now is the time of year when the fences along the highway should be remodeled to prevent winter snow blockades. How often must the Maple Leaf draw municipal attention to this? There is one little stretch just south of the village, leading to the iron bridge, which costs more in repairs to broken rigs and snow shovelling every winter than the price of a snow fence to prevent the blockade. All the output of Wellesley's manufacture and all the traffic to and from the railway besides its full share of farm travel passes over this road around the high bluff, yet the village and the council let

the matter go year by year, and stand the loss every winter with a careless abandon worthy only of a tribe of Digger Indians. There are other pieces of roadway which need attention, but this particular spot is so prominent, and so much used, and so near to the public neglect of it is not understandable.

THE AUGUST "ROD AND GUN."

In the distinctive fashion which has gained for "Rod and Gun and Motor Sports in Canada," published by W. J. Taylor, Woodstock, Ont., the character of the best interpreter of the feelings of sportsmen throughout the Dominion, the opening article of the August number deals with yachting. At a time when everyone's thoughts are upon cool waters, this fine account, finely illustrated, of the Royal Cape Breton Yacht Squadron is most appropriate and will be read with sympathetic interest by many readers. The story of the first Rocky Mountain Goat bred in captivity is one appealing even to a wider circle than sportsmen, and nature lovers of all kinds can be recommended to this article. "Cycling through British Columbia" opens up a new field and the account of a young employee reaching a remote Hudson Bay Post on his wheel furnishes an interesting though not excitable account of an unusual trip. In the glow of the Camp Fire recalls to mind pleasant evenings passed far away from civilization, its cares and troubles, and makes one wish for a repetition of the experience. Big Game conditions in New Brunswick, discussed by that veteran guide, Adam Moore, fishing in the Kooctary, Lake and River and an account of Protective Work in British Columbia show how thoroughly the whole Dominion is covered and sportsmen made cognizant, through the Magazine, of conditions prevailing in the different Provinces. There are other articles and stories in plenty and an open season table should prove particularly useful to both resident and visiting sportsmen. Whatever opinions may be held about dogs in deer hunting the paper entitled A few words on Behalf of Our Vanishing Deer by Mr. James Dickson, O. L. S. should be read by all. The views of such an experienced veteran, however one may differ from them, are worthy of careful consideration. The whole number is amongst the best of many good issues.

Will Wellesley "arrive at the dignity" of a civic holiday celebration this year?

Miss Annie Jantzi, of this village, is ill at present with a severe attack of appendicitis.

The new tennis court on the Fair ground is now in first class shape for playing.

Mr. Reuben Cleghorn, of Galt, is spending this week with his parents in Wellesley.

The Froeborn school which was unroofed and otherwise damaged by the big storm, a few weeks ago, is to be rebuilt at once. The new structure is to be larger somewhat than the old one, and will have a basement and be built according to the most modern school ideas. It is proposed to have the structure completed as rapidly as possible.

Mr. P. J. Hoffman, leader of the 28th batt. band, Stratford, was in the village from Saturday to Monday visiting relatives and friends. "Pete" has made rapid strides as a cornetist and musician since he left Wellesley five or six years ago.

The Wellesley bowling club is strong in with the proposition of lighting the lawn for evening playing. Nothing very satisfactory has been obtained so far, but it is expected that the roller mill will extend their electric light system to the green when their new chopper is installed in a week or so.

FOOT-BALL.—At Tavistock, tomorrow (Friday) evening, beginning at 8.45 sharp, the Ontario Junior championship will be fought for by the Tavistock Juniors and the Enrkas, of Toronto.

THE BICYCLE BY-LAW.

As will be noticed by advertisement in this issue the trustees have passed a by-law prohibiting bicycle riding and express-wagon coasting on the sidewalks. The move was considered necessary because of the recklessness of young men and children who find the new cement walks a fine playground for their careless sport. The by-law incidentally presses upon a few who use wheels as a business, but these persons gladly accept the situation for the general good, although as time passes and the new law falls into disuse, they will likely be among the first ones "pinched." We notice, however, that loaded wheelbarrows and empty packing boxes can still stand around anywhere on the walks perfectly immune, and the street-corner loafer who spits tobacco juice around promiscuously and insults ladies leaving after dark, has not been reached, as yet. Isn't the policeman-and-lockup by law about due now?

NOTICE

Have you missed it so far? Can you afford to miss it altogether? We say you can't afford to stay away. If you value money, prepare accordingly. Drop everything and make arrangements to be here some day this week, as Saturday, Aug. 1st is the last day of our 7 Day Monster Shoe and Clothing Sale. Be sure and come and get your share. It will be the buyers who will make money—not the one who stays away from it. Nothing reserved—everything in our store goes into this sale. Cost counts for little. We are clearing out everything to get the cash. Now is the time; this is the place to get foot-wear and clothing for little money. A. WENSELONI & Co., 41 King St. E., next to Dominion Bank, Berlin, Ontario.

LIVELY BASEBALL.

WELLESLEY VS. ST. CLEMENTS.

The return game between the above teams was played on the Fair grounds here last Thursday evening before a rather small crowd, the notice being too short to permit many to come in from the country. The game was a really good one, full of snappy plays, with occasional ragged streaks where lack of practice got in its work. Wellesley had enough of these streaks to lose the game. Honors were easy between the two pitchers, although towards the end of the game Schummer steadied down and the locals were unable to score. St. Clements did the best batting and won the game on its merits.

In the first innings each side scored 1 run.

Second.—St. Clements went out in 1-2-3 order. Wellesley adding 2 before they were retired.

Third.—St. Clements got in two runs, and Wellesley notched up four, the result of wild pitching, swift base running and a long drive from Will Dingwall's bat. At this stage the game looked to be an easy win for the home team as the score was 7 to 3 in their favor.

Fourth.—Alex. Stampf got 1st on pretty hit, his brother John following with a hit which Klein fumbled. Then Schummer brought the two in with a fine two-bagger. Weber got first on a right field fly which was too easy for Froehlich, then the team went in the air for a few minutes until both runners reached the plate, 4 runs. For Wellesley Klein walked, Froehlich beat a base, but was caught at second, and Klein was out at third. Gascio struck out. No runs.

Fifth.—St. Clements closed up 2 runs, mostly by local errors, and Wellesley again goose-egged. Stable fanned, Reiner got his base on a short fly to center, but Harvey Schaub was out at first and a sharp throw drove the diamond nipped Reiner who was trying to steal 2nd. It was a pretty double play. No runs.

Sixth.—John Stampf walked, Weber hit by pitcher; Schaub brought both home on a three-bagger and was himself scored by Weber's low drive. Reiner hit

Heckler's easy drive between his legs and Weber ran home on the error. Heckler was caught stealing second. L. Stampf got first, stole second and third and got home while his brother was beating, a base to first. Five runs Klein got first as did also Froehlich, but they were both caught between bases, the result of reckless stealing. Gascio struck out.

Seventh.—J. Stampf out at 1st on an erratic decision. Weaver fanned and Schummer out on a fly. H. Schaub and Dingwall out at 1st, and Stable struck out.

REBELLION.

I've forced the issue at the house,
I've had my say and scraped it out,
I've cracked the service knee, too long,
My wife has ordered me about,
And meekly I've obeyed her will;
But now we're had an awful row,
And this is what I told her straight:
"I won't pit cherries anyhow!"

I've mowed the lawn, and buttoned her
waist,

I've turned the ice cream freezer too;
And I'll wipe the dishes now and then.
All things in reason will I do,
I'll put the little ones to bed,
And that's not my work you'll allow.
But I've announced myself to her,
"I won't pit cherries anyhow!"

I will admit a man should help
His wife by doing simple chores;
A man I think should mow the lawn,
And he should paint the kitchen doors;
A man should always do his best
To smooth the furrows from her brow,
But here the limit has been reached—
"I won't pit cherries anyhow!"

We had it out last night, when she
Commanded I should start to pit
Two handfuls of the luscious fruit,
And thought that meekly I'd submit,
"Get out," I said to her, like that,
"To such commands I will not bow,
I'll sweep the cellar steps, but wife,
I won't pit cherries, anyhow!"

What if I must be called a brute,
Devoid of feeling and a knave?
What if I must be told that I
Look on a woman as a slave?
I'll have to stand it, I suppose,
For I have made this solemn vow,
I'll do most everything for her
But I won't pit cherries anyhow!"

MAKING FOUR DOLLARS DO.

The Toronto Globe extended a request to the working girls of Toronto to tell how they "managed" on the small salary they were forced to take before they were capable of earning more. The following letter is well written and interesting:

"If a girl has to live on \$4 a week and makes up her mind she can do it, she can, and I would like to tell how a girl and I did this for a year before we both got better pay, I in library work and she in the millinery. We were in a departmental store together, though we had only taken that work until we could get better work and better pay. We got a room at \$2 a week, so each paid one. Then we had \$1.50 a week each over our food. If you don't think this possible I can assure you it is if you are satisfied with plain wholesome things and don't want much variety. We used to count on ten cents a day each for meat—we bought chops or little stewing pieces and did them on our little oil stove for dinner in the evening. Then we got a pint of milk a day between us and a pound of butter did us a week. For breakfast we had fruit (usually apples or bananas), rolled oats, or some other cereal, and a slice of toast; for lunch we took bread and cheese and fruit, and for dinner in the evening, meat, bread and something else, often peas and raisins (which are said to be very good for one and are not dear at all), or apple sauce or corn starch. This left us \$1.50 each for clothes, etc. Of course we could not get much that we did not make ourselves, but we made all the blouses we needed and my friend trimmed our hats, and we made our white wear. I look back on that year with pleasure, though I would not want to do it all my life, and that is one reason I went out of store work. Being in a library I enjoy, as I was always a reader, although my salary is not so good as my friend's in millinery. But one learns that there is much that is dry in library work, the books are not all interesting, though I am fond of my work.

—What fun can you have on \$4 a week? Well, you can read, and you can go to the island or the parks in summer, and you can make friends with lots of girls if you are interested in girls (as I am). A girl should not remain at \$4, but if she has any sense she can live on it while she has to. Worker"

If only the deserving had friends, how many would be friendless.

2nd.—The hearth which lifts up,—the only clean way of removing ashes;

3rd.—Extra deep ash pan which can be lifted right out;

4th.—The division strip that carries half the heat around the front of the oven—the part that baked slow on the old range.
